- Sample Time: About 7days
- Highlight: **Cmyk Printing Make Up Packaging Box, Cardboard Make Up Packaging Box, Cosmetic Eyeshadow Palette Box**

Product Description

Make Up cmyk printing Cardboard Packaging Custom Cosmetic Magnetic Lid Eye Shadow Palette Box with heart shape Mirror

The box is made of 1200mm paper board and 157gsm art paper, which ensures the durability and high-end feel of the box. As traditional but widely used packaging material, cardboard has good mechanical strength and stability, making it suitable for manufacturing box structures. Art paper enhances the aesthetics and texture of the box, making it not only practical but also aesthetically valuable. The box is made of sustainable materials, which are environmentally friendly and very suitable for consumers with strong environmental awareness. Currently, the cosmetics industry is increasingly emphasizing the use of bio based and biodegradable materials to reduce their impact on the environment. Adopting CMYK printing technology and providing personalized design options can meet the unique needs of the brand. This printing technology allows for rich color and pattern designs on the box while maintaining environmental standards, as it avoids the use of volatile organic compounds (VOCs) and other harmful chemicals. The magnetic lid provides convenient opening and safe closing, which not only enhances the user experience but also adds a touch of luxury. The application of magnetic structures has been proven to effectively improve the sealing performance and convenience of packaging. These boxes are suitable for packaging eye shadow plates and equipped with heart-shaped mirrors, which are very suitable for cosmetics products. This design not only increases the attractiveness of the product, but also enhances its practicality, allowing consumers to directly use heart-shaped mirrors for makeup from the packaging. In summary, this customized cosmetic magnetic box combines high-quality materials, environmentally friendly design, personalized options, and practical functional features, not only meeting the needs of modern consumers for aesthetics and practicality, but also in line with the trend of environmental protection and sustainable development.

Product Description
