- Design Service: Free Dieline And Structural Design Support
- Product: Wine Box
- Highlight: **Magnetic Closure Box Gold Foil Logo, Sponge Tray Wine Bottle Gift Box,**

Product Description

750ml Wine Bottle Packing Gift Box with Sponge Tray & Magnet Closure

Premium custom wine gift box engineered for the standard 750ml bottle: a rigid magnetic closure box, high-density sponge tray insert, and gold foil logo stamping deliver a secure, elegant, and brand-worthy unboxing every time.

Perfect for wineries, distributors, gift companies and brand owners seeking customized wine packaging in one trusted paper box factory.

Core Selling Points

Selling Point	What It Means For Your Business
1. Magnet Closure Box with Logo Gold Foil	A sturdy magnetic flip-lid structure keeps the box elegantly sealed, while gold foil stamping puts your logo on the cover in a premium, eye-catching finish that strengthens brand recognition on shelves and in gift giving.
2. Gift Box with Sponge Tray for Wine Bottle Packing	The custom high-density sponge tray is precision-cut to cradle the bottle neck and body, absorbing shock and preventing scratches during transport, storage and display - a reusable gift box your customers will keep.
3. 750ml Wine Bottle Packing Gift Box	Built around the world's most common wine bottle size (750ml Bordeaux / Burgundy style), the interior cavity fits standard bottles perfectly so you can order with confidence, no trial-and-error sizing.

Hot Search Keywords

custom wine gift box magnetic closure box gold foil logo packaging 750ml wine bottle box sponge tray wine box
luxury wine packaging box whisky gift box with insert champagne bottle gift box rigid paper box
wine box with sponge insert personalized wine packaging wholesale wine boxes

All 12 keywords above are covered by this product's structure, material and finishing options - fully searchable and customizable to your target market.

Application & Solution Matrix - Wine Packaging Scenarios

Application Scenario	Customer Concern	How This Box Solves It
Red wine export & cross-border shipping	Bottles arrive broken or label-scratched after long transit	Sponge tray locks the bottle in place and absorbs vibration; rigid 2.5mm board resists stacking pressure
Winery retail shelf display	Packaging looks cheap and fails to justify the bottle price	Gold foil logo, rich matte lamination and magnetic closure create a premium first impression that lifts perceived value
Corporate & festival gift giving	Gift needs a "wow" unboxing moment	Magnetic flip lid opens smoothly like a book; sponge tray presents the bottle like a display piece
Private label / brand building	Logo and brand story are not visible enough	Full-color CMYK/Pantone printing plus gold foil stamping on lid, side and inner cover for 360-degree branding

Application Scenario	Customer Concern	How This Box Solves It
Standard 750ml bottle packing	Worried the cavity will not fit the bottle	Cavity is pre-engineered for standard 750ml bottles; free dieline check with your bottle drawing before production
Gift set with accessories	Need space for opener, stopper or two glasses	Sponge tray layout is fully customizable - single bottle, double bottle, or bottle plus accessory compartments
Long-term storage & collection	Dust, moisture and light damage over time	Tight-fitting magnetic lid and protective surface coating shield the bottle for months of storage or display

FAQ - Common Paper Box Procurement Questions

Q1: What is the MOQ for custom wine boxes?

Our standard MOQ is 500 pieces for magnetic rigid boxes. For first-time cooperation we recommend starting with a pre-production sample (5-7 days) before you commit the full quantity.

Q2: Can I order just one sample first?

Yes. We produce 1-2 pcs pre-production samples with your artwork. The sample fee is charged once and refunded when you place the bulk order.

Q3: Which materials are available for the box and tray?

The box uses 157gsm coated art paper laminated onto 2.5mm greyboard (rigid box). The insert can be high-density sponge, EVA foam, paper pulp or velvet-covered board - sponge is the most cost-effective choice for 750ml wine bottles.

Q4: Is the sponge tray safe for the bottle surface and label?

Yes. The sponge is soft, non-abrasive and anti-static. The cavity is cut slightly larger than the bottle and lined with smooth fabric (optional velvet) so the label never rubs or scratches.

Q5: What printing and finishing options do you support?

CMYK offset or Pantone spot color, gold/silver foil stamping, embossing/debossing, spot UV, matte or gloss lamination, soft-touch lamination and custom ribbon handles.

Q6: How long is production and what if I need it urgently?

Sample takes 5-7 working days; mass production takes 15-25 working days after sample approval depending on quantity and finishing. Urgent orders can be expedited to 10-12 days after confirmation - please inform us when inquiring.

Q7: What are your payment terms?

30% deposit to start production and 70% balance before shipment, by T/T. PayPal and Western Union are accepted for sample fees and small orders.

Packaging & Logistics - How Your Cartons Are Shipped

Item	Description
Inner packing	Each wine box wrapped in a PP protective bag to prevent scratches and dust

Item	Description
Outer packing	Strong 5-ply export corrugated cartons, sealed with heavy-duty tape
Edge protection	Foam corners and cardboard dividers added for rigid boxes and long-distance sea freight
Carton loading	Approx. 20-50 pcs per carton depending on box size; carton size and gross weight provided on every packing list
Sample delivery	By express only: 3-7 working days door to door (DHL / FedEx / UPS)
Express shipment	3-7 working days door to door for small orders, suitable for urgent restock
Air freight	5-10 working days to major airports worldwide, balance of speed and cost
Sea freight	15-35 days by destination (FOB Shenzhen / Guangzhou supported); best cost for bulk orders
Lead time summary	Sample 5-7 days + mass production 15-25 days + transit time of chosen shipping method

Customization Process - From Inquiry to Your Doorstep

#	Step	What Happens	Customer Attention Points
1	Inquiry & requirement collection	You share bottle type, size, quantity, target market and design references	Provide bottle diameter and height (or send a real bottle); the more detail, the more accurate the quote
2	Quotation & solution proposal	We recommend structure, material, sponge tray layout and finishing, then send a detailed quotation	Confirm price terms (FOB/CIF/EXW), MOQ and payment terms before proceeding
3	Artwork & dieline confirmation	You send logo/artwork; we make the dieline and printing proof for approval	Supply vector files (AI/PDF/CDR) at 300dpi; double-check spelling and logo colors on the proof
4	Pre-production sample	1-2 pcs sample produced in 5-7 working days and shipped by express	Test the real 750ml bottle inside the tray; verify magnet strength, foil effect and finish before approval
5	Sample approval & deposit	You approve the sample and pay the 30% deposit to start mass production	Keep the approved sample as the quality reference; any changes after approval may extend lead time
6	Mass production	Printing, lamination, foil stamping, assembly and sponge tray insertion under QC checks	Production takes 15-25 days; avoid last-minute design changes to keep the schedule
7	Quality inspection & packing	Final inspection, inner PP bag wrapping and export carton packing	Third-party inspection (e.g. SGS) available on request before shipment
8	Shipment & delivery	Balance payment, then we ship by your chosen method and release the tracking number	Confirm delivery address and customs requirements; track the shipment and check cartons upon arrival

Total typical timeline: 5-7 days sample + 15-25 days production + transit time. For urgent promotions we can compress production to 10-12 days - just tell us your deadline at the inquiry stage.
