Product Description

Custom Magnetic Tea Gift Box Four Cavities Gold Foil Embossing With Paper Divider

Give your tea collection a refined, gift-ready look with our **magnetic rigid tea gift box**. A hidden magnetic closure opens like a book and snaps shut with a satisfying premium feel, making it a natural pick for **luxury packaging boxes** used for tea, cookies, desserts and gourmet gift sets. Every box is built as a sturdy **rigid box packaging** in thick greyboard wrapped with your own printed artwork, so it is far stronger than a folding carton and protects fragile items in transit. This construction is favoured by European and American buyers who want a **cardboard gift box** that still looks premium while staying **eco friendly packaging**.

Inside, a **paper divider** separates each sachet or tea bag, and an optional four-cavity insert keeps loose bags neatly organised. It is the ideal **tea packaging box** for assorted flavour sets and a stylish **dessert packaging** choice for bakeries and patisseries.

Because it is a fully **custom printed boxes** solution, we finish the lid with **gold foil stamping** and embossed texture for a tactile, upscale look. Brands launching a **subscription box packaging** programme also love the magnetic format for its premium unboxing, while importers sourcing **wholesale packaging boxes** benefit from our low MOQ and stable monthly output of **custom packaging boxes**.

All **premium packaging boxes** are made from FSC-certified board with soy-based ink, so you get **recyclable packaging** that still feels luxurious. Whether you sell loose-leaf tea, shortbread, chocolate or artisan sweets, this magnet tea box with divider turns everyday products into gift-worthy items.

Ideal Applications & How Our Magnetic Box Solves Customer Concerns

Application Scenario	Customer Concern Of Magnet Tea Box With Divider	How Our Magnetic Box Solves It
Tea Bags & Loose-Leaf Tea	Different tea flavours mix together and the box looks generic	The inner divider and four cavities keep every flavour neatly separated in its own compartment
Cookies & Biscuits	Cookies break or rub against each other during shipping	Thick rigid board plus a snug divider insert cushions each cookie and holds it firmly in place
Dessert & Macarons	Delicate desserts need a premium, gift-ready presentation	Magnetic book-style lid with gold foil and embossing creates a luxury dessert packaging look
Gourmet & Assorted Gift Set	Multiple small items need to be organised neatly	Custom multi-cavity insert sorts sweets, nuts or samples into tidy sections
Café & Bakery Takeaway	Takeaway packaging must look branded and be quick to use	Magnetic closure opens and re-seals easily, keeping your logo front and centre
Subscription & Monthly Boxes	Every monthly theme needs a fresh, memorable unboxing	Fully custom artwork and shape let you refresh the design for each drop without changing the structure
Corporate & Holiday Gifting	Bulk gifting needs consistent quality at scale	Stable monthly output of 500,000 pcs and strict QC keep every wholesale packaging boxes order identical

Production Time	12-20 Working Days After Artwork Approval

Frequently Asked Questions

Q: Can you make a magnetic box in a custom size and shape?

A: Yes. Every magnetic rigid tea gift box is built to your own dimensions, so we can match it exactly to your tea bags, tin or gift set. Send us your product size and we will confirm the best box and cavity layout.

Q: What is the minimum order quantity (MOQ)?

A: Our standard MOQ is 500 pieces per design. For repeat wholesale packaging boxes orders we can discuss flexible quantities for established clients.

Q: Can I print my own logo with gold foil?

A: Absolutely. We offer full custom printed boxes service including CMYK or Pantone printing, gold or silver foil stamping, embossing, debossing and spot UV. Just share your artwork file (AI, PDF or PSD).

Q: How strong is the magnetic closure?

A: We use strong hidden neodymium magnets rated for repeated opening and closing. The lid stays firmly shut during shipping yet opens smoothly for your customers.

Q: What is the paper divider and four-cavity insert for?

A: The divider and cavities separate each tea bag or product into its own compartment, preventing items from moving or clashing during transport and giving assorted sets a neat, organised presentation.

Q: Are the materials eco-friendly and recyclable?

A: Yes. We use FSC-certified greyboard and art paper, recyclable packaging materials and soy-based inks, so the box is both a premium cardboard gift box and an environmentally responsible choice.

Q: Can I get a sample before placing a bulk order?

A: Certainly. We strongly recommend sample approval before mass production to verify structure, size, printing, foil and insert fit. Digital samples are free; a physical sample is available with a small fee refunded on bulk orders.

Q: How do you protect the boxes during shipping?

A: Every custom packaging boxes order is individually poly-bagged and packed into 5-layer export corrugated master cartons. Corner protection is available on request to keep the edges crisp.

Packaging & Shipping

Item	Details
Packing Method	Individual poly bag (optional), packed into strong export master cartons
Carton Type	Five-layer corrugated export carton
Units Per Carton	Depends on box size, confirmed before production
Corner Protection	Available on request
Shipping Methods	Express, Air Freight, Sea Freight, Railway Transportation

Shipping Time By Express	Approximately 3-7 Days
Shipping Time By Air	Approximately 7-12 Days
Shipping Time By Sea	Approximately 25-45 Days
Export Service	Door-to-door shipping available worldwide

Customization Process: From Inquiry To Delivery

Step	What Happens	Points Customers Should Note
1. Send Inquiry	You share product details, box size, quantity and artwork idea by email	Provide clear product dimensions and target quantity for an accurate quote
2. Quotation & Confirmation	We return unit price, MOQ, lead time and shipping options	Check currency, incoterms (EXW/FOB/CIF) and payment terms carefully
3. Artwork & Structure Design	Our designers create a dieline and printing mock-up for you	Confirm colours (Pantone), foil areas and text spelling before sampling
4. Sampling & Approval	A physical sample is produced and shipped to you	Approve size, magnetic closure, insert fit and print quality in writing
5. Deposit Payment	30% deposit is paid to start mass production	Keep your payment receipt; production only starts after deposit clears
6. Mass Production	Boxes are printed, foiled, embossed and assembled in our factory	Ask for progress photos; report any change request early
7. Quality Inspection	We run in-line and final QC on structure, colour, magnets and quantity	You may arrange third-party inspection before balance payment
8. Balance & Shipping	Balance is paid and goods are shipped by express, air or sea	Confirm shipping address, label details and customs documents
9. Delivery & After-Sales	You receive the goods and confirm satisfaction	Inspect cartons on arrival and raise any issue within 7 days
