Product Description

Podium Style 5ml Bottles Perfume Discovery Set Rolled Edge Paper Tube Box With Foam Tray

Product Overview

Present your fragrance collection in a perfume discovery set box engineered for 5 ml perfume bottles. This rolled edge paper tube features a custom foam tray holder that secures each vial, while the podium style tube box creates an elegant display for retail counters, subscription boxes, and luxury gift sets.

The perfume discovery set box is crafted from high-strength greyboard wrapped in premium double copper paper (C2S art paper), formed into a rolled edge paper tube with a smooth, safe rim. Inside, a die-cut foam tray holder keeps 5 ml perfume bottles upright and protected, and the podium style tube box elevates the set for premium shelf presentation.

Primary Applications

- Perfume discovery sets and sample vials
- Cosmetic and skincare gift sets
- Subscription boxes and retail counter displays

Key Features & Benefits

Feature	Description	Customer Benefit
Perfume Discovery Set Box	Purpose-built tube packaging for 5 ml perfume bottles and sample vials	Perfect fit for fragrance discovery programs and sampler kits
Rolled Edge Paper Tube	Smooth rolled rim on a rigid greyboard paper tube structure	Safe handling, refined finish, and durable protection
Foam Tray Holder	Custom die-cut foam insert holds each 5 ml bottle firmly	Prevents movement and breakage during transport and display
Podium Style Tube Box	Elevated podium-style presentation with custom printed tube body	Creates premium unboxing and retail counter appeal
Fully Custom Printing	CMYK / Pantone printing with matte, gloss, UV, or foil finishes	Strengthens brand identity across markets

Usage Scenarios

Application Scenario	Customer Concern	Solution Provided
Perfume Discovery Sets	5 ml vials move and collide during shipping	Foam tray holder locks each bottle in place
Luxury Gift Packaging	Need premium presentation for high-end brands	Podium style tube box with custom printed finish
Retail Counter Display	Samples need upright, attractive display	Rigid rolled edge tube stands securely on shelf
E-commerce Subscription Boxes	Unboxing experience and shipping safety	Sturdy greyboard tube with protective foam insert

MOQ	Flexible depending on customization

Frequently Asked Questions

Can the foam tray hold different bottle sizes?

Yes, the foam tray holder is die-cut to match your bottle dimensions, including 5 ml vials and other custom sizes.

Can I customize the printing and finish?

Absolutely. Full custom printing and surface finishes are available based on your artwork.

Is the rolled edge paper tube strong enough for shipping?

Yes, the rigid greyboard tube with rolled edge and foam insert protects bottles during transport and retail display.

What is the minimum order quantity (MOQ)?

MOQ depends on size and printing complexity and is flexible for new brands and bulk orders.

Can I request samples before bulk production?

Yes, sample support is available to confirm quality and design before mass production.

Packaging & Shipping

Step	Packaging Method	Timeframe	Notes
Inner Protection	Each tube box wrapped with protective film	Same day packing after production	Prevent scratches and compression
Outer Carton	Strong export-grade cartons	Standard export packing	Suitable for international shipping
Pallet Loading	Optional pallet reinforcement for bulk orders	1-2 days preparation	Improves safety for sea freight
Delivery Time	18-25 days production	Depending on customization	Air/sea shipping available

Customization Process

Step 1: Inquiry Submission

Send bottle size, quantity, and design idea. Provide reference or artwork if available.

Step 2: Quotation

Receive pricing and solution. Confirm material, printing, and structure.

Step 3: Design Confirmation

We provide die-line and mockup. Check artwork accuracy carefully.

Step 4: Sample Production

Physical sample made. Approve before mass production.

Step 5: Mass Production

Bulk paper tube boxes manufacturing. Production time 18-25 days.

Step 6: Quality Inspection

QC checks before shipping. Ensure consistency and durability.

Step 7: Shipment

Export packing & delivery. Track logistics until arrival.
