1. Durable 350gsm Paperboard Construction

The carton box is manufactured from high-quality 350gsm cardboard, providing excellent stiffness and durability. This thickness ensures the box maintains its structure, protects the product inside, and delivers a solid, premium feel suitable for gift packaging.

2.High-Resolution CMYK Offset Printing

The design is printed using full CMYK offset printing, which produces vivid, saturated colors and sharp graphic details. The red, green, and blue backgrounds, along with the illustrated artwork and text, are clean, consistent, and visually striking.

3.Hot Foil Stamped Gold Logo

The brand logo is enhanced with gold hot foil stamping. This finishing technique adds a metallic shine and tactile contrast to the surface, elevating the overall appearance and creating a luxury visual effect that stands out on the shelf.

4.Eco-friendly and Recyclable Material

The paperboard used for the box is environmentally friendly and recyclable. The material choice supports sustainable packaging practices while maintaining high strength and printability.

5. Custom Gift Box Production Based on Client Artwork

The gift box is precisely produced according to the client's design. Accurate die-cutting, clean folding lines, and perfect graphic alignment demonstrate professional craftsmanship and the ability to customize packaging to meet specific branding needs.
