Basic Information

- Place of Origin: shenzhen china
- Brand Name: OEM/ODM
- Certification: ISO certificate, Disney, Sedex, FSC
- Model Number: Paper tubes 008
- Minimum Order Quantity: 500
- Price: discussible
- Packaging Details: Standard Export Packing
- Delivery Time: 18-25
- Payment Terms: Western Union,T/T,MoneyGram,L/C
- Supply Ability: 200000 Piece/Pieces Per Month

XL PACKAGING

Product Specification

- Tube Size: 50x50x125mm
- Printing Colors: White, Black, Green, Silver
- Finishing: Matt Lamination, Silver/green Foil, UV
- Material: Hard Paperboard, 157gsm Art Paper
- Insert: Black EVA
- Usage: Food, Cosmetics, Tea, Coffee, Flower
- Shape: Cylinder, Round Shape
- Product Name: Factory Whole Sale Paper Cardboard Tea Tube Packaging
- Highlight: custom paper packaging tubes, custom paper canister packaging, round paper packaging tubes

Elevate your essential oil brand with XL Packaging's custom printed white & black 30ml paper tubes—a sleek, functional blend of monochromatic sophistication and oil-specific protection. Designed exclusively for 30ml essential oil dropper bottles, these cylindrical boxes balance bold visual contrast (white + black) with durability, ensuring your oils stay fresh while standing out on retail shelves. Below's a detailed breakdown of their features, custom printing options, and factory advantages:

30ml-Specific Structure & White/Black Material Blend

A. Precision Sizing & Durable Construction

Tailored to fit standard 30ml essential oil dropper bottles (typically 1.2–1.5 inches in diameter), the tubes prioritize a snug, secure fit while maintaining a compact, travel-friendly profile:

Exact Dimensions: 2.2×5 inches (diameter×height) – optimized to cradle 30ml dropper bottles without excess space (prevents bottle rattling during transit).

Dual-Tone Material Combo:

White Component: 250–300 GSM matte or glossy white art paper (outer layer) – provides a clean, bright base for logo/branding; resistant to minor scuffs and fingerprints.

Black Component: 250–300 GSM matte or textured black paper (options: full black lid + white body, or black lower half + white upper half) – adds depth and contrast, ideal for luxury or minimalist brands.

Inner Protection Layers:

Light-Blocking Liner: Black PE-coated recycled paper (food-safe) – blocks UV rays to preserve oil potency (critical for light-sensitive oils like citrus, retinol blends).

Leak-Resistant Gasket: Optional foam or silicone gasket at the tube's opening – prevents accidental oil spills and maintains a tight seal.

B. Structural Reinforcement for Oils

Rigid Cardboard Core: 350 GSM FSC-certified cardboard core – keeps the tube's shape intact, protecting glass 30ml dropper bottles from crushing or bending.

Smooth (Tube Mouth): Reinforced paper rim at the top – prevents the tube from tearing when inserting/removing the oil bottle, and ensures a seamless fit with the lid.

Custom Printing: White & Black Contrast Design

The white-black color scheme serves as a high-impact canvas for branding—whether you prioritize minimalism, luxury, or clarity. XL Packaging offers tailored printing for both hues to maximize visual appeal:

A. Printing on White Surfaces

Use the white base to highlight bold, easy-to-read elements that pop against the dark contrast:

Logo & Branding:

Black Silk Screen Printing: Crisp black logos, brand names, or taglines (e.g., “100% Pure Lavender Oil”) – ensures sharp visibility without overwhelming the white backdrop.

Metallic Foil Stamping: Gold, silver, or copper foil for premium accents (e.g., a small foil crest or “Premium Blend” text) – elevates luxury for high-end oil lines.

Visual Graphics: Simple line art (e.g., lavender sprigs, tea tree leaves) in black or dark gray – reinforces the oil's natural origin without cluttering the design.

The Essential Oil Paper Tube is a high-quality cylindrical packaging solution designed for essential oils. This paper tube features a rolled edge construction and consists of three parts - an upper cap, lower cap, and inner box. It can be easily manufactured with machines, making it a cost-effective option.

Essential Oil-Specific Functional Design

A. Secure Closures for Freshness

30ml essential oils require airtight, leak-proof seals to preserve aroma and potency—XL Packaging offers two optimized closure options:

Friction-Fit Lid (White or Black): Snug slide-on lid (matching either the white body or black accent) – easy to open/close, with a tight fit that blocks dust and air. Ideal for everyday use and retail displays.

Screw-Top Lid with Seal: Threaded black or white lid paired with a removable aluminum foil seal – ensures tamper-proofing (critical for e-commerce or bulk sales) and zero leakage. The seal also signals “freshness” to customers.

B. User-Centric Details

Dropper Accessibility: The tube's height (5 inches) leaves enough space to remove the 30ml bottle's dropper cap without disassembling the tube – convenient for in-use refills.

Label Compatibility: Smooth white/black surfaces accept additional recyclable paper labels (e.g., batch numbers, expiration dates) – no need for plastic stickers, aligning with eco goals.

Travel-Friendly: Compact 2.2×5 inch size fits easily in purses, gym bags, or travel kits – perfect for on-the-go essential oil users.

Factory Customization & Quality Assurance

A. Tailored Production Process

XL Packaging’s factory streamlines customization to ensure your white & black 30ml tubes match your brand’s vision:
Design Consultation: Share your logo, color preferences (matte/gloss white/black), and printing needs – receive 3D mockups to visualize the final product (e.g., white body + black lid with gold foil logo).
Sample Testing: Physical samples (7–10 days) include a 30ml dummy bottle to test fit, closure tightness, and print durability (e.g., ink smudge resistance).
Bulk Production: Automated tube rolling, printing, and assembly for 500+ units – strict checks for:
Print alignment (no off-center logos on white surfaces).
Lid fit (no loose or overly tight closures).
Light-blocking liner adhesion (no peeling that could expose oil to UV).

B. Eco-Credentials

Sustainable Materials: FSC-certified cardboard, soy-based inks, and recyclable PE liners – appeal to 76% of essential oil shoppers who prioritize eco-friendly packaging (Euromonitor 2024).
Zero Plastic Add-Ons: Optional paper-based seals instead of plastic – keeps the tube fully recyclable.

Why Choose XL Packaging’s 30ml White & Black Tubes?

Visual Impact: White + black contrast creates a timeless, high-end look that stands out next to colorful competitors.
Oil-Specific Protection: Light-blocking liners and secure closures preserve oil potency and prevent leaks.
Brand Flexibility: Custom printing lets you highlight logos, ingredients, or usage tips without cluttering the design.
Eco Alignment: Sustainable materials align with essential oil brands’ “natural” positioning.

Conclusion

XL Packaging’s custom printed white & black 30ml paper tubes offer a sleek, functional solution for essential oil brands seeking to balance style and practicality. By combining monochromatic sophistication, 30ml-specific sizing, and oil-focused protection, these tubes enhance your product’s appeal while ensuring it arrives fresh and intact. Partner with our factory to create packaging that reflects your brand’s identity and resonates with eco-conscious, luxury-focused customers.

The paper tubes Constructed from eco-friendly materials such as cardboard and art paper, this perfume paper tube is both sustainable and durable. With dimensions of 50x50x125mm, it can be customized to suit specific product requirements. The upper cap of the cosmetic paper tube is predominantly black, with UV printed text on the front to create a glossy effect. The essential oil cylinder box also features green foil stamping on the top to complement the overall design. The inner box of the tube packaging is adorned with green foil stamping, visible when the paper tube is closed.

The lower cap of the paper packaging tube is white with black printing, finished with a matte film coating for water resistance and added durability. Silver and green foil stamping further enhance the aesthetics of the cardboard round tube, giving it a sophisticated and stylish appearance.

Upon opening the paper tube, a black EVA insert is revealed, providing a secure and protective cushion for storing essential oils. This insert ensures that the products remain safe and undamaged during transportation.
