Product Description

Custom Reverse Tuck End Perfume Box , Recyclable 350gsm Black Specialty Paper , Gold Hot Stamping , Green Inner Printing

Product Description

This custom reverse tuck end perfume box is designed for 50ml perfume bottle packaging, combining a sophisticated appearance with practical functionality. Made from recyclable 350gsm black specialty paper, the folding carton features elegant gold foil stamping on the front, highlighting cactus illustrations, botanical patterns, and brand lettering for a distinctive luxury look. The interior is finished with green spot color printing, creating an attractive contrast with the black exterior.

Featuring a reverse tuck end structure, this custom perfume carton ships flat to reduce storage and transportation costs and can be quickly assembled when needed. It is an ideal packaging solution for perfume brands looking for premium, eco-conscious, and visually distinctive fragrance packaging.

We offer full customization options, including box dimensions, paper materials, artwork, spot color printing, gold or silver foil stamping, and other premium finishing techniques.

Key Features & Benefits

Recyclable 350gsm Black Specialty Paper — Premium & Eco-Conscious Packaging

Made from 350gsm recyclable black specialty paper, this perfume folding carton offers a distinctive texture and elegant appearance. It provides a refined packaging solution for fragrance brands seeking to combine premium presentation with recyclable paper materials.

Gold Hot Stamping — Elegant Luxury Brand Presentation

Gold foil stamping enhances the cactus illustrations, botanical patterns, and brand lettering on the front panel. The metallic finish creates an eye-catching contrast against the black background, helping perfume products stand out on retail shelves.

Green Inner Printing — Distinctive Inside-Out Design

The interior features customized green spot color printing, adding an unexpected visual detail when customers open the box. This inside-and-out printing approach creates a consistent brand experience and enhances the overall packaging presentation.

Reverse Tuck End Structure — Easy Assembly & Convenient Storage

Designed with a reverse tuck end folding carton structure, the box is easy to fold, assemble, and close. Its flat-pack design helps reduce storage space and shipping volume, making it suitable for efficient packaging operations.

Fully Customizable Perfume Carton — Flexible Branding Options

From custom dimensions and paper selection to artwork and decorative finishes, every detail can be tailored to your brand. Optional finishes include gold foil, silver foil, embossing, debossing, matte lamination, and spot UV.

Application Scenarios & Customer Requirements

Application Scenario	Customer Concerns	Our Manufacturing Solutions
50ml Perfume Packaging	The packaging must fit the perfume bottle properly.	Custom box dimensions based on bottle measurements and product specifications.
Luxury Fragrance Brands	Standard packaging may not reflect the brand's premium positioning.	Black specialty paper combined with gold foil stamping creates an elegant appearance.
Botanical & Natural Perfume Collections	Packaging needs to communicate a distinctive botanical identity.	Customized cactus illustrations, botanical patterns, and green interior printing.
Retail Perfume Packaging	Products need attractive shelf presentation.	High-contrast gold foil details help enhance visual appeal and brand recognition.
E-commerce Perfume Packaging	Shipping and storage costs need to be controlled.	Flat-pack folding carton structure helps reduce transportation and warehouse space.
Eco-Conscious Beauty Brands	Brands want paper-based packaging materials.	Recyclable specialty paper provides a paper-based packaging option.

How to Customize Your Perfume Box

Customization Step	Process Details
Step 1: Share Your Requirements	Provide perfume bottle dimensions, quantity, preferred box style, and packaging requirements.
Step 2: Confirm Box Dimensions	Our team recommends suitable carton dimensions based on your 50ml perfume bottle measurements.
Step 3: Artwork & Design	Submit your logo and artwork, or let our team assist with the packaging layout and printing file preparation.
Step 4: Material & Finishing Selection	Confirm 350gsm black specialty paper, green interior printing, gold foil stamping, and other optional finishes.
Step 5: Sample Production	Produce a physical sample for checking dimensions, printing quality, foil effects, and overall appearance.
Step 6: Mass Production	Begin bulk manufacturing after sample and artwork approval.
Step 7: Quality Inspection & Delivery	Inspect finished cartons for printing accuracy, structural quality, and finishing consistency before shipment.

Packaging, Shipping & Logistics

Packaging Method	Flat-packed cartons bundled and packed into export cartons.
Outer Packaging	Strong corrugated export cartons for protection during transportation.
Shipping Advantages	Flat-pack construction reduces shipping volume and warehouse storage requirements.
Shipping Methods	Express, air freight, sea freight, or other available shipping solutions.
Delivery Destination	Worldwide shipping available, including the USA, UK, Europe, Canada, and Australia.
Production Lead Time	Confirmed according to order quantity, sampling requirements, and production schedule.
Shipping Time	Depends on destination, shipping method, and customs clearance.

Frequently Asked Questions (FAQ)

Q1: Can I customize the perfume box size to fit my 50ml perfume bottle?

Yes. We offer fully customized dimensions. Simply provide your perfume bottle's length, width, and height, and our team will recommend a suitable box size.

Q2: Is the 350gsm black specialty paper recyclable?

The specified black specialty paper is a recyclable paper-based material. Actual recyclability depends on the complete packaging construction, coatings, adhesives, and local recycling requirements.

Q3: Can I change the gold foil stamping to silver foil or another color?

Yes. We support gold foil, silver foil, and other available hot stamping colors to match your brand identity.

Q4: Can the inside and outside of the box have different printing designs?

Absolutely. We support customized exterior and interior printing, including different spot colors, CMYK artwork, logos, and brand messages.

Q5: Does this perfume box require glue during assembly?

The reverse tuck end structure is designed for convenient folding and assembly. Whether additional gluing is required depends on the final carton construction.

Q6: Can I request a sample before placing a bulk order?

Yes. We recommend sampling before mass production so you can check the box dimensions, material, printing, gold foil stamping, and overall quality.

Q7: What is your minimum order quantity (MOQ)?

MOQ depends on the box dimensions, material, printing requirements, and production process. Please contact us with your specifications for a quotation.

Q8: Can you ship custom perfume boxes to the USA and Europe?

Yes. We support international shipments to the USA, Europe, and other global markets. Shipping methods can be selected according to your order quantity and delivery requirements.
