Product Description

Custom Auto-Lock Bottom Paper Box for Skincare

Product Description

Our Custom Auto-Lock Bottom Paper Box is a practical and stylish packaging solution for skincare, body care, and personal care products. Made from durable 350gsm white card paper, this custom folding carton features an auto-lock bottom structure that allows quick assembly without complicated folding steps. Simply press both sides of the box to form a secure base, making it ideal for efficient packing and product presentation.

The box is printed using a combination of spot color and full-color CMYK printing to deliver vibrant graphics, clear text, and eye-catching brand designs. A matte lamination finish provides a smooth, premium feel while helping protect the printed surface against scratches, scuffs, and everyday handling.

Suitable for body lotion, bar soap, skincare products, and other personal care items, this custom cosmetic packaging box can be tailored to your preferred dimensions, artwork, colors, printing techniques, and surface finishes. It ships flat to help reduce storage requirements and transportation volume before assembly.

Whether you are launching a new skincare line or upgrading your existing product packaging, our custom paper boxes help create a consistent and professional brand image.

Key Features & Benefits

350gsm White Card Paper — Reliable Structure for Everyday Packaging

Made from 350gsm white card paper, this folding carton offers a firm structure and a smooth printing surface. It is suitable for lightweight skincare and personal care products, helping maintain a neat appearance during packing, storage, and retail display.

Auto-Lock Bottom Design — Fast and Convenient Assembly

The auto-lock bottom structure is designed for quick setup. Simply press the sides of the flat-packed carton to form the box base, reducing manual folding steps and improving packing efficiency. It is especially useful for brands and fulfillment teams handling multiple orders.

Spot Color + CMYK Printing — Vibrant and Consistent Branding

Combining spot color printing with CMYK full-color printing allows you to reproduce brand colors, product information, illustrations, and promotional graphics. This flexible printing solution helps your packaging stand out on retail shelves and supports a consistent visual identity across your product range.

Matte Lamination — Premium Look with Surface Protection

The matte laminated finish creates a refined, low-gloss appearance that complements modern skincare and beauty brands. It also helps resist surface scuffs, scratches, and fingerprints during normal handling, keeping the packaging looking clean and professional.

Fully Customizable Design — Packaging Tailored to Your Brand

Customize the box size, shape, artwork, color scheme, logo, and finishing options to suit your product specifications. From minimalist skincare packaging to colorful body care cartons, we can help develop packaging that aligns with your brand identity and retail requirements.

Applications & Customer Needs

Application Scenario	Customer Concern	Our Packaging Solution
Body Lotion Packaging	The box must fit the bottle securely and present the product professionally.	Custom dimensions help accommodate different lotion bottles and containers.
Bar Soap Packaging	Brands need attractive packaging that is easy to assemble and handle.	The folding carton design supports convenient packing and an organized retail presentation.
Skincare Product Packaging	Packaging should reflect the quality and identity of the skincare brand.	CMYK and spot color printing reproduce logos, product names, and custom artwork.
Personal Care Gift Sets	Coordinated packaging is important for product presentation.	Custom artwork, colors, and dimensions help create a consistent branded appearance.
Retail and E-commerce Packaging	Businesses want packaging that is easy to store and efficient to pack.	Flat-packed cartons save storage space before assembly, while the auto-lock bottom simplifies setup.
New Product Launches	Brands need packaging tailored to new product dimensions and branding.	Custom sizing, graphics, and finishing options support different product launches and packaging refreshes.

Product Specifications

Specification	Details
Product Type	Custom Folding Paper Box / Folding Carton
Box Structure	Auto-Lock Bottom Box
Main Material	350gsm White Card Paper
Printing Method	Spot Color Printing + CMYK Full-Color Printing
Surface Finish	Matte Lamination
Assembly	Quick Assembly with Auto-Lock Bottom

How to Customize Your Paper Box

Customization Step	What You Need to Provide	What We Will Do
Step 1: Share Your Requirements	Product dimensions, intended use, estimated order quantity, and packaging preferences.	Review your requirements and recommend a suitable box size and structure.
Step 2: Confirm Box Specifications	Preferred 350gsm white card paper, auto-lock bottom design, and finishing options.	Confirm the material, dimensions, structural design, and production specifications.
Step 3: Submit Your Artwork	Brand logo, product information, graphics, and printing files, if available.	Check the artwork and prepare the print layout according to the confirmed specifications.
Step 4: Approve the Sample	Review the sample or available digital proof before mass production.	Arrange sample production or artwork proofing according to the agreed process.
Step 5: Begin Mass Production	Confirm the approved design, order quantity, and quotation.	Manufacture the custom folding cartons according to the approved specifications.
Step 6: Quality Check and Delivery	Confirm shipping address, delivery method, and packaging requirements.	Inspect the finished boxes and arrange packing and shipment according to the order agreement.

Packaging & Shipping

Logistics Item	Details
Packing Method	Cartons or other agreed export packaging
Shipping Format	Flat-packed to reduce storage and transportation volume
Product Protection	Outer cartons help protect the paper boxes during handling and transit
Express Shipping	Suitable for samples and selected small orders
Air Freight	An option for time-sensitive international shipments
Sea Freight	An option for larger-volume international orders
Land Freight	Available where suitable for the destination and shipping route
Delivery Time	Depends on production schedule, shipping method, destination, and customs clearance
Shipping Quotation	Based on order quantity, carton dimensions, gross weight, and delivery address

We can help coordinate a suitable shipping solution based on your order quantity, budget, and delivery schedule. Final freight costs and estimated transit times will be confirmed before shipment.

Frequently Asked Questions

Q1: Can I customize the size of the auto-lock bottom paper box?

Yes. We offer custom dimensions based on your product measurements. Please provide the length, width, and height of your product or container so we can recommend suitable box dimensions.

Q2: Is 350gsm white card paper suitable for skincare packaging?

350gsm white card paper is a practical option for many lightweight skincare and personal care products. The appropriate material and box dimensions depend on the product's weight, shape, and packaging requirements. For heavier items, additional structural evaluation may be necessary.

Q3: How does the auto-lock bottom structure work?

The box is supplied flat. During assembly, you press the sides of the carton to form the box body and engage the pre-designed bottom structure. This reduces manual folding steps and helps streamline the packing process.

Q4: Can you print my brand logo and custom artwork?

Yes. We support custom logo printing, product names, instructions, illustrations, and other branding elements. Spot color and CMYK printing can be combined according to your artwork and color requirements.

Q5: What are the benefits of matte lamination?

Matte lamination gives the box a smooth, understated finish that works well for premium skincare and beauty packaging. It also helps protect the printed surface against everyday scuffs, scratches, and fingerprints. However, it does not make the paper box fully waterproof.

Q6: Can I request a sample before placing a bulk order?

Yes. Sample options can be discussed before mass production. Depending on your requirements, you may request a structural sample, a printed sample, or an available digital proof. Sample costs and lead times will be confirmed separately.

Q7: What is your minimum order quantity (MOQ)?

The MOQ depends on the box dimensions, printing requirements, finishing processes, and production setup. Please share your estimated quantity so we can provide a suitable quotation.

Q8: How are the boxes packed for shipping?

The folding cartons are generally shipped flat to help reduce transportation volume and storage space. They are packed in outer cartons or other agreed packaging to help protect them during transit.

Q9: How long does production take?

Production time depends on order quantity, artwork approval, sample requirements, and manufacturing complexity. We will confirm the estimated schedule after reviewing your specifications.

Q10: Can I customize other finishes besides matte lamination?

Depending on the project, additional options such as gloss lamination, embossing, debossing, and hot foil stamping may be available. Please discuss your preferred finish with our team before confirming the order.

Request a Quote for Custom Skincare Packaging Boxes

Looking for a reliable custom packaging solution for your skincare or personal care products?
