Product Description

Custom Special-Shape Valentine's Day Chocolate Gift Boxes 1.5mm Rigid Board For Holiday Candy Packaging

Box Structure

This split-style hexagonal lid-and-base rigid gift box features a fully detachable top lid. Multi-faceted angular contours create a strong three-dimensional geometric visual effect. The lid is covered with golden glitter material and decorated with a matching satin ribbon bow, providing an exquisite gifting experience without additional wrapping. The inner wall is lined with white paper, offering spacious capacity. Optional inserts include flocked, EVA, or cardboard dividers upon custom request. Ideal for packaging chocolate candies, fresh flowers, preserved flowers, jewelry, perfume samples, and wedding favors. Widely used for Valentine's Day gifts, wedding souvenirs, birthday party gifts, retail displays, cross-border holiday packaging, and luxury brand giveaways.

Material & Glitter Craft Performance

Constructed with thick high-density rigid cardboard as the inner skeleton, this multi-sided box maintains firm shape and resists corner collapse during stacking. The lid features premium golden glitter specialty paper with fine sparkling particles, while side walls use matte golden art paper. This dual-gold material combination creates rich visual layers. The premium pre-tied ribbon bow can be designed as detachable. Customization options include box dimensions, glitter color, ribbon color, hot-stamped/UV-printed brand logos, and various functional inserts for candy, floral, cosmetic, and jewelry product packaging.

Core Selling Points

Unique Hexagonal Geometric Shape | High-recognition Festive Outlook

Distinct from ordinary square and round boxes, the sharp multi-faceted outline stands out on retail shelves, attracting consumer attention for holiday gift scenarios.

Glitter Surface With Pre-made Ribbon Bow | Ready-to-use Gifting Experience

Fine glitter-coated lid creates sparkling luxury texture. Pre-tied ribbon bow eliminates secondary wrapping work and enhances premium unboxing experience.

Thick High-Density Rigid Cardboard | Anti-deformation Structural Stability

Heavy-duty cardboard skeleton reinforces hexagonal edges. The rigid structure prevents denting and corner damage during mass stacking and long-distance transportation.

Dual-tone Gold Material Collocation | Layered Premium Texture

Sparkling glitter lid complements matte golden box body. Two-tone gold design delivers elegant luxury feeling, perfect for weddings, Valentine's Day, and high-end gift-giving occasions.

Versatile Custom Compatibility | Multi-category Product Adaptation

Fully customizable in size, glitter hue, ribbon style, logo printing, and insert solutions. Compatible with candy, preserved flowers, jewelry, aroma samples, and various gift items.

Customer Concerns & Solutions

Customer Concerns	Manufacturer Solutions
Need eye-catching outlook with strong holiday festive vibe	Adopt special hexagonal shape; apply golden glitter paper for lid, equip pre-tied golden ribbon bow, ready for direct gift giving
Fear special-shaped box gets crushed during stacking & transit	Adopt thick high-density rigid cardboard, strengthen hexagonal edge structure for better compression resistance
Need to print own brand identity	Support hot-stamping and UV printing logo on lid and box body; adjust ribbon color to match brand VI system
Box needs to hold various products such as chocolate, preserved flower, jewelry	Provide optional EVA, flocked or cardboard inserts with customized die-cut cavities for different goods
Worried about glitter powder dropping and contaminating inner goods	Adopt high-quality glitter specialty paper with powder-fixing treatment to minimize powder shedding

Step 4	Produce pre-production sample for your inspection on appearance, craft and dimension
Step 5	Start mass production after sample confirmation
Step 6	Complete mass production, conduct pre-shipment inspection before delivery

Packaging & Logistics

Item	Description
Inner Protection	Each box packed with individual PE dust-proof bag to prevent glitter friction and scratch
Outer Carton	Export-grade 5-layer corrugated carton, filled with pearl cotton to buffer edges and corners
Packing Method	Lids and bases packed separately to reduce volume and cut shipping cost
Shipping Choices	Sea freight, air freight, DHL / FedEx express available
Remark	Please manually install ribbon bow after receiving goods

Frequently Asked Questions

Q1: Will the glitter lid shed golden powder easily?

A: We adopt glitter paper with professional powder-fixing treatment. Little powder shedding occurs under normal use. Please avoid heavy friction on glitter surface.

Q2: Can I change the ribbon bow to other colors?

A: Yes. Multiple ribbon color options are available. Bow-free version is also acceptable.

Q3: What is the minimum order quantity?

A: Standard MOQ for full custom order is 500 pcs. Please contact us for small-batch trial order evaluation.

Q4: Can other glitter colors be produced?

A: Sure. Silver glitter, rose-gold glitter, black glitter and other glitter paper materials are supported.

Q5: Is this box suitable for preserved flower packaging?

A: Yes. It has spacious inner space. Custom insert can be offered if you need to fix preserved flowers.
