Frequently Asked Questions

Q1: What is the MOQ for a custom candle box?

The standard MOQ is 500 pieces per design. We also offer trial orders with a smaller quantity after sample approval, which is convenient for startup candle brands testing the market with smaller batches of candle packaging boxes.

Q2: Can the ribbon bow be customized in color and material?

Yes. Satin, grosgrain and organza ribbons are available in any Pantone color, and the bow can be pre-tied by machine or hand-tied for extra fullness. Tell us your brand color palette.

Q3: How do I get a sample before mass production?

Samples are ready within 5-7 days including your texture paper, bevel structure and inner logo printing. The sample fee is refundable or deductible from your bulk order.

Q4: What artwork formats do you accept for the inner logo printing?

AI, PDF, CDR, PSD and 300dpi images are all accepted. Our designers will also prepare a free mockup so you can preview the logo placement inside the lid before approval.

Q5: How long does production and delivery take?

Mass production takes 12-18 days after artwork confirmation. Shipping time depends on the destination: express 3-7 days, air 5-10 days and sea freight 15-35 days to major ports.

Q6: Can you match the texture paper to my existing brand packaging?

Certainly. We stock multiple texture patterns such as linen, leatherette and rice paper. Send us a reference sample or photo and we will match the grain and color closely.
