Product Description

Wholesale Cute Cartoon Print Skincare Shipping Box – Auto Lock Tear Strip Mailer Box

Product Description

Our **Custom Cartoon Skincare Shipping Box** is designed for beauty brands, skincare gift sets, and e-commerce shipping. Made from 350gsm white cardstock laminated onto F-flute corrugated board, with an additional 250gsm white cardstock lining on the inside, this mailer box combines an attractive printed appearance with a sturdy structure for everyday packaging and delivery needs.

The box features a bright yellow background printed with cute cartoon illustrations of sheep, skincare bottles, cosmetic jars, flowers, and branded graphics. Pantone spot colors are combined with CMYK full-color printing to achieve distinctive brand colors and detailed illustrations. A matte lamination finish adds a smooth, understated appearance while helping resist everyday scuffs and scratches.

Featuring a folding self-locking mailer design and an integrated tear strip, this box is convenient to assemble, pack, and open. It is an excellent packaging choice for skincare gift sets, beauty subscription boxes, online cosmetic orders, promotional kits, and personalized beauty brand packaging.

We offer customization options for box dimensions, artwork, colors, printing techniques, surface finishes, and structural details to help you create packaging that reflects your brand identity.

Key Features & Benefits

1. Corrugated Construction — Reliable Protection for Shipping

The box combines 350gsm white cardstock with F-flute corrugated board and a 250gsm white cardstock inner layer. This layered structure provides a sturdy packaging solution for skincare products during packing, storage, and shipping. Protective inserts can also be considered for products that require additional separation or cushioning.

2. Cute Cartoon Artwork — Memorable Brand Presentation

The bright yellow background, playful sheep illustrations, skincare bottles, jars, and floral graphics create a friendly, eye-catching appearance. This style is particularly suitable for skincare brands targeting gift buyers, younger consumers, and customers who appreciate cheerful, distinctive packaging.

3. Pantone + CMYK Printing — Flexible Color Customization

Combining Pantone spot colors with CMYK full-color printing supports customized brand colors alongside detailed illustrations, product graphics, and text. Whether you prefer a cute cartoon theme, minimalist beauty packaging, or colorful promotional artwork, the design can be tailored to your brand guidelines.

4. Matte Lamination — Smooth and Refined Finish

The entire box is finished with matte lamination for a smooth, non-glossy appearance. The laminated surface helps reduce visible scuffs and everyday abrasion, making the packaging suitable for branded beauty deliveries and gift sets.

5. Auto-Lock Mailer Design with Tear Strip — Convenient Packing and Opening

The folding self-locking structure allows the box to be assembled without relying on a separate lid. An integrated tear strip creates a convenient opening feature for recipients. This design supports efficient packing operations and a more satisfying unboxing experience for e-commerce customers.

Application Scenarios

| Application                   | Customer Concerns                                                         | Our Packaging Solution                                                                                   |
|-------------------------------|---------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------|
| Skincare Gift Sets            | Attractive presentation and suitable space for multiple products          | Custom-sized mailer boxes with coordinated artwork and optional internal inserts                         |
| E-commerce Beauty Orders      | Box strength, convenient packing, and easy opening                        | F-flute corrugated construction, a self-locking design, and an integrated tear strip                     |
| Beauty Subscription Boxes     | Consistent branding and an engaging unboxing experience                   | Repeatable custom printing with cartoon illustrations, brand graphics, and matte lamination              |
| Cosmetic Product Launches     | Distinctive packaging that attracts attention                             | Pantone and CMYK printing with customized colors, illustrations, and promotional messaging               |
| Online Skincare Stores        | Professional packaging that represents the brand                          | Custom logo printing, tailored dimensions, and a refined matte finish                                    |
| Beauty Influencer PR Kits     | Eye-catching presentation for promotional campaigns                       | Customized mailer boxes designed around campaign artwork and product collections                         |
| Bath and Body Gift Packaging  | Coordinated packaging for skincare, body care, and personal care products | Flexible box dimensions, artwork, and structural customization                                           |
| Wholesale Beauty Distribution | Consistent packaging specifications for repeat orders                     | Confirmed production specifications and repeat-order artwork management, subject to project requirements |

| Product Name         | Custom Cartoon Skincare Shipping Box                                                             |
| Box Type             | Folding Mailer Box / Corrugated Shipping Box                                                     |
| Structure            | Folding Self-Locking Mailer Box                                                                  |
| Opening Feature      | Integrated Tear Strip                                                                            |
| Outer Face Material  | 350gsm White Cardstock                                                                           |
| Corrugated Layer     | F-Flute Corrugated Board                                                                         |
| Inner Lining         | 250gsm White Cardstock                                                                           |
| Printing Method      | Pantone Spot Color + CMYK Full-Color Printing                                                    |
| Design               | Bright Yellow Background with Cartoon Sheep, Skincare Bottles, Jars, Flowers, and Brand Graphics |
| Surface Finish       | Full Matte Lamination                                                                            |
| Assembly             | Folding, Self-Locking Structure                                                                  |
| Dimensions           | Fully Customizable                                                                               |
| Artwork              | Custom Logo, Illustrations, Text, and Brand Colors                                               |
| Additional Options   | Custom Inserts, Structural Adjustments, and Alternative Finishes, Subject to Feasibility         |
| Primary Applications | Skincare, Cosmetics, Beauty Gift Sets, E-commerce, and Promotional Packaging                     |
| Order Quantity       | Customized according to production requirements                                                  |

*Note: Paperboard weights, corrugated flute specifications, and final structural strength should be confirmed against the approved production sample and technical specification.*

### How to Customize Your Skincare Mailer Box

| Step                                    | What You Need to Provide                                                                               | What We Will Do                                                                                    |
|-----------------------------------------|--------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------|
| Step 1: Confirm Box Dimensions          | Provide the required internal length × width × height and the products to be packed                    | Recommend suitable dimensions and review the box structure                                         |
| Step 2: Confirm Box Structure           | Specify the folding self-locking style, tear strip, and any special opening requirements               | Confirm the structural design and production feasibility                                           |
| Step 3: Select Materials                | Confirm 350gsm white cardstock, F-flute corrugated board, 250gsm inner lining, or discuss alternatives | Review material specifications and suitability for the intended products                           |
| Step 4: Submit Artwork                  | Provide your logo, illustrations, brand colors, text, and print-ready files                            | Check artwork layout, print requirements, and color specifications                                 |
| Step 5: Select Printing and Finish      | Confirm Pantone colors, CMYK printing, matte lamination, or alternative finishes                       | Prepare the printing and finishing specifications                                                  |
| Step 6: Confirm Inserts and Accessories | Specify whether you need cardboard dividers, product inserts, or other internal components             | Evaluate insert dimensions and packaging compatibility                                             |
| Step 7: Request a Quotation             | Provide the order quantity, destination country, and shipping preferences                              | Calculate the quotation based on size, materials, printing, finishing, and quantity                |
| Step 8: Approve the Price               | Review the unit price, total order cost, production schedule, and shipping terms                       | Proceed to sampling after the quotation and order conditions are accepted                          |
| Step 9: Sample Confirmation             | Review the physical sample or agreed digital proof                                                     | Confirm dimensions, structure, printing appearance, and opening performance before mass production |
| Step 10: Mass Production                | Approve the final sample and production details                                                        | Manufacture the boxes according to the approved specifications                                     |
| Step 11: Inspection and Delivery        | Confirm final quantities and shipping arrangements                                                     | Arrange quality inspection, export packing, and shipment according to the agreed terms             |

**For a faster quotation, please send us:** box dimensions, product weight and type, required materials, artwork, tear-strip requirements, order quantity, and delivery destination.

## Shipping & Logistics

|                               |                                                                                            |
|-------------------------------|--------------------------------------------------------------------------------------------|
| <b>Packaging Format</b>       | Boxes can be supplied flat-packed to reduce shipping volume                                |
| <b>Outer Packaging</b>        | Export cartons or other agreed protective packaging                                        |
| <b>Shipping Methods</b>       | Sea freight, air freight, express courier, or other available options                      |
| <b>Shipping Cost</b>          | Based on order quantity, carton dimensions, gross weight, destination, and shipping method |
| <b>Production Lead Time</b>   | Confirmed after specifications, artwork, order quantity, and sample approval are finalized |
| <b>Sample Shipping</b>        | Available using an agreed courier or shipping method                                       |
| <b>Bulk Orders</b>            | Sea freight may be suitable for larger quantities, depending on delivery requirements      |
| <b>Urgent Orders</b>          | Air freight or express courier may be considered where available                           |
| <b>International Delivery</b> | Subject to destination coverage, shipping arrangements, and import requirements            |
| <b>Shipping Documentation</b> | Commercial invoice, packing list, and other applicable documents can be arranged as agreed |
| <b>Customs and Duties</b>     | Determined by destination regulations and the agreed shipping terms                        |

Flat-packed delivery helps reduce shipping volume compared with shipping fully assembled boxes. Actual freight savings depend on box dimensions, packing efficiency, carton configuration, and order quantity.

## Frequently Asked Questions

### Q1: What materials are used for this skincare mailer box?

The specified construction uses 350gsm white cardstock laminated onto F-flute corrugated board, with a 250gsm white cardstock inner lining. The final board construction should be confirmed before production.

---

**Q2: Is the box suitable for shipping skincare products?**

Yes. The corrugated structure is designed for packaging and shipping skincare products. However, the level of protection depends on the box dimensions, product weight, product fragility, internal cushioning, and shipping conditions. Testing is recommended for fragile glass bottles or heavy product sets.

---

**Q3: Can I customize the size of the mailer box?**

Yes. The length, width, and height can be customized to accommodate your products. Please provide the product dimensions and the number of items in each box so the appropriate internal dimensions can be evaluated.

---

**Q4: Can I print my own cartoon illustrations and logo?**

Yes. You can supply your own artwork, brand logo, text, and illustrations. Pantone spot colors and CMYK printing can be combined according to the approved artwork and production requirements.

---

**Q5: Can I change the yellow background to another color?**

Yes. The background color, illustration style, brand colors, and printed graphics can all be customized. Pantone color references can be provided to help specify your preferred colors.

---

**Q6: Does the box come with a tear strip?**

The featured design includes an integrated tear strip for convenient opening. The exact tear-strip position, dimensions, and opening performance should be confirmed during structural design and sample approval.

---

**Q7: Is the box easy to assemble?**

Yes. The self-locking folding structure is designed for convenient assembly. The box can generally be shipped flat and folded into shape during packing, subject to the final approved design.

---

**Q8: Can you add an insert to hold skincare bottles in place?**

Yes. Custom inserts or dividers can be discussed for skincare bottles, jars, tubes, and gift sets. The insert material and design will depend on product dimensions, weight, fragility, and the desired presentation.

---

**Q9: Can I choose a different surface finish?**

Yes. Matte lamination is the featured finish. Other finishing options, such as gloss lamination or selected specialty finishes, can be evaluated according to your artwork, material construction, and production requirements.

---

**Q10: What is the minimum order quantity?**

The minimum order quantity depends on box dimensions, board construction, printing requirements, finishing, and production setup. Contact us with your specifications to confirm the applicable MOQ.

---

**Q11: Can I receive a sample before placing a bulk order?**

Yes. Sample arrangements can be discussed before mass production. Sampling costs, lead time, customization level, and shipping fees will be confirmed according to your project.

---

**Q12: How long does production take?**

Production time varies according to order quantity, artwork approval, structural complexity, sample confirmation, and factory scheduling. We will provide an estimated timeline with your quotation.

---

**Q13: Can the boxes be shipped internationally?**

International shipping can be arranged to many destinations, subject to service availability and import requirements. Please provide your destination country and city or postal code for a shipping estimate.

---

**Q14: Is the matte-laminated surface waterproof?**

Matte lamination can help protect the printed surface against light moisture, scuffs, and everyday abrasion. However, the box should not be considered waterproof, and prolonged exposure to moisture should be avoided.
