Elevate your cosmetic brand with this OEM luxury gift box set, featuring rose gold glitter aesthetics, clear PVC windows, and plush flocked trays. Designed for premium makeup, skincare, or fragrance sets, this packaging combines opulence, functionality, and brand sophistication. Below is a detailed breakdown of its features, customization options, and production excellence:

I. Luxurious Rose Gold Glitter Design

A. Eye-Catching Exterior

Rose Gold Glitter Paper:

Premium paper with fine rose gold glitter particles for a glamorous, festive look.

Matte or glossy laminate finish to enhance sparkle and protect against smudging.

Clear PVC Window:

Transparent PVC panel (2x3 inches or custom size) on the lid or front panel to showcase products (e.g., a lipstick, palette, or perfume bottle).

Die-cut window shapes (round, oval, or geometric) to match the box's theme.

B. Elegant Structure

Rigid Carton Construction:

300–400 GSM cardboard for sturdiness, ideal for gift sets or retail display.

Lid-and-Base Design:

Snug-fitting lid with magnetic closure for a seamless, luxurious unboxing experience.

Flocked Tray Insert:

Soft velvet-like flocked tray (usually black or rose gold) to cradle products, adding texture and protection.

II. Customization for Brand Excellence

A. OEM Branding Options

Logo Integration:

Foil stamping (rose gold, gold, or silver) for logos, brand names, or slogans (e.g., "Luxury Collection" in rose gold foil).

Embossing/debossing for tactile brand logos or motifs (e.g., a floral pattern or cosmetic icon).

Thematic Graphics:

Print abstract patterns, floral designs, or product illustrations in complementary colors (e.g., soft pinks, silvers).

Color Coordination:

Match Pantone shades to align with your brand's color palette (e.g., rose gold #PMS 871C).

B. Tray & Interior Details

Flocked Tray Customization:

Die-cut slots to fit specific products (e.g., a lipstick, eyeshadow palette, and mini serum).

Removable tray for easy access to lower compartments (ideal for multi-layer gift sets).

Additional Inserts:

Branded tissue paper, thank-you cards, or product brochures tucked under the tray.

III. Functional Features for Cosmetics

Product Protection & Display,

PVC Window Benefits:

Showcases products without opening the box, boosting impulse purchases in retail.

Frosted PVC options for a subtle, mysterious effect (ideal for limited-edition items).

Flocked Tray Functionality:

Cushions fragile items (glass bottles, palettes) and prevents shifting during transit.

Luxurious texture enhances the perceived value of the products.

IV. Production & Sustainability

A. OEM Manufacturing Process, Eco-Friendly Options

Design Consultation:

Collaborate on box dimensions, window placement, and flock tray specifications.

Sample Development:

3D mockup and physical prototype to test glitter paper texture, tray fit, and closure functionality.

Bulk Production:

Automated printing and assembly for 500+ units, with QC checks for glitter consistency and tray alignment.

Recyclable Materials:

FSC-certified cardboard and water-based inks for the exterior.

PVC Alternatives:

Biodegradable plant-based films (e.g., cellulose acetate) instead of traditional PVC.

Reusable Packaging:

Encourage repurposing via printed messages (e.g., "Keep for Jewelry!").
