Product Description

Rigid 2 Layer Chocolate Paper Box – Food Grade Packaging for Chocolate, Biscuit & Pastry

Product Overview

Our rigid 2 layer chocolate paper box is engineered for brands that treat every **luxury chocolate gift box** as a signature moment. The Two-layer rigid build combines a 1200gsm grey board core with a laminated art paper wrap and a food grade paper box insert, giving the structure the weight and hand-feel of a premium **rigid gift box with lid** while keeping it light enough for economical export freight.

Because chocolate and biscuits are fragile and sensitive to heat and pressure, the 2 layer box for chocolate and biscuit packing uses a reinforced double-wall construction that resists crushing in transit. Whether you are a chocolatier ordering a **wholesale chocolate box** run or a bakery launching a seasonal pastry line, this **custom chocolate packaging box** can be produced to your exact size, colour and artwork.

Key Features & Selling Points

Selling Point	Description	Customer Benefit
Rigid Box with 5 Layers	1200gsm grey board core wrapped in printed art paper with a food grade liner, total wall thickness 2.0mm	Keeps its shape, will not flex or dent, feels genuinely premium in the hand
5 Layer Box for Chocolate / Biscuit Packing	Double-wall reinforced body sized to 250g / 500g / 1000g fills	Protects fragile chocolates and biscuits during long-haul shipping
Food Grade Insert	PET or Paper tray with divided compartments, direct food contact compliant	Better to have a bag packed the food firstly
Printing & Finishing	CMYK offset, hot foil stamping, embossing, matte or glossy lamination, spot UV	Your logo and artwork look printed paper packaging box sharp and shelf-ready
Eco-Conscious Material	FSC-certified board and recyclable paper wrap	Supports the growing demand for an eco friendly packaging box

Usage Scenarios & How the 5 Layer Box Solves Customer Concerns

Application Scenario	Customer Concern About the 5 Layers Box	How Our Box Solves It
Chocolate gift / retail packing	Will the box crush or dent when stacked on a shelf or in a display?	The 2 layer rigid wall (2.0mm) resists vertical pressure, so stacked boxes stay crisp and square
Biscuit & cookie packing	Will biscuits break or go stale during transport?	Food grade paper box liner plus a snug compartment tray isolates each piece and seals out moisture

Pastry /点心 gift packing	Is the material safe for direct food contact?	All contact layers use food grade, odourless material compliant with EU and US food safety rules
Seasonal & corporate gifting	Can I brand it and change sizes for different campaigns?	Free 3D mockup, Pantone-accurate printing and custom sizes for a personalized chocolate box
Online & e-commerce direct shipping	Will it survive courier handling and arrive intact?	Reinforced 5 layer body plus export carton protection delivers a damage-free unboxing

Frequently Asked Questions

Q: What is your MOQ for the 5 layer chocolate box?

A: Our standard MOQ is 500 pieces per size and print. Trial or mixed-size orders can be discussed for a first project.

Q: Can I print my own logo and artwork?

A: Yes. Send your AI/PDF artwork or a sketch and we produce a free 3D mockup for approval before production.

Q: Are the materials safe for direct chocolate contact?

A: All inner layers are food grade and odourless, meeting EU and US food contact standards.

Q: How do I know the size will fit my product?

A: Share your product dimensions and fill weight, and we will recommend the ideal cavity layout for your **cardboard gift box manufacturer** run.

Q: Can I get a sample before ordering in bulk?

A: Yes, a stock sample is available quickly, and a custom printed sample takes about 5-7 days.

Q: What is the production lead time?

A: Stock boxes ship in 7-10 days; custom printed boxes take 18-25 days after artwork approval.

Packaging & Shipping

Stage	Packing Method	Quantity	Lead Time
Inner packing	Each box sleeved in a poly bag and separated by foam pads	1 pc / bag	Immediate for stock
Master carton	5-ply export-grade corrugated carton, moisture barrier liner	50 pcs / carton	7-10 days (stock) / 18-25 days (custom)
Air / express	Palletised or carton-only, DHL / UPS / FedEx	Flexible	3-7 days to EU & US
Sea freight	Fumigation-free pallets, full container or LCL	Flexible	About 25-35 days to EU & US ports

A **biscuit packaging box** order typically ships on pallets to protect corners; a **pastry gift box** order can be flat-packed to save freight when you pack on site.

Custom Order Process – From Inquiry to Delivery

Step	What Happens	What the Customer Should Note
1. Inquiry	You send product, size, quantity and target market	Confirm fill weight and any food-contact requirement early
2. Quotation	We return price, MOQ and lead time	Check the currency, Incoterm and whether printing is included
3. Artwork & Mockup	We build a free 3D mockup from your design	Proof colours against Pantone, check logo placement
4. Sample	Physical sample of the cross opening paper box or 5 layer box	Confirm structure, board weight and insert fit before approving
5. Order & Payment	Proforma invoice issued, deposit arranged	Request the payment terms in writing; keep the PI on file
6. Bulk Production	Mass production under QC checkpoints	Reserve time for a production update or mid-run photo
7. Quality Inspection	In-line and final AQL inspection	Confirm the AQL standard and who covers third-party inspection
8. Packing & Shipment	Export cartons, pallets and shipping docs	Verify shipping marks, HS code and consignee details
9. Delivery & Feedback	Goods arrive, we follow up on satisfaction	Inspect on arrival and report any damage within the claim window
