XL PACKAGING

Product Description

Magnet Chocolate Box with Paper Tray – Gold Foil Logo & Spot UV Finish

Turn every truffle into a moment of delight with a **magnet chocolate box with paper tray**. Designed for chocolatiers, patisseries and gift brands, this rigid structure pairs a silent magnetic closure with a removable tray that presents each piece in its own neat position.

This is **custom chocolate packaging** at its most practical: the cover carries your **gold foil logo**, the surface adds a refined **spot UV printing** sheen, and the inner **paper tray insert** keeps pralines, truffles and bonbons perfectly separated. Whether you run a boutique counter or supply **wholesale chocolate boxes** to retailers, the box can be produced flat-packed to save freight, then assembled in seconds.

Design Highlights of This Rigid Paper Box

Magnetic closure box lid: opens with a satisfying snap and stays shut during courier transit, protecting delicate fillings.

Built as a sturdy **rigid paper box** from 1.5mm high-density board, wrapped in 350gsm art paper – no crushing on the shelf or in the carton.

Custom paper tray with die-cut cavities sized to your chocolates; add a ribbon notch or a finger lift for easy serving.

Gold foil stamping, spot UV, soft-touch or gloss lamination – mix finishes to match the mood of your brand.

Available as single-piece **chocolate gift box** presentation, or as multi-layer **luxury chocolate boxes** for hampers and seasonal sets.

Food-grade coated surfaces keep the box suitable for **eco-friendly chocolate packaging** programs and direct contact with wrapped confectionery.

Customer Concern → How This Box Solves It → Scenario

Customer Concern	How This Magnet Box Solves It	Applicable Scenario (Chocolate Packaging Use)
Chocolates shift and collide during delivery	Die-cut paper tray locks every piece in its own cell; magnet closure keeps the lid firmly shut	E-commerce and courier delivery of pralines, truffles and candy packaging boxes sets
Plain boxes look low-value on the shelf	Gold foil logo and spot UV detailing create a premium unboxing moment	Retail counter display, flagship stores and hotel gift shops
Buyers ask about food contact safety	Food-grade coated paper tray and board materials, backed by test reports on request	Gifting unwrapped chocolates, chocolate tastings and sampling events
Freight cost of bulky rigid boxes is high	Flat-pack option with knock-down corners reduces shipping volume by up to 60%	Bulk export orders via sea freight for importers and distributors
Seasonal campaigns need fast, flexible branding	Quick-turn custom logo printing with low MOQ per design; short runs accepted	Valentine's Day, Easter, Christmas and corporate gifting seasons

Beyond chocolate, this structure suits **personalized chocolate packaging** for weddings, product launches and B2B client gifts – every order is a **custom chocolate box** built around your size, cavity map and artwork.

Specifications at a Glance

Item	Details
Box Type	Magnetic closure rigid chocolate box with paper tray
Material	1.5mm rigid paperboard, 350gsm art paper or kraft lamination
Inner Tray	Food-grade coated paperboard, custom cavity layout

Size	Fully customized (L x W x H) per your chocolate dimensions
MOQ	500 pieces per design
Sample Time	5-7 working days
Certificates	ISO 9001:2015, FSC, SGS food contact

FAQ – Common Paper Box Sourcing Questions

Q1. What is the MOQ for a custom chocolate box with paper tray?

500 pieces per design is our standard MOQ. If you are testing a new market, talk to us about trial quantities – we can often start with a smaller pilot run at a slightly adjusted unit price.

Q2. Which artwork formats do you accept, and how should I prepare files?

AI, PDF, CDR, PSD and EPS are all welcome. Please keep text as outlines and supply images at 300dpi. No artwork yet? We can design the dieline and layout for you based on your logo and box size.

Q3. Is the paper tray food safe if chocolates touch it directly?

Yes. The tray uses food-grade coated paperboard, and the inks and varnishes we apply are selected for indirect and direct food contact. SGS / FDA test documentation can be shared for your market compliance review.

Q4. How much does a sample cost and how long does it take?

Stock samples are free (freight at your side) and leave within 1-2 days. A pre-production sample with your logo, foil and spot UV costs a small fee, takes 5-7 days, and the fee is refunded once you place the bulk order.

Q5. What is the production lead time after sample approval?

Mass production takes 15-20 working days after deposit and artwork confirmation. Repeat orders are faster at 7-10 working days. We confirm a fixed schedule in the quotation so you can plan your launch.

Q6. Can you combine gold foil logo and spot UV with other effects?

Certainly. Foil stamping, spot UV, embossing, debossing, soft-touch lamination and window patches can be combined on the same box. Send your reference photo and our engineers will advise the most cost-effective combination.

Packaging & Logistics

Stage	Details
Inner Packing	Each box wrapped in a clear poly bag; corners cushioned with foam or paper filler to prevent denting
Export Carton	5-layer corrugated export carton, 40-60 boxes per carton depending on size; single carton weight kept under 25kg for safe handling
Palletizing	Standard export pallet with stretch film and corner guards for sea freight (optional)
Sample Dispatch	1-3 working days via DHL / FedEx / UPS express after sample ready
Production Time	15-20 working days for first orders; 7-10 working days for reorders
Shipping Options	Express 3-7 days door-to-door; air freight 5-10 days; sea freight 15-35 days depending on destination port
Tracking	Tracking number shared immediately after shipment; proactive updates until delivery

Customization Journey: From Inquiry to Delivery

Step	What Happens	Customer Notes
------	--------------	----------------

1. Inquiry	Send your target size, piece count, quantity and finish ideas by email or WhatsApp	Prepare the inner dimensions of your chocolate, the number of pieces per box, and a vector logo if available
2. Quotation	We reply within 24 hours with pricing, MOQ and lead time	Confirm the trade term (EXW / FOB / DDP) and ask about sample policy in the same message to save time
3. Artwork & Structural Proof	Free dieline drawing and 3D mockup for your approval	Double-check cavity layout, logo position, Pantone colors and text before we move on
4. Sample Confirmation	Pre-production sample made with your finishes (5-7 days)	Test the magnet strength, tray fit and foil / UV effect; approve in writing or list changes
5. Deposit & Production	30% deposit starts mass production; QC at material, printing and finishing stages	Confirm carton style, palletizing and shipping mark requirements before production begins
6. Quality Check	100% inspection before packing; photos and video shared	Review the inspection report and approve shipment
7. Shipping	Poly bag → export carton → express / air / sea with tracking	Provide the full receiver address, customs rules and preferred shipping method
8. Delivery & After-Sales	Doorstep delivery, order closed with feedback	Keep one sealed sample for color matching on your next reorder

Looking for a **chocolate box manufacturer** who treats your brand like its own? We have supplied **custom printed chocolate boxes** to confectionery brands, supermarkets and gift agencies for over a decade – every carton is inspected, every deadline is honored.
