Product Description

Product Description

Elevate your skincare brand with our custom corrugated gift boxes, designed to combine premium presentation with reliable product protection. Made from white F-flute corrugated board laminated with 350gsm white paperboard, these boxes offer excellent rigidity and a refined appearance for premium skincare packaging.

The exterior features custom spot blue and full-color CMYK printing, finished with matte lamination and an elegant silver foil logo for a sophisticated, high-end look. Inside, the clean white interior is paired with a custom-cut white EPE foam insert that securely holds each skincare product in place, helping minimize movement and impact during handling and transportation.

Manufactured using machine production and hand assembly, these custom skincare packaging boxes can be supplied with the box and foam insert pre-assembled for convenient packing. Simply place your skincare products into the designated compartments upon receipt.

We offer flexible customization options for box dimensions, artwork, logos, printing, finishes, and foam insert layouts. Ideal for skincare gift sets, cosmetic collections, product launches, holiday gift boxes, and premium beauty packaging.

Key Features & Benefits

1. Rigid Corrugated Structure — Reliable Product Protection

Constructed from white F-flute corrugated board combined with 350gsm white paperboard, this skincare gift box provides a sturdy structure and good rigidity. It helps protect delicate skincare products during storage, handling, and shipping while maintaining a neat, premium presentation.

2. Matte Lamination & Silver Foil Logo — Premium Brand Presentation

The custom spot blue and CMYK-printed exterior creates a distinctive brand identity, while matte lamination delivers a smooth, understated finish. The silver foil logo adds a metallic accent that enhances perceived product value without overwhelming the overall design.

3. Custom EPE Foam Insert — Secure, Tailored Product Fit

The white EPE foam insert is cut to match the shape and dimensions of your skincare products. Custom compartments help keep bottles, jars, tubes, and accessories organized and reduce unwanted movement inside the box. Insert layouts can be tailored to different product combinations.

4. Pre-Assembled Packaging — Streamlined Fulfillment

To simplify your packaging workflow, we can supply the corrugated box with the EPE foam insert pre-installed. Your team can place the products directly into the designated compartments after delivery, reducing additional assembly work at your facility.

5. Full Customization — Packaging That Matches Your Brand

From box size and printed artwork to foil stamping, lamination, and insert configuration, each element can be customized to suit your brand. Whether you need packaging for a single skincare product or a complete beauty gift set, we can develop a solution based on your product dimensions and presentation requirements.

Applications & Customer Needs

Application	Customer Concerns	Our Packaging Solution
Premium Skincare Gift Sets	Products need to look luxurious and gift-ready.	Matte lamination and a silver foil logo create an elegant, premium appearance.
Serum and Facial Oil Collections	Glass bottles may shift or collide during transit.	Custom-cut EPE foam compartments help secure individual bottles and reduce movement.
Creams, Lotions, and Moisturizers	Different product sizes require an organized interior.	Tailored foam insert layouts accommodate different bottle and jar dimensions.
Beauty Brand Launches	Packaging must reflect brand identity and product positioning.	Custom blue printing, CMYK artwork, and logo finishing support consistent brand presentation.
Holiday and Promotional Gift Boxes	Brands need attractive packaging that is easy to prepare for fulfillment.	Pre-assembled boxes and inserts help simplify product packing.
E-commerce Skincare Orders	Packaging must help protect products throughout handling and delivery.	The rigid corrugated structure and fitted insert provide cushioning and help limit product movement.
Beauty Subscription Boxes and PR Kits	Multiple items need to be presented neatly in one package.	Custom compartments can be designed for coordinated skincare products, samples, and accessories.

Product Specifications

Specification	Details
Product Type	Custom Corrugated Skincare Gift Box
Application	Skincare Sets, Cosmetic Gift Boxes, Beauty Packaging, PR Kits
Box Structure	Corrugated Paper Box; Final Structure Confirmed by Sample
Main Material	White F-flute Corrugated Board + 350gsm White Paperboard
Exterior Printing	Pantone Color Blue + Full-Color CMYK Printing

Logo Finishing	Silver Foil Stamping
Interior Color	White
Insert Material	White EPE Foam
Insert Design	Custom-Cut Compartments Based on Product Dimensions
Assembly	Machine Production with Manual Assembly
Pre-Assembly Service	Box and Foam Insert Can Be Supplied Pre-Assembled
Size	Fully Customizable
Artwork	Customer-Supplied Artwork or Design Assistance
Logo	Custom Logo Supported
Order Quantity	Confirmed According to Customization and Production Requirements
Sample Service	Available Upon Confirmation of Project Requirements
Packaging & Shipping	Customized According to Order Quantity, Shipping Method, and Destination

Note: Final specifications, available materials, sample arrangements, minimum order quantity, production lead time, and shipping terms will be confirmed in your quotation.

How to Customize Your Skincare Gift Box

Step	Customization Process	What You Need to Provide
Step 1: Share Your Requirements	Tell us about your skincare products, target market, and packaging goals.	Product type, intended use, estimated order quantity, and destination country.
Step 2: Confirm Box Dimensions	We recommend suitable internal dimensions and a box structure based on your products.	Product length, width, height, quantity, and preferred box dimensions.
Step 3: Choose Materials & Finishes	Confirm the corrugated board, outer paper, printing colors, lamination, and logo finish.	Preferred colors, artwork, logo file, matte finish, and silver foil requirements.
Step 4: Design the Foam Insert	Develop a custom insert layout to accommodate your bottles, jars, tubes, and accessories.	Product drawings, dimensions, photos, or physical samples when needed.
Step 5: Review the Sample	Review the sample for dimensions, appearance, insert fit, and overall presentation before mass production.	Sample approval and any required adjustments.
Step 6: Confirm Mass Production	Finalize the quotation, order quantity, specifications, and production schedule.	Purchase order, approved artwork, and confirmed order details.
Step 7: Quality Inspection & Delivery	Completed boxes are inspected and packed for shipment according to the agreed requirements.	Shipping address, preferred shipping method, and delivery requirements.

Packaging, Logistics & Shipping

Logistics Item	Details
Production Method	Machine Production and Manual Assembly
Assembly Options	Pre-Assembled Box with EPE Insert or an Alternative Agreed Packing Format
Export Packing	Cartons and protective packing selected according to box structure and shipping requirements
Shipping Methods	Express Courier, Air Freight, or Sea Freight
Express Courier	Suitable for samples and smaller, time-sensitive shipments
Air Freight	Suitable for orders requiring a balance between transit time and shipment volume
Sea Freight	Suitable for larger-volume orders where cost efficiency is a priority
Shipping Cost	Quoted according to order quantity, packed dimensions, gross weight, destination, and shipping method
Lead Time	Confirmed after sample approval, order confirmation, and production scheduling
Delivery Terms	Available terms confirmed according to destination and agreed quotation
Shipping Documents	Commercial invoice, packing list, and other applicable export documents as required

Shipping recommendation: For bulk orders, we can evaluate whether pre-assembled or alternative packing arrangements are more suitable based on box dimensions, shipping volume, and your fulfillment workflow. Final packing details will be confirmed before production.

Frequently Asked Questions

Q1: Can I customize the size of the corrugated skincare gift box?

Yes. We offer custom dimensions based on your skincare products and packaging requirements. Please provide the dimensions of your bottles, jars, tubes, or gift set so we can recommend suitable internal box dimensions.

Q2: Can you print our brand logo and artwork?

Yes. We support custom artwork, spot color printing, full-color CMYK printing, and silver foil logo stamping. You can provide your existing design files, and we will confirm the print-ready requirements before production.

Q3: Can the silver foil logo be changed to another finish?

Depending on your design and production requirements, alternative finishes may include gold foil, other available foil colors, embossing, debossing, or different lamination options. Availability and cost will be confirmed for your specific project.

Q4: Is the EPE foam insert customized for each skincare product?

Yes. The foam insert can be designed around the dimensions and shapes of your products. We recommend providing accurate measurements or product samples so the compartments can be evaluated for fit and retention.

Q5: Can you supply the box with the foam insert already assembled?

Yes. We can provide a pre-assembled packaging solution with the EPE foam insert installed inside the box. This helps reduce packing steps after delivery. Please confirm your preferred assembly and shipping format when requesting a quotation.

Q6: Is this packaging suitable for glass skincare bottles?

Yes. The rigid corrugated structure and custom-cut EPE foam insert can help secure glass bottles and reduce movement. The appropriate design depends on bottle weight, shape, clearances, and shipping conditions. Transit testing is recommended for fragile products and long-distance shipments.

Q7: What is your minimum order quantity (MOQ)?

MOQ depends on the box structure, material specifications, printing requirements, finishing processes, and production setup. Please share your estimated quantity so we can confirm the applicable MOQ and pricing options.

Q8: Can I order a sample before placing a bulk order?

Sample arrangements can be discussed before mass production. A sample helps you evaluate the dimensions, printing, silver foil effect, material appearance, and foam insert fit. Sample costs and lead times will be confirmed according to your requirements.

Q9: How long does production take?

Production lead time depends on order quantity, artwork approval, material availability, sample confirmation, and manufacturing schedules. We will provide an estimated timeline after reviewing your project specifications.

Q10: How much does custom skincare gift box packaging cost?

Pricing depends on box dimensions, material construction, order quantity, printing colors, matte lamination, foil stamping, foam insert complexity, assembly, and shipping requirements. Send us your specifications to receive a tailored quotation.

Q11: Can you help us design the packaging if we do not have a finished dieline?

Yes. Share your product dimensions, logo, reference images, and preferred packaging style. Our team can discuss a suitable box structure and artwork requirements with you before sampling.

Q12: Are these boxes environmentally friendly?

The box uses a paper-based corrugated structure, and the EPE insert is a separate protective component. The environmental profile of the complete package depends on the specific materials, local recycling infrastructure, and disposal requirements. If recyclability or a particular sustainability certification is important to your brand, please let us know so we can discuss suitable material alternatives.
