Custom Printed Gift Boxes for Lipstick & Lip Gloss Sets

Premium Features & Benefits

Sturdy Rigid Lid & Base Construction

Flat rectangular separate lid and base rigid box structure with thickened high-density cardboard skeleton. Maintains excellent hardness and flatness without sagging, warping, or collapsed corners during storage and transportation.

Custom 10-Cavity Integrated EVA Liner

Black one-piece molded EVA foam insert with 10 independent cylindrical grooves. Each lipstick or lip gloss tube is placed separately to prevent friction, collision, scratches, and displacement during logistics.

Custom Vintage Stamp CMYK Printing

Exterior wrapped with high-quality white art paper featuring delicate full-color vintage stamp pattern printing. Retro artistic style helps cosmetic sets stand out in competitive beauty markets.

Highly Flexible All-Round Customization

Full customization available for outer box dimensions, liner cavity quantity, cavity shape, and internal layout. Multiple surface finishing techniques optional including hot stamping, embossing, debossing, and spot UV.

Wide Multi-Scenario Compatibility

Designed for 10-color lipstick collection sets and lip gloss gift kits. Applied for brand holiday limited gift boxes, beauty boutique counter display, cross-border e-commerce, and corporate client gifts.

Customer Solutions & Benefits

Customer Concerns	Professional Solutions
Lipstick tubes collide, scratch and shift during international shipping	Custom integrated molded EVA/flocked foam liner with independent cylindrical slots for tight positioning and shock absorption
Ordinary paper boxes deform and crush after long-term stacking	Thick high-density rigid cardboard provides strong compression resistance and maintains flat shape
Homogeneous packaging makes brands hard to attract consumers	Custom full-color artwork printing, brand logo imprint, and diversified surface craft upgrades
Different brands have varying tube diameters, lengths and quantities	Flexible customization service for outer box size, liner cavity number, shape and spacing
Need packaging for both store display and safe delivery	Minimalist appearance for tidy shelf display with rigid structure and protective inner liner

Product Specifications

Item	Specification
Box Model	Flat Rectangular Separable Lid & Base Rigid Gift Box
Main Structural Material	Thickened High Density Grey Rigid Cardboard

Outer Wrapping Material	Premium White Art Paper
Standard Printing Process	CMYK Full Color Offset Printing
Default Inner Liner	Black One-Piece Molded EVA Foam, 10 Independent Cylindrical Cavities
Optional Replaceable Liner	Flocked EVA Foam, Corrugated Card Divider, Paper Tray
Optional Surface Finishing	Matte Lamination, Glossy Lamination, Hot Gold/Silver Stamping, Emboss & Deboss, Spot UV Coating
Structural Feature	Separated lid and base, smooth closure, neat right-angle cutting

Customization Process

Step	Process Details
Step 1	Submit complete requirements: box dimensions, printing artwork file, liner layout, surface finishing, order quantity and delivery terms
Step 2	Design department creates accurate die-cut line drawings and 3D digital mockups for preview and revision confirmation
Step 3	Pre-production physical sample manufacturing with photos or physical samples for quality checking
Step 4	Receive final sample approval and schedule mass production according to confirmed specifications
Step 5	Multi-stage quality inspection during and after production for printing color, structure, fitting, and finish
Step 6	Complete packaging and arrange shipment with tracking information provided

Packaging & Logistics Standards

Logistics Item	Regulations
Inner Protection	Each rigid box individually wrapped with PE plastic bag to prevent dust, fingerprints and surface scratches
Outer Export Packing	Sturdy 5-layer export corrugated cartons with edge protection angle pads
Stacking Rule	Maximum stacking height marked on outer cartons to avoid extrusion deformation
Available Trade Terms	EXW, FOB, CFR, CIF, DAP, DDP and other international trade terms supported
Transport Options	Sea freight for bulk orders; Air freight for urgent orders; International express for samples

Frequently Asked Questions

Can I modify the number and size of cavities inside the foam liner?

Yes. We can customize 6/8/10/12 slots or other special layouts. The diameter and depth of each cylindrical cavity can be adjusted to perfectly fit your lipstick or lip gloss tubes.

Can I use my own design artwork and print my brand logo on the box?

Definitely. Please provide vector files in AI, PDF or EPS format. We support full custom patterns, brand logo printing, color matching and pattern modification to meet your brand positioning.

What extra decorative crafts can be added besides basic full-color printing?

Multiple optional upgrades: hot gold/silver/rose gold stamping, embossing, debossing, matte/gloss film lamination, spot UV varnish. We can combine different crafts to improve packaging luxury.

What is your minimum order quantity (MOQ) for this rigid cosmetic box?

MOQ is negotiable. We welcome small trial orders for new brands. Unit price will be adjusted according to your order volume; larger quantity brings more favorable unit cost.

Are customized samples available before mass production?

Yes, custom pre-production samples are available. Sample cost can be partially or fully refunded once your bulk order reaches the agreed quantity standard.

How long is the sample lead time and mass production lead time?

Custom sample production normally takes 5-7 working days. Mass production cycle ranges from 12-20 working days, subject to order quantity, craft complexity and production schedule.
