Product Description

Luxury Custom Magnetic Closure Cosmetic Box with EVA Insert Personalized Design

Product Structure

This rigid book-style flip gift box features an integrated folding structure with a simple flat book shape. The inner lid supports high-definition graphic and portrait printing to showcase brand visuals immediately upon opening. Inside is a one-piece white die-cut cardboard insert with multi-size hollow slots that neatly hold toner, serum, dropper bottles, and skincare samples.

The minimalist pure white outer box can be printed with brand logos and patterns for a clean, premium appearance. Perfect for multi-piece skincare kits, salon skincare sets, cosmetic collections, and trial kits. Suitable for offline boutique display, cross-border beauty packaging, brand VIP gifts, and e-commerce skincare bundles.

Material & Printing Technology

The box uses thickened high-density rigid cardboard as its supporting framework, maintaining square and stiff shape without bending or corner collapse during long-term stacked storage. The exterior is wrapped with premium white art paper with a smooth, delicate surface.

CMYK full-color printing is available for the outer surface and inner lid to print logos, portrait images, and brand slogans. Optional upgrades include hot stamping, embossing, matte lamination, and more. The insert is made of thick die-cut eco-friendly cardboard with customizable hollow layouts designed according to your cosmetic containers.

Core Selling Points

- Book-Style Flip Structure with Large Inner Printing Area:** Integrated book flip design delivers smooth opening experience with extra wide printable space for portrait photos, brand stories, and marketing copy
- Custom Die-Cut Cardboard Liner:** One-piece molded cardboard insert with precise hollow cutouts that separate toners, essences, and trial samples to avoid messy placement
- Thick Rigid Cardboard Skeleton:** Built with heavy-duty rigid cardboard that remains flat and angular after long-time stacking, resisting extrusion and deformation
- Minimalist White Base & Diverse Custom Crafts:** Clean pure white art paper creates modern minimalist aesthetic with full customization including CMYK printing, hot stamping, embossing, and surface lamination
- Lightweight Eco-Friendly Paper Construction:** Recyclable paper materials ideal for skincare sets, beauty trial kits, cosmetic gift bundles, and corporate beauty giveaways

Customer Pain Points & Factory Solutions

Customer Concerns & Pain Points	Professional Factory Solutions
Hope to leave deep brand impression when consumers open the gift box	Large printable area on inner lid, support portrait printing, brand slogan and customized graphic design
Multiple skincare bottles are messy inside the box without fixed placement	Custom die-cut cardboard insert with exclusive hollow slots for each cosmetic product to keep orderly arrangement

Frequently Asked Questions

Q1: Can I print photos and images on the inner lid?

A1: Yes. The inner flip lid supports CMYK full-color printing, suitable for portrait photos, brand stories and promotional graphics. Please provide vector or high-resolution picture files.

Q2: Is the cardboard liner able to fit my unique skincare bottle sizes?

A2: Absolutely. We customize the shape, depth and position of each hollow slot based on your product dimensions.

Q3: Can I change the pure white surface to other colors?

A3: Yes. We can use art paper of different colors or print solid color backgrounds on the box exterior as you require.

Q4: What is the minimum order quantity? Can I make samples first?

A4: MOQ is negotiable. Custom pre-production samples are available. Sample fees can be partially refunded once bulk order reaches agreed volume.

Q5: How long is sample lead time and mass production lead time?

A5: Custom sample takes 5-7 working days. Mass production requires 12-20 working days, subject to order quantity and craft complexity.

Q6: Are the paper materials eco-friendly for European and American markets?

A6: Recyclable paper materials and eco ink are optional, which can meet common environmental requirements for cross-border beauty packaging.
