Product Description

Gold Laser Foldable Paper Box | Full English Product Description

Product Overview

This gold mirror laser foldable paper box is professionally customized for skincare creams, serums and single beauty cosmetic products. Adopting premium gold mirror laser cardboard, the box presents stunning metallic luster and luxurious high-end visual effects. Designed with an auto-lock bottom structure, it requires no glue for assembly and can be folded flat, greatly saving storage and shipping space. The box surface can be printed with brand logos, hexagonal honeycomb patterns and brand texts, matched with CMYK full-color printing, UV coating, embossing and other exquisite crafts. All box dimensions, mirror base colors and printing patterns are fully customizable. Widely suitable for face cream, essence, skincare samples, facial masks and single cosmetic packaging, it is an ideal packaging solution for beauty skincare brands, cross-border e-commerce and offline retail counters with adjustable printing patterns and colors.

Core Selling Points

1. Premium Gold Mirror Laser Cardboard | Luxurious Metallic Visuals

Made of high-gloss gold mirror laser cardboard with natural metallic reflective texture, the box delivers a strong luxurious and upscale appearance. It features outstanding shelf recognition, easily attracts consumers' attention, and effectively improves the premium value and market competitiveness of skincare and beauty products.

2. Auto-lock Bottom Structure | Space-saving & Easy Assembly

Featured with an integrated auto-lock bottom design, the box needs no glue or adhesive during assembly. It can be folded flat for bulk shipment, greatly reducing storage volume and logistics costs. Customers can finish molding in seconds, which is highly efficient for e-commerce daily packaging and mass production.

3. Diverse Custom Crafts | Exclusive Brand Presentation

Supports CMYK full-color printing, UV coating, embossing and other surface finishing technologies. Custom brand logos, geometric honeycomb patterns and promotional slogans are available. The combination of shiny laser base and delicate printing crafts creates layered and high-end packaging, highlighting brand personality and premium positioning.

4. Full Size Customization | Wide Application Compatibility

The length, width and height of the box can be tailor-made according to product specifications. It is compatible with cream jars, essence bottles, skincare samples and various cosmetic single products. Small-batch sample service is supported, perfectly adapting to online e-commerce sales and offline counter display scenarios.

Application Scenarios, Customer Concerns & Solutions

Application Scenarios	Customer Concerns	Our Solutions
Single Cream & Essence Packaging	Need luxurious texture packaging to enhance product premium and attract customer attention	Adopt high-shine gold laser mirror cardboard with metallic gloss; custom brand printing upgrades overall grade and highlights high-end skincare positioning
Cross-border E-commerce Cosmetic Packaging	Large shipping volume leads to high logistics cost; complicated assembly wastes time	Flat foldable auto-lock bottom design saves container space and reduces freight cost; glue-free assembly improves packing efficiency
Offline Counter Product Display	Ordinary packaging lacks attractiveness; blurred logo affects brand image	Reflective gold mirror background provides strong visual impact; high-precision printing ensures clear and delicate logo display for outstanding shelf performance
Skincare Sample & Trial Set Packaging	Various product sizes require flexible customization and fast sample support	Full-size customizable structure adapts to diversified sample specifications; fast sampling service supports small-batch trial production

Product Details Specification

Item	Specification
Box Type	Foldable Paper Box with Auto-lock Bottom
Base Material	High-grade Gold Mirror Laser Cardboard
Surface Crafts	CMYK full-color printing, UV coating, embossing and custom finishing
Printing Content	Brand logo, brand name, hexagonal honeycomb geometric pattern, brand slogan and customized graphics
Box Structure	Auto-lock bottom, foldable flat design, glue-free assembly
Applicable Products	Face cream, essence lotion, skincare samples, facial masks and various single cosmetic products
Customizable Items	Box length/width/height, mirror base color, printing pattern and surface craft

Customization Process (Step by Step)

Step	Process Details
Step 1	Submit requirements: box size, product specification, printing pattern, surface craft and order quantity
Step 2	We calculate unit price and sampling cost and provide official quotation
Step 3	Confirm design artwork, we produce pre-production sample for customer approval
Step 4	Arrange mass production after sample confirmation and deposit received
Step 5	Complete production, strict QC inspection, packaging and delivery

Packaging & Logistics

Item	Description
Inner Packaging	Boxes are stacked flat and wrapped with PE film to prevent surface scratches and protect mirror laser texture
Outer Packaging	Export-grade 5-layer thickened corrugated carton
Shipping Method	Air freight, sea freight, DHL, FedEx, UPS international express
Shipping Protection	Buffer filling materials inside carton to reduce extrusion and avoid mirror surface abrasion
Packing Feature	Flat stacking maximizes carton space utilization and effectively reduces overall logistics cost

FAQ

Q1: Can the gold mirror laser color be changed to silver, rose gold or other tones? A1: Yes, we provide multiple mirror laser cardboard options, including gold, silver, rose gold and other customized metallic colors.

Q2: Is the laser mirror surface easy to scratch? A2: The mirror surface is slightly sensitive. We will equip protective PE film for each box during packaging to avoid scratches during transportation.

Q3: Can the box size be customized according to my cream and bottle dimensions? A3: Absolutely. All length, width and height can be fully tailored to perfectly fit your actual products.

Q4: What is the sample and mass production lead time? A4: Sample lead time: 5–7 working days. Mass production lead time: 12–18 working days after sample confirmation.

Q5: Can I change the box structure instead of auto-lock bottom? A5: Yes, multiple structures are optional, including regular tuck bottom box, airplane box and other foldable box styles.
