Product Description

Envelope Shape Skincare Gift Box With Flocking Tray

This **custom printed packaging box** opens with a signature envelope shape, a soft flap form that turns unboxing into a small ritual. Built as a **skincare packaging box**, it pairs a curved envelope lid with a rigid base, so a glass serum bottle or a sample set sits safely inside a premium **luxury packaging box**.

Inside, a **flocking tray** cushions every item in a velvety bed, so the **perfume packaging box** and skincare set stay scratch free and perfectly presented. The envelope silhouette works just as well as a **magnetic closure box** or a fold down **cardboard gift box**, giving your brand a distinctive shape on the shelf.

Usage Scenarios: How Our Envelope Gift Box Solves Your Concerns

Below we map the most common worries buyers raise about an envelope gift box and how our **skincare packaging box** answers them across real applications such as perfume sample packaging, cosmetics and gift sets.

Scenario	Customer Concern About The Gift Box	How Our Box Solves It
Perfume Sample Packaging	Small sample vials look lost and can break in a plain carton.	A flocking tray holds each vial in a soft slot, so the perfume packaging box presents samples safely and looks high end.
Skincare Serum Sets	Glass bottles scratch and rattle against each other.	The flocked insert cushions every bottle, so the skincare packaging box protects delicate glass and keeps the set tidy.
Cosmetic Gift Sets	A generic box does not feel like a gift and looks ordinary.	The envelope shape and soft flocking make a custom cosmetic packaging box that feels like a gift the moment it opens.
Travel & Trial Kits	Items shift around and the packaging looks cheap in a mailer.	A compact envelope gift box with a snug tray doubles as a rigid gift box that survives mailer logistics and still looks premium.
Retail Display	The packaging does not stand out against competitors.	A distinctive envelope silhouette plus a custom logo box finish makes your brand the one buyers remember.

Key Advantages

Distinctive Envelope Shape: a soft flap opening sets an envelope gift box apart from a plain rectangular box.

Velvet Flocking Tray: a flocked insert gives every product a soft bed, so the skincare packaging box protects and presents at once.

Skincare & Perfume Ready: snug tray slots keep bottles upright, turning the box into a reliable perfume packaging box.

Premium Rigid Build: grey board wrapped in art paper gives the box the solid feel of a luxury packaging box.

Eco Friendly Options: a kraft paper box and FSC certified board support your sustainability claims.

Reliable Quality Control: three inspections from material selection to a 100 percent check on finished goods.

Technical Specifications

Product Name	Envelope Shape Skincare Gift Box With Flocking Tray For Perfume Sample Packaging
Box Style	Envelope flap gift box with rigid base, magnetic closure option available
Material	Art paper wrap over 1200g grey board / kraft paper option

Certifications	ISO 9001, FSC, Sedex

Packaging & Logistics

A clear view of how your paper box order is packed and shipped, so you can plan receiving, warehousing and reorder timing with confidence.

Order Quantity	Inner Packing	Outer Carton	Shipping Method	Lead Time	Notes
Sample (under 500 pcs)	Poly bag per piece	Small export carton	DHL / FedEx / UPS express	3-5 days	Best for envelope shape and flocking approval
Small batch (500-5,000 pcs)	50-100 pcs per poly bag	5-layer corrugated carton	Air freight or express	7-12 days	Carton size and weight confirmed before dispatch
Mass order (5,000-50,000 pcs)	100-200 pcs per poly bag	5-layer corrugated pallet ready carton	Sea freight FCL / LCL	18-30 days	Pallet or loose loading per your warehouse
Urgent restock	Poly bag per piece	Standard export carton	Air freight	5-8 days	Subject to production schedule and stock

Freight times are estimates from factory dispatch and exclude customs clearance. We provide a full packing list and loading photos before every shipment.

Customization Process: From Inquiry To Delivery

Step	What Happens	What You Should Note
1. Inquiry	You send us your product, target size, quantity and artwork or ideas.	Share the exact product dimensions and brand colours so we quote accurately.
2. Quotation	We confirm structure, material, printing and unit price within 24 hours.	Check whether the envelope shape, flocking tray or insert is included in the quoted price.
3. Artwork & Proofing	Our designer prepares a die cut and digital mock up for your approval.	Approving the die cut protects the envelope fit; confirm the tray layout on the proof.
4. Sampling	A physical sample is produced and shipped to you.	Confirm the flocking colour and tray fit against your product before mass production.
5. Order Confirmation	You place the order and pay the deposit.	A 30 percent deposit is standard; confirm the delivery date in writing.
6. Mass Production	Printing, die cutting, flocking and gluing run on automated lines.	We share production photos and report progress during the run.
7. Quality Inspection	Three inspections plus a 100 percent check on finished goods.	Ask for the inspection report if your buyer requires documented QC.
8. Balance & Shipment	We pack, load and ship after the balance is settled.	Review the packing list and loading photos before the container leaves.
9. Delivery	Goods arrive at your port or door via sea or express.	Keep customs documents ready to avoid clearance delay.

Frequently Asked Questions

Q: Are you a trading company or a manufacturer?

A: We are a direct factory with our own paper box production lines in Dongguan, Guangdong. You work with the source, which keeps cost and lead time under control.

Q: What is the minimum order quantity for a custom printed packaging box?

A: Our standard MOQ is 500 pieces per design. For a first trial or a new brand launch we can discuss smaller runs, and larger volumes bring the unit price down.

Q: Can you produce a custom envelope shape?

A: Yes. We build the die cut to your exact envelope silhouette, and the flap can fold flat or close with a magnet so the box stays neat in storage.

Q: What is a flocking tray and why use it?

A: A flocking tray is a soft velvet lined insert that holds products in place. It protects glass bottles from scratches and gives the perfume packaging box a premium feel.

Q: How long is production and shipping?

A: Sampling takes 5-7 days, mass production 12-20 days after sample approval. Express shipping is 3-5 days and sea freight 18-30 days depending on your port.

Q: Can I get a sample before placing a bulk order?

A: Yes. We offer a pre-production sample so you can check the envelope shape, flocking tray and print quality before you commit to a full run.
