Welcome to our custom gift box factory! **Established in 2011**, we have grown into a large-scale and reputable enterprise.

XL Packaging specializes in crafting custom luxury cylindrical paper tube packaging tailored for floral gifts, combining artistic design, structural integrity, and eco-conscious materials. As a leading factory, we offer end-to-end solutions for brands seeking to elevate their flower packaging with personalized branding and functional innovation. Below is a detailed breakdown of our offerings:

1. Structural Design & Functionality

Our round cardboard paper tubes are engineered for both aesthetics and practicality:

Customizable Dimensions: Standard diameters range from 50mm to 150mm, with heights adjustable from 100mm to 300mm .

Unique shapes like tapered ends or hexagonal profiles are also available for premium collections.

Secure Closures:

Spiral Threaded Lids: Precision-molded plastic or paper lids with screw-on mechanisms for airtight sealing .

Magnetic Snap Closures: Hidden magnets embedded in the tube and lid for seamless, elegant opening.

Telescoping Design: Slip-fit lids that slide over the tube body, ideal for gift sets with multiple compartments.

Interior Protection:

EVA Foam Inserts: Custom-cut foam trays to cradle delicate blooms, preventing petal damage during transit .

Moisture-Resistant Liners: Food-grade kraft paper or PE-coated interiors to shield flowers from humidity .

2. Material Innovation & Sustainability

We prioritize eco-friendly materials without compromising quality:

Core Materials:

1200gsm Rigid Cardboard: Recyclable, FSC-certified board for structural rigidity.

Kraft Paper Wraps: Natural brown or white kraft paper with a rustic, organic texture.

Bamboo Fiber Composite: Biodegradable alternative for high-end, sustainable branding .

Sustainable Features:

100% Recyclable Components: All paperboard and inserts can be recycled post-use.

Biodegradable Coatings: Water-based UV varnishes and soy-based inks for eco-compliant finishes .

FSC/PEFC Certification: Ensures sourcing from responsibly managed forests .

3. Customization & Branding

Our full-spectrum customization transforms tubes into brand storytelling tools:

Printing Techniques:

CMYK/Pantone Matching: Vivid floral patterns, gradients, or watercolor effects with 1200dpi resolution.

Foil Stamping: Gold, silver, or holographic foil accents for logos, borders, or embossed textures .

UV Spot Varnish: Glossy highlights on petals or text to create depth and tactile appeal.

Surface Finishes:

Matte Velvet Lamination: Soft-touch coatings for a luxurious feel.

Embossed Petal Patterns: Raised floral motifs that mimic real flower textures.

Window Panels: Clear PVC-free film windows to showcase blooms while maintaining structural integrity .

Functional Add-Ons:

Ribbon Handles: Satin or grosgrain ribbons for easy carrying.

QR Code Integration: Printed codes linking to care instructions or product stories.

4. Industry Applications & Case Studies

Our cylindrical tubes excel in floral and gift packaging:

Boutique Florists: A 100mm-diameter tube with a telescoping lid, wrapped in embossed linen-textured paper and tied with a silk ribbon. The interior features EVA foam with slots for 6-8 roses, paired with a removable water pouch for freshness .

Wedding Bouquets: A 150mm-diameter tube with a magnetic lid, printed with gold foil calligraphy and lined with ivory satin. The tube doubles as a keepsake vase post-event.

Luxury Fragrances: A 80mm-diameter tube for single-stem roses, paired with a matching perfume vial holder. The exterior uses UV-printed holographic foil to mimic dewdrops on petals.

5. Sustainability & Innovation

Moisture Resistance: Tubes can be treated with wax coating or vacuum aluminized layers to extend flower freshness .

Zero-Plastic Options: All-paper constructions with biodegradable adhesives for eco-conscious brands.

Interactive Design: Tubes can include detachable seed packets or planting instructions for a "grow-your-own" post-consumer experience.

Why Choose XL Packaging?

Factory-Direct Efficiency: Eliminate middlemen for competitive pricing and faster turnaround.

Design Support: In-house 3D modeling and prototyping to visualize custom concepts.

Global Compliance: Export-ready packaging meeting EU, US, and Asia-Pacific standards.

Contact us today to create packaging that blends artistry with sustainability, ensuring your floral gifts leave a lasting impression. Whether for weddings, luxury gifting, or everyday bouquets, our cylindrical paper tubes redefine elegance in packaging.

The circular gift box is made of 157gsm art paper and 2mm black gray board. This material combination is not only sturdy and durable, but also has good environmental characteristics. 157gsm art paper is commonly used for high-end packaging due to its excellent texture, which can provide a luxurious visual experience. In addition, the 2mm black gray board enhances the stability and protection of the gift box, providing better protection for internal items during transportation.

Customized design: This gift box supports CMYK printing and matte lamination, which means highly personalized designs can be achieved, such as logo printing. CMYK printing is a common color printing technology that can produce a variety of colors, while matte film coating can increase surface durability and anti fingerprint effect, making gift boxes more professional and high-end in touch.

The circular gift box is suitable for various occasions such as Valentine's Day flowers, and its design not only conforms to the aesthetic of traditional gift packaging, but also meets the personalized and practical needs of modern consumers. This design approach is consistent with the trend of gift packaging design mentioned in the literature, emphasizing emotional expression and functionality.

The gift box design takes into account the needs of convenient transportation and is equipped with black ropes, which not only makes it convenient to carry, but also adds a certain decorative effect. In modern fast-paced life, gift packaging that is easy to carry and display is increasingly valued.

This circular gift box embodies the needs of the high-end market in both design and functionality. It not only emphasizes the beauty and practicality of the product, but also meets the requirements of environmental protection and sustainable development. It is a packaging solution that is very suitable for use as high-end gifts.
