Black Rigid Paper Earphone Packaging Box Shockproof Mobile Bluetooth Headset Box With Magnetic Closure Foam Insert Gloss Lamination Sleek Design For Wireless Earbuds Tech Gifts

The design and craftsmanship of this earphone box are exquisitely crafted, showcasing a concept of environmental protection and high technology. Firstly, the dust-proof sleeve is made of 350g card paper in a deep blue color, with a matte film treatment on the surface for a softer feel. The top is printed with a headphone pattern, enhanced with UV processing to create a glossy effect, making the headphone design visually striking. Additionally, silver hot stamping text is added to enhance its aesthetic appeal.

Remove the dust-proof sleeve, you will find a headphone gift box made of 1500g paperboard and 157g art paper, materials that are both environmentally friendly and effective in protecting the headphones. The fluorescent yellow exterior of the earphone gift box packaging is eye-catching, with only a green hot-stamped logo on the top, providing a simple yet high-quality appearance. The surface of the **earphones wired box** has been specially treated to be smooth and soft, enhancing the user's tactile experience.

Inside the **earphone paper box**, you will discover a 2-piece set flip box, with the inner top cover in black and the **earphone paper** gift box lower cover featuring black EVA foam with blue and white printed paper on surface for holding the earphones. This earphone box design is not only aesthetically pleasing but also complements the overall design style of the paper box sleeve, creating a simple yet non-monotonous look for the entire earphone gift box packaging.

This earphone box embodies environmental protection and high technology in material selection, craftsmanship, and design concept. Not only is it elegant and sophisticated, but it also effectively protects the headphones, making it an outstanding earphone packaging box design.
