Product Description

Uncoated Paper Book Style Gift Box with Custom Black Finish

Our **eco friendly uncoated paper book style gift box** is made from natural, uncoated board that keeps a soft, matte, skin-friendly touch, and it opens like a book with a flip lid for a premium reveal. Because the surface is not laminated, water-based inks sink in and dry with a rich, natural tone, which makes every **custom packaging boxes** order feel organic and premium rather than plastic and glossy.

As a leading **eco friendly packaging** choice for European and American brands, the uncoated board is fully recyclable and can be FSC-certified on request. The **custom black packaging box** finish is screen painted in your exact Pantone shade, so the colour you approve is the colour your customers see on the shelf.

Inside, a precision die-cut **paper insert box** holds every item firmly. This makes the box a dependable **cosmetic packaging box** for jars, tubes and droppers, and a refined **skincare packaging box** for gift sets. A fitted **luxury gift box** like this protects your product during shipping while turning every unboxing into a brand moment.

Whether you need a small trial run or a large **wholesale gift box** programme, the same structure works as a rigid **gift box with lid** or a space-saving **foldable paper box** that ships flat to lower your freight cost.

Key Features

- 13 Natural uncoated board with a soft matte, fingerprint-resistant surface
- 13 Custom print base in your exact Pantone or CMYK colour
- 13 Precision die-cut paper insert that locks jars, tubes and bottles in place
- 13 Fully recyclable and FSC-certified paper options for eco-conscious brands
- 13 Available as a rigid gift box with lid or a flat-packed foldable paper box
- 13 Logo in gold foil, emboss, deboss, spot UV or screen print
- 13 Ideal as a cosmetic packaging box and skincare packaging box for gift sets
- 13 Reusable structure that keeps your brand visible long after purchase

Application Scenarios & How the Uncoated Set Box Solves Buyer Concerns

Buyers sourcing an **uncoated set box** usually share the same worries. The table below lists the most common concerns you raise during an inquiry and how our box answers each one.

--	--	--

Clothing Packaging	Uncoated board may scuff or stain when folded garments press against it, and the box must stay crisp in retail	Thick 1200g greyboard and a clean matte finish resist scuffing; the foldable paper box keeps its shape and presents folded apparel neatly
Cosmetics & Skincare Packaging	Oils and cream residue can mark the box, and multiple items may knock against each other in transit	A water-based anti-transfer coating plus a fitted paper insert separate every jar, tube and bottle so nothing moves or leaks onto the board
Tea Packaging	Uncoated paper can absorb moisture and odour from tea leaves, weakening the box during storage	Food-grade moisture-resistant liner and an internal divider keep tea tins dry and odour-free, and the brand box looks premium on a tea shelf
Gift & Subscription Sets	Brands worry an eco box will look cheap next to glossy competitors	Custom print, foil logo and a rigid gift box with lid deliver a luxury gift box feel while staying fully recyclable

MOQ	500 Pieces (Custom Inquiry Welcome)

Frequently Asked Questions (FAQ)

Q1. What is your minimum order quantity (MOQ) for custom paper boxes?

Our standard MOQ is 500 pieces per design. For premium rigid and specialty uncoated boxes the MOQ may differ, and we welcome flexible trial orders for first-time buyers.

Q2. Can you customise the box size and structure?

Yes. Every box is built to your product dimensions. We adjust length, width, depth, insert layout and lid style so your items fit perfectly.

Q3. Is uncoated paper strong enough for overseas shipping?

Absolutely. We use 1000-1500g greyboard and reinforced corners, and we can add a protective coating so the uncoated surface arrives clean and undamaged.

Q4. Can I print my own logo and artwork on the box?

Yes. We offer gold/silver foil stamping, embossing, debossing, spot UV, screen printing and full CMYK printing so your branding matches your design files exactly.

Q5. Do you provide samples before mass production?

We strongly recommend a pre-production sample so you can check size, printing, paper texture and insert fit. Sample lead time is 5-7 working days.

Q6. Are your boxes eco-friendly and recyclable?

Yes. We use recyclable, FSC-certified uncoated paper and eco-friendly glue on request, helping your brand meet sustainability expectations in the US and EU markets.

Q7. What payment terms do you accept?

We accept T/T, L/C, PayPal and Western Union. A 30% deposit is standard, with the balance paid before shipment.

Q8. How do I get a quotation?

Send your box dimensions, quantity, artwork and preferred style. Our team replies with a detailed free quotation within 24 hours.

Packaging & Shipping

Every paper box is protected with professional export packing so your goods arrive in perfect condition, wherever you are.

Inner Packaging	Individual poly bag or tissue wrap with protective corners	Included, customisable
Outer Packaging	Export-grade corrugated carton, reinforced with cushioning	Standard export packing
Carton Marking	Shipping marks and labels per your instruction	Confirmed before shipping
Sample Production	Hand-made pre-production sample	5-7 working days
Mass Production	Full production run after sample approval	15-25 working days
Express Shipping	DHL, FedEx, UPS, TNT door to door	3-7 days
Air Freight	Airport to airport	7-12 days
Sea Freight	Port to port, best for large volumes	25-40 days
Quality Inspection	100% inspection before packing	Every batch

Custom Order Process

From your first inquiry to the moment you receive the goods, here is exactly what happens and what you should watch out for at each step.

1	Send Inquiry	Share product size, quantity, box style and target market
2	Requirement Evaluation	Confirm the product to be packed and any special needs; we propose the best structure
3	Free Quotation	Review unit price, tooling cost, MOQ and lead time carefully
4	Artwork Confirmation	Send high-resolution AI/PDF/vector logo files; check colour and text
5	Structure & Dieline	Approve the dieline drawing before sampling
6	Sample Production	Check size, paper texture, printing and insert fit in person
7	Sample Approval	Confirm all details before mass production begins
8	Mass Production	Production strictly follows the approved sample
9	Quality Inspection	Request inspection photos or video before shipment if needed
10	Packing & Shipping	Confirm shipping method, marks and documents before dispatch
11	Receive Goods	Inspect cartons on arrival and report any damage within 7 days
