Product Description

Customized Chocolate Packaging Box with Lid and Sponge Insert Rigid Kraft Gift Box

Product Overview

This square two-piece rigid gift box features a separate lid and base with tight-fitting design for easy opening and closing. The integrated die-cut kraft paper insert contains 9 evenly distributed circular cavities arranged in a 3*3 matrix, providing stable positioning for spherical chocolates, truffles, or dessert balls with paper baking cups.

Independent compartments prevent desserts from squeezing, colliding, and scratching during transportation. The exterior features a minimalist matte black design for premium visual appeal. Ideal for handmade chocolate sets, bakery holiday gifts, wedding favor boxes, afternoon tea dessert packaging, retail bakery display, e-commerce dessert delivery, corporate gifts, and cross-border chocolate packaging.

Material & Craft Performance

Constructed with thick high-density rigid cardboard for outstanding stiffness, maintaining flatness and resisting bending or corner collapse after long-term stacked storage. The outer surface is wrapped with matte special art paper with elegant solid black finish, while the inner liner is made of eco-friendly kraft paper with excellent toughness.

Custom services include box dimensions, cavity quantity, CMYK printing, hot stamping, and embossing. We can adjust hole diameter and layout to accommodate 6-cavity, 12-cavity, and other customized layouts to meet personalized packaging demands for bakeries and dessert studios.

Core Features

- Neat matrix cavity layout: Standard 3*3 nine-hole arrangement creates tidy display and excellent visual presentation
- Food-safe eco-friendly material: Odor-free kraft paper liner, ideal for dessert and food packaging
- Minimalist black appearance: Highlights the texture of chocolates without distracting decorations
- Flexible customization: Adjustable cavity quantity, box size and surface printing techniques as required

Customer Solutions

Customer Concerns	Factory Solutions
Spherical handmade chocolates are vulnerable to extrusion and surface scratches during transit	Independent circular cavities separate every chocolate. Paper cup positioning avoids collision and friction between products
Require safe food-grade packaging without strange odor	Adopt eco-friendly kraft paper and food-contact safe paper materials with non-toxic ink
Hope to achieve high-end simple display and highlight desserts	Matte solid black outer box serves as neutral background to showcase chocolate colors and textures
Need multiple cavity specifications for diversified sales	Support customized layouts: 6 cavities, 9 cavities, 12 cavities with holes tailored to chocolate sizes

Bakery brands want customized logo and exclusive packaging	Provide CMYK printing, hot stamping, emboss and deboss to realize brand identity customization
Boxes are easy to deform after long stacking	Thick rigid cardboard structure delivers strong compression resistance to prevent sagging corners

Product Specifications

Item	Details
Box Type	Square rigid lid & base gift box
Main Core Material	Thick high-density rigid cardboard
Outer Surface Material	Matte black special art paper
Inner Liner Material	Eco-friendly die-cut kraft paper
Standard Layout	3 rows * 3 columns, 9 circular cavities (hole size customizable)
Optional Layouts	6 cavities / 9 cavities / 12 cavities available
Available Crafts	CMYK printing, hot stamping, silver stamping, emboss, lamination
Suitable Products	Spherical truffle chocolate, handmade filled chocolate, dessert balls, wedding candies, bakery pastries
Customizable Contents	Box size, hole diameter, cavity amount, printing patterns, logo finishing

Customization Process

Step	Process Description
Step 1: Demand Communication	Confirm box dimensions, hole size, cavity layout, printing requirements, order quantity and lead time. Provide size reference of chocolate products
Step 2: Design Drafting	Our designer creates renderings and die-cut drawings for customer confirmation on cavity arrangement and logo position
Step 3: Pre-production Sampling	Produce physical samples to check cavity fitting, box flatness and printing effect
Step 4: Sample Approval	Customer confirms sample quality; formal mass production will be arranged after confirmation
Step 5: Mass Production & QC	Complete cardboard cutting, paper mounting, printing, liner die-cutting and box assembly with multi-stage quality inspection
Step 6: Finished Goods Inspection	Inspect box appearance, cavity precision and bonding quality, eliminate defective products
Step 7: Packing & Shipment	Protect each box separately, load into export cartons and arrange delivery

Packaging & Logistics Standards

Logistics Item	Detailed Standard
Single Box Protection	Each box wrapped with independent PE dust-proof film to prevent scratches and fingerprints
Outer Carton	5-layer thick export corrugated carton; paper corner protectors for bulk orders
Loading Rule	Control loading quantity to avoid heavy extrusion; reserve buffer space inside cartons
Carton Marking	Custom shipping marks, moisture-proof and fragile warning labels available
Shipping Options	International express for samples; air freight for small batches; sea freight for bulk orders
Storage Tips	Stack cartons horizontally and limit stacking height to prevent deformation
Trade Terms	Support EXW, FOB and other common international trade terms

Frequently Asked Questions

Q1: Can I adjust the hole diameter to fit chocolates of different sizes?

A1: Yes. We customize liner die-cuts according to your actual chocolate diameter for perfect fitting.

Q2: Can I choose 6-cavity or 12-cavity layout instead of 9 cavities?

A2: Multiple layouts are available. 6-hole, 9-hole, 12-hole and irregular arrangements can be customized.

Q3: Is the packaging material safe for food contact?

A3: The kraft liner is eco-friendly without harmful coating. We can adopt food-grade ink and paper if direct food contact is required.

Q4: Can I print my shop logo and patterns on boxes?

A4: Multiple finishing options including color printing, hot stamping and embossing are supported for brand customization.

Q5: Can I get samples before mass production?

A5: Pre-production samples are available for confirmation of size, layout and appearance before bulk order.

Q6: What is the production lead time?

A6: Sample lead time: 5-7 working days. Mass production lead time: 12-18 working days. Rush orders can be negotiated.

Custom square rigid lid and base chocolate gift boxes with die-cut kraft inserts are ready for your business!

We support customized cavity sizes, grid layouts, logo printing and various surface finishing. Perfect packaging for handmade truffles, dessert balls and wedding favors. Get free design mockups and competitive factory wholesale prices.
