Product Description

Custom Earphone Magnetic Gift Box With Hanger And Soft Touch Lamination

Retail shelves are crowded, and a box that cannot hang on a pegboard hook loses the space to a competitor. This earphone magnetic closure box carries a reinforced hanger tab, a velvet touch soft lamination surface and a hidden magnetic lid, so your earbuds look premium in a retail display and still unbox beautifully online.

Custom Packaging Quote In 12 Hours

Product Overview

Built on 1200 to 1500 gsm rigid greyboard and wrapped in matte soft touch film, this rigid gift box is engineered for consumer electronics brands that sell through Amazon, Best Buy style retail chains, airports and specialty audio shops. The die cut hanger, the euro slot and the wrapping flap are all reinforced so the box survives weeks on a pegboard hook without tearing or bowing.

Inside, a CNC cut EVA foam insert or a molded pulp tray holds the earbuds, the charging case, the cable and the spare ear tips in fixed positions. Nothing shifts, nothing scratches, and the customer sees a clean layout the moment the magnetic lid snaps open. Buyers comparing wholesale packaging suppliers in the US and Europe usually ask for a luxury unboxing look at a landed cost that still leaves retail margin, which is exactly the balance this box is designed for.

Because the whole structure folds flat, you store and ship cartons of custom printed boxes at roughly one third of the volume of assembled boxes. A 40HQ container can carry three times more units, freight per piece drops, and warehouse space stops being a problem before a seasonal launch. Your local team assembles each box in under fifteen seconds without glue or tools.

Key Features And Buyer Benefits

Feature	Specification	Benefit To Your Brand
Reinforced Hanger Tab	Die cut hanger with 35 mm euro slot and double board reinforcement	Runs on standard retail pegboard hooks without tearing after long hanging periods
Soft Touch Lamination	1.5 mm matte soft touch film, anti fingerprint	Velvet hand feel that reads as premium in the hand and stays clean on shelf
Hidden Magnetic Closure	Two pairs of N35 neodymium magnets, fully concealed	Quiet firm snap, no visible hardware, repeated open and close without loosening
Rigid Greyboard Core	1200 to 1500 gsm greyboard, 2.5 mm wall	Holds shape through 1.2 m drop testing and stacked pallet pressure
Custom Foam Insert	EVA foam, flocked EVA, molded pulp or paper honeycomb	Cradles earbuds, charging case and cable so nothing moves in transit
Full Color Printing	CMYK offset plus Pantone spot colors, 4C plus 1 spot	Brand colors matched to your artwork, consistent across repeat orders
Flat Packed Logistics	Foldable magnetic structure, shipped flat	Cuts freight and storage volume by up to 65 percent compared with rigid assembled boxes
Optional Surface Finishes	Gold or silver foil, spot UV, embossing, debossing, window patching	Creates shelf interruption value for a black gift box or a bright brand colorway
Responsible Materials	FSC certified paper, recyclable mono material, soy based ink	Meets EU packaging rules and the sustainability brief of modern audio brands

Technical Specifications

Item	Specification
Structure	Book style magnetic lid with hinged spine and hanger tab

Item	Specification
Board	1200 to 1500 gsm greyboard with 157 gsm art paper wrap
Surface	Matte soft touch lamination, optional gloss, spot UV, foil
Closure	Two pairs of concealed N35 magnets
Hanger	Reinforced euro slot hanger, 35 mm, flat or recessed
Insert	EVA foam, flocked EVA, molded pulp or paper tray
Printing	Offset CMYK, Pantone, silk screen for solid colors
Size Range	60 x 60 x 25 mm up to 300 x 250 x 90 mm, custom available
Packing	Flat packed in OPP bag, then 5 layer export carton
MOQ	500 pcs per design, 1000 pcs for custom foam cavity
Sample Time	3 to 5 working days
Production Time	12 to 18 working days after artwork approval
OEM And ODM	Both supported, NDA available
Certification	FSC, ISO 9001, REACH, RoHS compliant ink

Application Scenarios And Customer Concerns

Application	What The Buyer Worries About	How Our Box Solves It
TWS earbuds retail pegboard display	The hanger tears and the box falls behind the shelf	Double board reinforced hanger and euro slot tested with 300 g hanging load for 90 days
Electronics accessory gift set	Accessories scratch each other inside the box	Custom foam insert with separate cavities for case, cable and ear tips
Earphone brand launch kit	The packaging looks flat and cheap next to premium audio brands	Soft touch lamination plus concealed magnets delivers a premium unboxing moment
E commerce and subscription box	Freight and storage cost eat the margin	Foldable structure allows flat shipping and local assembly in seconds
Duty free and airport retail	Box corners crush during air freight and handling	Rigid 2.5 mm wall and corner protection survive air cargo stacking
Corporate and promotional gifting	Logo printing looks dull on dark board	Foil stamping plus spot UV on a black gift box keeps brand marks crisp

Frequently Asked Questions

Q1. What is your MOQ for a custom earphone magnetic gift box?

A: 500 pieces per design for stock board and standard foam. If you need a custom die cut EVA cavity or a brand new dieline, the MOQ is 1000 pieces because of the tooling setup.

Q2. Can you make the box hang on a retail pegboard?

A: Yes. We add a reinforced euro slot hanger to the back panel or the top panel, and we test the hanging load before shipping. Please tell us the hook type used by your retailer so we match the slot size.

Q3. How fast can I get a sample and how much does it cost?

A: Pre-production samples take 3 to 5 working days after artwork confirmation. Sample cost is refundable against your first bulk order, and you only pay the courier freight.

Q4. What file format should I send for printing?

A: AI, PDF or CDR at 300 dpi with 3 mm bleed, fonts converted to outlines, and separate layers for foil or spot UV. If you only have

a JPG, our design team can rebuild the artwork at no charge for simple layouts.

Q5. How long is mass production and how do you guarantee the delivery date?

A: 12 to 18 working days after artwork approval and deposit. We send a signed production schedule with the PI, and a delay caused by our side is covered by our on time delivery commitment.

Q6. Can the soft touch lamination be recycled?

A: We offer a mono material soft touch varnish option that keeps the paper stream recyclable, and an FSC paper base. For EU markets we can supply the material declaration you need for compliance filing.

Q7. Do you handle shipping to the US and Europe?

A: Yes. We quote EXW, FOB, CIF, DDP and DDU. Door to door DDP to US and EU warehouses usually takes 20 to 30 days, with duty and customs clearance handled by our forwarder.

Q8. What are your payment terms?

A: 30 percent deposit and 70 percent balance before shipment for new buyers. T/T, L/C at sight, PayPal and Trade Assurance are accepted, and repeat customers can move to net 30 after three orders.

Q9. Will the printed color match my brand Pantone?

A: We run a Pantone match on the actual board and soft touch film, then send a color proof photo under D65 light. Any gap above 5 percent Delta E is corrected before mass production.

Packing And Logistics

Stage	Packing Or Shipping Method	Time And Details
Individual packing	Each box in a clear OPP bag, hanger protected with a cardboard sleeve	Completed on the same day as final inspection
Inner carton	25 pcs per inner box with cardboard dividers, foam inserts packed separately	1 working day
Master carton	5 layer K equal K corrugated export carton, 100 to 200 pcs per carton	1 working day, carton weight kept under 18 kg
Carton marking	Shipping marks, side labels, barcode, optional palletized loading	1 working day, photos sent before sealing
Sample dispatch	DHL, FedEx or UPS express, freight collect or prepaid	3 to 5 working days door to door
Bulk production	Printing, lamination, die cutting, magnet insertion, gluing, QC	12 to 18 working days after artwork approval and deposit
Air freight	Airport to airport via Shenzhen or Hong Kong	7 to 10 days, best for launches under 300 kg
Sea freight	LCL or FCL from Shenzhen, Ningbo or Yiwu	25 to 35 days port to port, lowest cost per unit
Door to door DDP	Customs clearance, duty and last mile delivery included	20 to 30 days to US and EU warehouses
Shipping documents	Invoice, packing list, B/L or AWB, CO, FSC certificate	Issued within 2 working days after departure

Customization Process From Inquiry To Delivery

Step	What We Do	Timeline	What You Should Note
1. Inquiry	Collect product type, size, quantity, artwork and target market	Reply within 12 hours	Send the earbud dimensions and the retail channel, it changes the insert design
2. Quotation	Cost breakdown by material, printing, insert and freight term	Within 12 hours	Tell us if you need FOB, CIF or DDP so the landed cost is comparable

Step	What We Do	Timeline	What You Should Note
3. Dieline	Free custom dieline and template based on your product size	1 to 2 working days	Check folding direction, hanger position and 3 mm bleed before designing
4. Artwork proof	Digital proof and 3D mockup for approval	2 working days	Confirm spelling, barcode, logo ratio and safe zone for text near folds
5. Pre-production sample	Physical sample with real board, magnet and insert	3 to 5 working days	Check color in daylight, magnet strength and hanger strength in your hand
6. Approval and deposit	Signed sample card and 30 percent deposit received	1 to 2 working days	Keep the approved sample card number, it is the QC reference for bulk
7. Mass production	Printing, lamination, die cutting, assembly and inspection	12 to 18 working days	Ask for weekly production photos, minor revisions are free before printing starts
8. Quality inspection	AQL 2.5 inspection, 1.2 m drop test, magnet and color check	1 to 2 working days	Review the inspection report and video before the balance payment
9. Balance and booking	Balance invoice, booking confirmation and shipping documents	2 to 3 working days	Confirm the consignee details and HS code with your customs broker
10. Delivery and after sales	Tracking shared, arrival follow up and defect handling	3 to 35 days depending on mode	Inspect within 7 days of arrival and report any shortage with photos for a fast claim
