Frequently Asked Questions

Q1: Can I customize the size of this perfume gift box?

Yes. We can customize the box dimensions according to your perfume bottle size, product weight, and packaging requirements. Please provide your bottle measurements or a product drawing so we can evaluate the most suitable structure.

Q2: Can you print our logo and brand name on the box?

Yes. Your logo and brand artwork can be customized using gold foil stamping, conventional printing, debossing, or other suitable techniques. Final options depend on the artwork, material, and design requirements.

Q3: Can I change the white ribbon, box color, or decorative pattern?

Yes. The ribbon color, exterior and interior colors, diamond texture, decorative artwork, and other visual elements can be adjusted to match your brand identity.

Q4: Can the EVA insert be customized for different perfume bottles?

Yes. The EVA insert can be designed around your bottle's dimensions and shape. For products with multiple components, we can also evaluate custom insert layouts and compartments based on the packaging structure.

Q5: Can you print our brand story inside the lid?

Yes. The inner lid can feature your brand story, fragrance inspiration, product information, or a personalized message. This is a useful way to enhance the customer experience and communicate your brand values.

Q6: Is this box suitable for shipping perfume products?

The rigid box and fitted EVA insert help protect and secure the product inside the package. However, the gift box alone is not necessarily sufficient for international shipping. We recommend suitable outer cartons and protective materials, with additional testing where appropriate. Perfume shipments may also be subject to carrier restrictions because many fragrances contain alcohol.

Q7: What is your minimum order quantity (MOQ)?

The MOQ depends on the box structure, material specifications, printing processes, and production requirements. Contact us with your target quantity so we can confirm the applicable MOQ and pricing.

Q8: Can I order a sample before placing a bulk order?

Sample production can be arranged upon request, subject to the project requirements. Sampling charges, production time, and shipping costs will be confirmed before the sample order is placed.

Q9: How long does production take?

Production lead time depends on order quantity, material availability, artwork approval, sampling requirements, and finishing processes. We will confirm the estimated schedule after reviewing your project.

Q10: How can I get a quotation for custom perfume packaging?

Please send us your preferred box dimensions, perfume bottle measurements, order quantity, logo artwork, customization requirements, and delivery destination. We will review the specifications and provide a quotation based on the confirmed requirements.
