Key Features

Premium Bamboo Pulp Material

Made from 100% renewable bamboo fiber, these tissues are naturally hypoallergenic, biodegradable, and free from harsh chemicals or bleach.

Bamboo's inherent antibacterial properties make them safe for sensitive skin, baby care, and daily facial use.

Natural ivory color (no artificial whitening) reflects our commitment to sustainability and purity.

Customizable Ply & Sheet Options

Ply Variations:

3-ply: Balanced durability for household tasks (e.g., kitchen spills, pet care).

4-ply: Heavy-duty strength for commercial use (e.g., hotels, restaurants, offices).

Sheet Counts: Choose 100 or 150 sheets per box to suit different consumption needs, from compact household boxes to bulk commercial packs.

Pulp selection:

Facial tissue paper is generally made from virgin wood pulp or bamboo pulp as the main raw materials. Native wood pulp fibers are longer, have high softness, good toughness, and can provide a good user experience. Bamboo pulp has the characteristics of environmental protection and natural antibacterial properties.

Some facial tissues may also contain a certain proportion of recycled fibers, but it is necessary to ensure that they meet quality standards and do not affect the softness and water absorption of the product.

Facial Paper Tissue: The Indispensable Companion

Facial paper tissue is a true essential in our daily lives, offering a host of remarkable features.

In terms of product characteristics, it boasts a soft texture that caresses the skin gently. Its absorbent nature makes it ideal for various tasks, from facial cleansing to mopping up spills. Hypoallergenic properties ensure it is safe for even the most sensitive skin. Thick and durable, it can withstand daily use without easily tearing. As a disposable product, it provides convenience and hygiene. Portable, it can be carried anywhere, making it a must-have for on-the-go lifestyles.

The uses of facial paper tissue are extensive. It is perfect for facial cleansing, removing makeup with ease. Hand wiping becomes a breeze, and it can also be used to cover sneezes and coughs, promoting good hygiene. As a travel companion, it is compact and useful in various situations. In the office, it is an essential supply for quick clean-ups. At home, it is a household essential that is always within reach.

Regarding quality, facial paper tissue is of high quality, crafted from premium materials. Sterilized to ensure cleanliness, it is dust-free and has a smooth surface that feels luxurious. Tear-resistant, it can handle even the toughest tasks.
