Product Description

White Magnetic Flip Premium Gift Box for Beauty Device | Full English Product Description

Product Overview

This white magnetic flip rigid gift box is tailor-made for beauty devices, facial care tool sets and personal care small home appliances. Constructed with thickened rigid cardboard wrapped with high-grade white special art paper, the box adopts a hidden magnetic closure structure for smooth opening and firm closing. Featuring a minimalist pure white appearance, it can be decorated with hot stamping or UV printed brand logos to present an elegant and high-end texture. The interior is equipped with a custom CNC carved EVA inner tray with precise grooving according to the contour of beauty equipment, enabling tight fitting and stable product fixation. It effectively prevents shaking, collision and surface scratching during transportation. Supporting CMYK full-color printing, gold/silver hot stamping, UV coating, embossing, matte and glossy lamination, the box allows full customization of dimensions, background colors, logo crafts and EVA tray shapes. Widely applied for beauty instruments, facial care tools, personal care appliances and high-end beauty gift packaging, it is perfectly suitable for beauty brands, cross-border e-commerce and offline beauty salons with adjustable printing patterns, colors and inner grooving structures.

Core Selling Points

1. Hidden Magnetic Flip Structure | Smooth & Tight Closure

Made of thick rigid cardboard, the box body is stiff, durable and not easy to deform. Built with invisible magnets, the flip lid delivers ultra-smooth opening experience and tight closing without accidental popping open. The minimalist pure white exterior creates a clean, premium and modern brand temperament, achieving excellent shelf display effect for high-end beauty products.

2. CNC Precision Carved EVA Insert | Full Protection for Irregular Devices

The customized EVA inner tray is processed by professional CNC integrated carving technology. All grooves are precisely shaped according to the actual outline of beauty devices, allowing products to be embedded perfectly without shaking or extrusion. The buffer EVA material avoids friction, scratches and collision damage during long-distance transportation, keeping equipment intact and improving unboxing delicacy.

3. Multiple Premium Surface Crafts | Low-cost Brand Upgrade

Supports diverse decorative techniques including full-color printing, gold/silver hot stamping, UV and embossing. Brand logos, slogans and custom patterns can be printed on the box surface and inner lid. The simple white base matches delicate crafts perfectly, highlighting brand recognition and presenting a high-end visual effect without excessive packaging costs.

4. Full Customization Design | Wide Industry Compatibility

All box sizes, background colors, logo styles and EVA grooving layouts are fully customizable. It can flexibly adapt to various irregular beauty instruments, facial care tool sets and personal care small appliances. Available for exclusive personalized packaging for new product launches, retail sales and high-end gift sets.

Application Scenarios, Customer Concerns & Solutions

Application Scenarios	Customer Concerns	Our Solutions
Beauty Instrument Set Packaging	Irregular device shape is prone to shaking and collision; requires minimalist and high-grade packaging appearance	Adopt CNC precision grooved EVA tray for full fitting protection; pure white magnetic rigid box ensures premium texture and stable product fixing
Personal Care Small Appliance Gift Sets	E-commerce express transportation easily causes box deformation and product damage	Thickened rigid cardboard improves compression resistance; shock-absorbent EVA inner tray reduces transportation breakage rate effectively
Beauty Brand New Product Display Boxes	Need clean and minimalist packaging to highlight brand logo for offline shelf display	Pure white blank box surface matches UV and hot stamping logo crafts; three-dimensional box shape provides high-end and neat visual performance
Cross-border E-commerce Beauty Gifts	Need customizable inner structure for mixed products and support small-batch sample making	Support exclusive mold opening and customized grooving layout for various products; fast pre-production sample confirmation service is available

Product Details Specification

Item	Specification
Box Type	Premium Rigid Magnetic Flip Gift Box

Customization Process (Step by Step)

Step	Process Details
Step 1	Submit requirements: box size, product shape, inner grooving plan, surface craft and order quantity
Step 2	We calculate unit price and sampling cost and provide official quotation
Step 3	Confirm design artwork, we produce pre-production sample for customer approval
Step 4	Arrange mass production after sample confirmation and deposit received
Step 5	Complete production, strict QC inspection, packaging and delivery arrangement

Packaging & Logistics

Item	Description
Inner Packaging	Each gift box is individually packed with PE dust-proof bag to prevent surface scratches and protect printed logos
Outer Packaging	Export-grade 5-layer thickened corrugated carton
Shipping Method	Air freight, sea freight, DHL, FedEx, UPS international express
Shipping Protection	Buffer filling materials inside carton to reduce extrusion and keep rigid box intact
Packing Feature	Layered placement with quantity control to avoid box indentation and deformation under heavy pressure

FAQ

- Q1: Can the EVA insert be fully carved according to my beauty device shape?** A1: Yes, we adopt professional CNC digital carving, customizing grooves strictly according to your product 3D drawings or physical samples for perfect fitting.
- Q2: Can the white box color be changed to other colors?** A2: Sure. The wrapping paper supports custom spot colors and full-color printing, matching any color card requirements.
- Q3: Can the magnetic strength of the box be adjusted?** A3: Yes, multiple magnet specifications are optional, supporting soft gentle opening or strong tight closure as required.

Q4: What is the sample and mass production lead time? A4: Sample lead time: 5–7 working days. Mass production lead time: 12–18 working days after sample confirmation.

Q5: Can the EVA inner tray be replaced with other materials? A5: Yes, optional alternatives include flocked EVA, cardboard tray and pearl cotton liner to meet different packaging needs.
