Product Description

High Quality Custom Paper Box Rotatable Food Storage Box for Ornament Gift Collection Box with Metal Lock

A high-quality custom paper box that doubles as a rotatable food storage box or an ornament gift collection box, complete with a metal lock, offers a range of appealing features and considerations. Here's a detailed look at it:

Design and Appearance

High-Quality Paper Material:

Durability: The use of high-quality paper, likely in the form of thick cardstock or rigid paperboard, provides a sturdy base for the box. It ensures that the box can maintain its shape and withstand regular handling, whether it's being used to store food items or hold precious ornaments. This durability is crucial for protecting the contents and giving the box a sense of quality.

Aesthetic Potential: High-quality paper can be finished in various ways to enhance its visual appeal. It can have a smooth texture for a sleek look or be embossed or debossed to add a tactile and sophisticated element. Different coatings like matte or glossy finishes can be applied, with a matte finish giving an elegant and understated charm and a glossy finish making the box look shiny and more luxurious.

Rotatable Design:

Functionality: The rotatable feature is both unique and practical. For food storage, it allows easy access to different items stored inside without having to rummage through the box. For example, if it's used to store various types of snacks or small food portions, one can simply rotate the box to find the desired item. In the case of an ornament collection box, it enables a better display of the ornaments from different angles, adding an element of interactivity and making it more engaging when viewing the collection.

Space Utilization: The rotatable design can also make efficient use of space. It can be designed with multiple compartments or sections that are organized in a circular manner, maximizing the storage capacity while still keeping the items accessible and organized.

Metal Lock:

Security: The metal lock serves an important purpose in securing the contents. For food storage, it helps keep the contents fresh by providing a tight seal and preventing air from entering or food from spilling out. In the case of an ornament collection box, it safeguards valuable and delicate items from accidental damage or unauthorized access, giving the owner peace of mind.

Aesthetic Enhancement: From an aesthetic perspective, the metal lock adds a touch of elegance and a sense of solidity to the box. It can be designed in different styles, such as an antique brass finish for a vintage look or a sleek silver design for a more modern and sophisticated appearance, enhancing the overall visual appeal of the box.

Custom Design:

Branding: The box can be customized with your brand logo, name, or a special message. If it's intended for commercial use as a food storage box, this branding helps in building brand awareness and recognition. For a gift collection box, the customization can add a personal touch, making it a unique and memorable present. The logo or message can be placed strategically on the box, perhaps on the lid or the front face, to make it visible and part of the overall design.

Thematic Design: Depending on the intended use or occasion, the box can feature thematic designs. For food storage, it might incorporate images of the types of food it's designed to hold or have a clean and hygienic look. For an ornament collection box, it could have decorative elements related to holidays (e.g., snowflakes for Christmas, hearts for Valentine's Day) or a more general elegant and artistic theme.

Benefits for Packaging

Protection: The combination of the sturdy paper construction, the rotatable design that helps keep items organized, and the metal lock offers excellent protection for the contents. For food, it maintains freshness and prevents spoilage and damage. For ornaments, it keeps them safe from physical damage, dust, and other environmental factors.

Presentation: The unique rotatable design and the addition of the metal lock make the box an attractive option for both food storage and as a gift collection box. It elevates the perceived value of the contents, whether it's a carefully curated selection of snacks or a collection of precious ornaments. The box becomes part of the overall display and gifting experience, making it more appealing to users.

Branding and Marketing: Customizing the box with your brand elements helps in building brand awareness and loyalty. If it's part of a product line for food storage, it can attract customers and set your product apart from competitors. In the case of a gift box, the distinct packaging can influence the recipient's perception of the gift and create a memorable impression associated with your brand or the giver.

Versatility: The dual functionality of being suitable for food storage and as an ornament collection box makes it a versatile packaging option. It can be used in different settings, such as in the kitchen, on a display shelf for ornaments, or as a gift for various occasions, depending on how it's customized and presented.

Considerations for Customization

Size and Fit: Consider the size of the food items or ornaments you plan to store. The compartments or sections within the rotatable box should be sized appropriately to hold them comfortably without being too cramped or having excessive empty space. For food, ensure there's enough room for the quantity you want to store while maintaining freshness. For ornaments, account for their different shapes and sizes to prevent damage.

Functionality of the Rotatable Mechanism: Test the rotatable feature to ensure it functions smoothly. It should rotate easily without getting stuck or requiring excessive force. The mechanism should also be durable enough to withstand repeated use over time.

Strength of the Metal Lock: The metal lock should be reliable and sturdy. It should hold firmly when locked but also be easy to open and close. Check for any sharp edges or parts that could potentially cause harm or snag on items.

Supplier Selection: Look for a reliable supplier with experience in producing custom paper boxes with unique features like rotatable designs and metal locks. They should be able to provide samples, offer advice on design and material choices, and ensure timely delivery. Read reviews and ask for references to make sure you're getting a quality product that meets your expectations.

In conclusion, a high-quality custom paper box with a rotatable design and a metal lock is a great packaging solution for both food storage and ornament collection. By carefully considering the design, benefits, and customization aspects, you can create a box that not only protects the contents but also enhances their allure and usability in different contexts.

In conclusion, a high-quality custom paper box with a rotatable design and a metal lock is a great packaging solution for both food storage and ornament collection. By carefully considering the design, benefits, and customization aspects, you can create a box that not only protects the contents but also enhances their allure and usability in different contexts.

Presales and aftersales services

We have professional consultant to service you, when you place order, she or he will offer you packaging service until your order finished.

How To Cooperation with Us?

Total packaging cooperation with XL packaging, tell you how to custom packaging with us.

01.

Get quote

Send to quote to us, the details about MOQ,design, logo,size etc.

02.

Design

Artwork design confirmation with us. (PDF,CDA etc.)

03.

Making sample

To make sure product satisfied with you, we suggest that make a sample before bulk order production.

04.

Production

Any details confirmation start to production.The time will depends on your quantities. In generally 10-15 days.

05.

QC&Packing

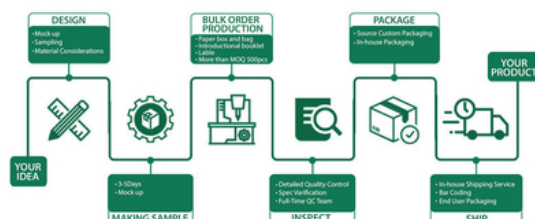

Before delivery, our QC inspector or customer will check the quality, no any problems will keep going next process.

06.

Delivery Service

We will confirm address with you again, if you have no forwarder in China, we will help you find or offer you delivery service.

HOW TO CUSTOMIZED??

- 1:Our products are of various kinds and all of paper packaging can be customized.
- 2:Design is our core competitiveness, show us a simple photo or an idea, a good packaging solution will comes to you.
- 3:The handmade work of our paper box is excellent, Everyone pays attention to the small details.
- 4:We own the most advanced equipment and complete product lines,guarantee for the quickest speed to processing customer order.
- 5:Skilled QC technicians provide assurance that products are of the highest quality.

6:A variety of modes of transportation are available for you, just waiting for the goods.
