Product Description

Machine Made Rigid Paper Gift Box Custom Size Colorful Printing For Candle Packaging

This **machine made rigid gift box** pairs a sturdy gray board core with a fully printed art paper wrap, giving candle brands a premium unboxing feel at a controlled cost. Because the board is wrapped and folded on automated equipment, every **rigid gift box** leaves the factory square, clean edged and ready for retail shelves.

We build each **custom size paper box** around your candle jar, so the lid fits snugly and the jar cannot shift. Combining a **colorful printing box** finish with foil or embossed branding turns a simple **paper gift box** into a shelf ready presentation piece that customers keep.

Usage Scenarios: How Our Rigid Box Solves Your Concerns

Here is how our packaging answers the everyday worries buyers raise about a **lid and base box** across candle and lifestyle product lines.

Scenario	Customer Concern About Lid And Base Box	How Our Box Solves It
Scented Candle Jars	Glass jars are heavy and break easily, so a flimsy box means lost margin.	A thick rigid gray board shell with a foam base absorbs impact, and the candle packaging box survives courier handling to protect both product and brand.
Tea Bags & Loose Tea Tins	Tea takes on odours and moisture when the box is not sealed well.	Food grade art paper and a snug lid and base fit keep the tea bag packaging box closed, preserving aroma through storage and shipping.
Ceramic Cups & Teacups	Cups shift inside the box and arrive chipped or cracked.	A die cut insert designed to your cup profile locks the item in place, so the custom size paper box removes movement during transit.
Gift & Holiday Sets	Sets look disjointed and hard to present as a premium gift.	Custom dividers and a printed inner tray turn the paper gift box into a coordinated set that photographs well and sells well.
Subscription & Retail Boxes	Monthly drops need fast, repeatable production with consistent colour.	Machine made rigid box lines hold colour and dimensions batch to batch, keeping every run on brand.

Key Advantages

Premium Feel, Sensible Price: a machine made rigid box delivers the weight and rigidity of luxury packaging without the hand made cost.

Made To Your Size: every custom size paper box is die cut around your candle or cup for a precise fit.

Rich Colour Range: full colour colorful printing box finishes, Pantone matching and foil accents are all standard.

Built To Ship: double wall construction and foam inserts protect fragile glass during long sea or air freight.

Consistent Quality: three inspections and a 100 percent check keep every batch identical.

Technical Specifications

Certifications	ISO 9001, FSC, Sedex, Disney

Packaging & Logistics

How your candle boxes are packed, shipped and delivered, with typical timelines for each option.

Order Quantity	Inner Packing	Outer Carton	Shipping Method	Lead Time	Notes
Sample / pre production	Poly bag per piece	Small export carton	DHL / FedEx / UPS express	3-5 days	Best for checking colour and structure before the run
Small batch (500-5,000 pcs)	50-100 pcs per poly bag	5-layer corrugated carton	Air freight or express	7-12 days	Carton weight confirmed so you can arrange last mile
Mass order (5,000-50,000 pcs)	100-200 pcs per poly bag	5-layer pallet ready carton	Sea freight FCL / LCL	18-30 days	Palletised or loose loaded to match your warehouse
Urgent restock	Poly bag per piece	Standard export carton	Air freight	5-8 days	Ships earliest available production slot

Transit times run from factory dispatch and exclude customs clearance. A full packing list and loading photos are sent before every shipment.

Customization Process: From Inquiry To Delivery

Step	What Happens	What You Should Note
1. Inquiry	You share your candle or cup design, quantities and branding ideas.	Give exact product dimensions and weights so the quote and structure are correct.
2. Quotation	We reply within 24 hours with structure, material and unit price.	Confirm whether insert, foil or special finishing is inside the quoted price.
3. Artwork & Proofing	A die cut and digital mock up are prepared for your approval.	Approve the die cut to guarantee fit, and request a proof for tight tolerance items.
4. Sampling	A physical sample is made and couriered to you.	Check colour, paper texture and rigidity against your quality standard.
5. Order Confirmation	You confirm the order and pay the deposit.	A 30 percent deposit is standard; fix the delivery date in writing.
6. Mass Production	Printing, mounting, die cutting and gluing run on automated lines.	We send progress photos so you can plan your launch.
7. Quality Inspection	Three inspections plus a full check on finished goods.	Request the QC report if your retail buyer requires the paperwork.
8. Balance & Shipment	We pack, load and ship once the balance is settled.	Review packing list and loading photos before the container departs.
9. Delivery	Goods reach your port or door by sea or express.	Have customs documents ready to avoid clearance delay.

Frequently Asked Questions

Q: Are you a manufacturer or a trader?

A: We are a factory direct manufacturer running our own rigid box lines in Dongguan, Guangdong, so you buy at source with tighter cost and lead time control.

Q: What is the MOQ for a machine made rigid gift box?

A: The standard MOQ is 500 pieces per design. Lower trial runs can be discussed for a new launch, and higher volumes reduce the unit price.

Q: Can you produce a custom size paper box for candles?

A: Yes. Send the jar dimensions and weight and we will engineer the right box size, board thickness and foam insert to hold and protect it.

Q: How long does it take from sample to delivery?

A: Samples take 5-7 days after artwork approval and mass production 15-20 days after sample confirmation, plus shipping time.

Q: What printing options do you offer?

A: CMYK offset, Pantone spot colour, full colour colorful printing box finishes, plus gold or silver foil, embossing and spot UV.

Q: How do you protect fragile glass candles in transit?

A: We use double wall rigid board and EVA foam inserts, and drop test the design so the candle packaging box absorbs impact during shipping.

Q: How are orders packed for shipping?

A: Each piece goes into a poly bag and cartons are 5-layer corrugated, pallet ready on request, with a packing list and loading photos before dispatch.

Q: What are your payment terms?

A: T/T, L/C, PayPal and Western Union are accepted, typically 30 percent deposit in advance and the balance against the bill of lading.

Q: Can I receive a free sample?

A: In stock samples are free and ship in 3 days. Custom samples take 5-7 days and carry a small charge that is refundable against the bulk order.
