- Size: Customized Size
- Design: Customer Provide
- Color: Customizable
- Sealing: Heat Seal
- Application: Snack, Coffee, Tea, Pet Food, Etc.
- Feature: Moisture Proof
- Usage: Food Packaging
- Material Structure: MOPP+VMPET+PE
- Industrial Use: Shoes & Clothing, Mailing, Packaging
- Highlight: **Stand up Pouch Mylar Zipper Bag,
Mylar Zipper Bag With Logo,
Food Grade Mylar Zipper Bag**

XL PACKAGING

Product Description

Wholesale Spice Powder Packaging Zipper Mylar Bag Food Grade Plastic Stand up Pouc hwith Logo

These zipper bags are made of durable and high-quality plastic. Plastic, as a packaging material, is widely used in the packaging of food and other commodities due to its lightweight, easy processing, and low cost characteristics. Especially types of plastics such as polyethylene (PE) and polypropylene (PP), due to their excellent chemical stability and mechanical properties, are commonly used in the manufacturing of various packaging products. The zippered top design ensures a tight seal, which effectively prevents air from entering and maintains the freshness and safety of internal items. In addition, plastic materials themselves have good barrier properties, which can further enhance the protective effect of packaging. Provide customized sizes and printing options, allowing users to customize bags according to their needs and preferences. This flexibility makes zipper bags not only suitable for homes and offices, but also to meet specific business needs, such as brand promotion or product display. Suitable for storing various items, from food to small parts or accessories, these bags are multifunctional storage solutions for homes, offices, or travel. The versatility of plastic packaging has been validated in multiple fields, including food, cosmetics, pharmaceuticals, and more. Replace traditional plastic packaging cans with environmentally friendly and reusable sealed plastic bags to reduce the use of packaging materials.

Material characteristics:

1. High barrier properties: Mylar material has good barrier properties against oxygen, moisture, light, etc., which can effectively protect the items inside the bag from external environmental influences. For example, in terms of food storage, it can prevent food from getting damp and spoiling, and extend the shelf life of food; For some drugs, electronic products, etc. that require moisture and oxidation prevention, Mylar zipper bags are also a good packaging choice.
2. High strength: The material of this bag is tough, not easily broken or damaged, has good wear resistance and tensile strength, and can withstand certain weight and pressure.
3. Good heat resistance: It can be used in certain high-temperature environments and has good thermal stability, which makes it advantageous in packaging applications that require heating treatment or high-temperature environments.

Zipper design:

1. Good sealing: The zipper design allows the bag to be easily opened and closed, and provides a good sealing effect to ensure the safety of the items inside the bag. This sealing performance is very important for items that need to be kept dry, fresh, or sterile.
2. Reusable: Zippers are usually of good quality and can be opened and closed multiple times, making it convenient for users to take out or put in items, increasing the convenience and economy of bag use.

Widely applicable fields:

1. Food storage: It can be used to store nuts, coffee beans, tea, dry goods and other foods to maintain their freshness and taste.
2. Industrial applications: Used in industries such as electronics, chemicals, and pharmaceuticals to package components, reagents, drugs, etc., providing protection against moisture, corrosion, and static electricity.
3. Commercial packaging: Suitable for packaging gifts, cosmetics, stationery and other goods, with good display effect and protective function. For example, some cosmetics brands use Mylar zippered bags to package samples or sets of products, which is both convenient for consumers to use and can enhance the product's quality.

Product Description

Item	Heat Sealing Mylar Aluminum Foil Bags Reusable Mylar Storage Bags With Sheets Self-Adhesive Label Stickers Mylar Bag
Size	Customized size
Material	PLASTIC
Sealing & Handle	Zipper Top
Printing	According to customer requirements
MOQ	500pcs
