Product Description

Custom Folding Skincare Carton Box with Gold Foil Logo

Product Description

Our Custom One-Piece Folding Skincare Carton Box is a versatile packaging solution for beauty, skincare, foot care, and bath products. Featuring a one-piece folding structure, this custom paper box ships flat to help reduce storage and transportation costs. Its easy-fold design requires no glue during assembly, allowing the carton to be folded into shape quickly and efficiently.

Made from durable 350gsm white card paper, the box features a custom blue background with black text, elegant gold foil borders, and a branded logo enhanced with embossing for a distinctive three-dimensional effect. The matte lamination creates a smooth, sophisticated finish while helping protect the printed surface against everyday scratches and scuffs. The interior comes with a clean white finish, with custom inner printing available upon request.

Fully customizable in size, background color, artwork, hot stamping, embossing, and UV finishing, this custom folding carton is ideal for premium skincare packaging, foot care products, bath products, fragrance items, and beauty gift sets.

With a typical sample lead time of 3–5 days and a mass production lead time of 10–15 days, we help brands bring customized packaging projects to market efficiently, subject to order specifications and artwork approval.

Key Features & Benefits

One-Piece Folding Structure — Easy Assembly Without Glue

Designed as a single-piece folding carton, this box folds into shape without requiring separate components or glue during normal assembly. The flat-pack construction helps reduce storage requirements and shipping volume, making it a practical choice for beauty brands, contract manufacturers, and e-commerce businesses.

350gsm White Card Paper — Durable and Professional Packaging

Made from 350gsm white card paper, the carton offers a firm structure and a smooth surface for high-quality printing. It is suitable for a wide range of lightweight skincare, foot care, bath, and personal care products. Custom dimensions can be developed to accommodate different product shapes and sizes.

Gold Foil Stamping + Embossed Logo — Premium Three-Dimensional Branding

The combination of gold hot stamping and embossing gives the logo a raised, tactile appearance with an elegant metallic shine. Decorative gold borders complement the blue background and black typography, helping create a refined, premium look for retail shelves, promotional products, and gift packaging.

Matte Lamination — Smooth Texture and Surface Protection

The matte laminated exterior provides a sophisticated, low-gloss appearance that complements premium beauty packaging. It also helps reduce visible fingerprints and protects the printed surface against everyday scuffs and scratches, supporting a clean and polished presentation.

Flexible Customization — Packaging Designed Around Your Brand

Customize the box dimensions, background colors, printed graphics, inner artwork, logo placement, foil color, and finishing effects. Additional options such as UV coating, embossing, and alternative color schemes can be discussed according to your design requirements and production compatibility.

Applications & Customer Needs

Application Scenario	Customer Concern	Our Packaging Solution
Foot Care Products	Packaging needs to look professional and fit the product securely.	Custom dimensions and branded graphics help create a tailored retail carton.
Bath and Shower Products	Brands need attractive packaging that is convenient to assemble.	The one-piece folding structure allows quick assembly without glue during normal setup.
Skincare Products	Packaging must reflect the brand's quality and visual identity.	Blue background printing, black typography, gold foil, and an embossed logo create a premium appearance.
Fragrance and Beauty Products	Premium products require distinctive branding and refined finishing.	Hot stamping and embossing add metallic detail and a raised tactile effect.
Beauty Gift Sets	Coordinated colors and decorative finishes improve gift presentation.	Custom color schemes, foil details, and optional interior printing support a cohesive design.
E-commerce and Wholesale Packaging	Storage space and shipping volume can affect operating costs.	Flat-packed cartons help reduce pre-assembly storage and transportation volume.
New Product Launches	Brands need packaging that matches new product specifications and artwork.	Custom sizing, graphics, printing, and finishing options support different launch requirements.

The above timeframes are estimates. Sample and production schedules will be confirmed based on the final specifications and order details. International shipping time is separate from manufacturing lead time.

Frequently Asked Questions

Q1: Does this folding carton require glue for assembly?

No. The one-piece folding structure is designed for easy assembly without glue during normal setup. The carton is supplied flat and folded into shape using its pre-designed panels and locking structure.

Q2: Can I customize the box dimensions to fit my product?

Yes. We support custom dimensions based on your product measurements. Please provide the product's length, width, and height, along with any special fitting requirements, so we can recommend an appropriate carton size.

Q3: Can the gold logo be both hot-stamped and embossed?

Yes. Hot stamping creates the metallic gold appearance, while embossing adds a raised, three-dimensional texture. Combining the two techniques can make your logo more distinctive. The final effect depends on the artwork, logo size, material, and production specifications.

Q4: Can I change the blue background to another color?

Yes. The blue background is a design example. You can customize the background color, typography, graphics, and overall artwork to match your brand guidelines. Spot colors and CMYK printing can be selected according to your color requirements.

Q5: Is the inside of the box customizable?

Yes. The standard design features a white interior, but custom inner printing can be discussed. You can add brand colors, patterns, promotional messages, or other artwork, subject to the final box structure and printing requirements.

Q6: What surface finishes are available besides matte lamination?

Depending on the project, available options may include gloss lamination, gold or silver hot stamping, embossing, debossing, and UV coating. We can recommend compatible combinations based on your artwork and budget.

Q7: How long does it take to produce a sample?

The typical sample lead time is 3–5 days after the specifications and artwork are confirmed. The actual schedule may vary depending on structural adjustments, finishing requirements, and sample complexity.

Q8: What is the mass production lead time?

Mass production typically takes 10–15 days after final approval and order confirmation. Larger quantities or more complex finishing requirements may require additional time. The confirmed schedule will be provided with your quotation.

Q9: Can I order custom folding cartons in bulk?

Yes. We accept custom production inquiries for different order quantities. Please provide your estimated quantity, dimensions, printing requirements, and destination so we can evaluate the project and prepare a quotation.

Q10: Is this box suitable for heavy products?

This carton is designed primarily for suitable lightweight skincare, foot care, bath, and beauty products. The appropriate structure depends on the product's weight, dimensions, and handling conditions. For heavier products, we recommend evaluating the structure and material before production.

Q11: How are the boxes shipped?

The cartons are generally packed flat to reduce storage and transportation volume. Depending on your destination, budget, and delivery requirements, we can discuss express, air, sea, or suitable land transportation options.

Q12: What information is needed for an accurate quotation?

Please provide the box dimensions, estimated order quantity, material requirements, artwork, preferred finishing options, and shipping destination. If you have a reference image or existing packaging sample, you can share it to help us understand your requirements.
