Product Description

Custom 3-Piece Rigid Box for Electric Shaver | Matte and Spot UV

Product Description

Give your electric shaver a premium presentation with this custom 3-piece rigid lid and base box, specially designed for electric head shavers and personal care appliances. Constructed from durable 2mm greyboard wrapped in 157gsm coated art paper, this electric shaver packaging box features a three-piece structure consisting of a top lid, bottom base, and inner tray.

The distinctive black and orange color combination creates a bold visual contrast. When the box is closed, a strip of the orange inner tray remains visible around the edge, adding depth and a modern premium appearance.

The black lid features CMYK full-color printing, matte lamination, and spot UV on the product image area to create an attractive contrast between smooth matte surfaces and glossy highlights. The black bottom base is finished with white printed graphics and matte lamination, while the orange inner tray is also printed and matte laminated.

The interior comes with a clean white base, suitable for directly displaying the product. A customized paperboard or foam insert can also be added to securely hold the electric shaver and accessories in place.

With machine-assisted mass production for consistent quality and cost efficiency, this custom rigid packaging box can be tailored in size, artwork, colors, inserts, and finishing options. Besides electric head shavers, it is also suitable for grooming devices, personal care electronics, and premium electronic gift sets.

Custom Sampling Time: 5–7 Business Days
Mass Production Lead Time: 18–22 Business Days

Key Features & Benefits

2mm Rigid Greyboard Structure — Strong & Premium Protection

Made with 2mm thick rigid greyboard wrapped in 157gsm coated art paper, this three-piece rigid box offers a sturdy construction and a substantial feel. Its rigid lid and base design provides a premium unboxing experience while helping protect electric shavers during storage and presentation.

Three-Piece Lid & Base Construction — Distinctive Orange Edge Design

The box consists of a top lid, bottom base, and separate inner tray. When closed, the orange inner tray creates a visible colored edge between the black lid and base, producing a distinctive layered appearance that helps your product packaging stand out.

Matte Lamination + Spot UV — Eye-Catching Surface Contrast

The black lid is finished with matte lamination, while the product image area features spot UV for a glossy, raised-looking visual contrast. This combination highlights key product graphics and creates a sophisticated finish. The bottom base and orange inner tray also feature matte lamination for a coordinated appearance.

Custom Printed Black & Orange Design — Strong Brand Identity

CMYK full-color printing allows detailed product images and custom graphics on the lid, while white printing on the black base improves text visibility. The orange inner tray adds a vibrant accent, creating a recognizable packaging design for modern grooming and electronics brands.

Custom Inner Tray & Insert — Secure Product Presentation

The standard interior features a clean white base for direct product placement. For additional support, custom paperboard or foam inserts can be designed to fit the shaver, charging cable, replacement blades, and other accessories, helping keep the contents neatly organized.

Applications & Packaging Solutions

This custom rigid lid and base box is suitable for electric grooming devices, personal care appliances, and premium electronic products.

Application	Customer Concerns	Our Packaging Solution
Electric Head Shaver Packaging	The packaging needs to look premium and present the product professionally.	A rigid 2mm greyboard structure with matte lamination and spot UV creates a high-end retail appearance.
Electric Hair Clippers	Products and accessories need to be displayed neatly together.	Custom inner trays and inserts can accommodate clippers, guards, cables, and accessories.
Personal Care Appliances	Brands want distinctive packaging that communicates product quality.	The black-and-orange color combination and glossy spot UV details create strong shelf appeal.
Grooming Gift Sets	Gift packaging should offer an attractive and memorable unboxing experience.	The three-piece rigid construction and contrasting orange tray add visual depth and premium presentation.
Electronic Accessories	Different product sizes require suitable packaging dimensions and internal support.	Customized box dimensions and protective inserts can be designed around the product specifications.

Production Method	Machine-Assisted Mass Production
Sampling Time	5–7 Business Days
Mass Production Lead Time	18–22 Business Days

How to Customize Your Rigid Electric Shaver Box

We provide a step-by-step customization process to help you develop packaging that fits your product and brand requirements.

Customization Step	What You Need to Do	What We Provide
Step 1: Confirm Product Dimensions	Provide the electric shaver dimensions, including accessories if applicable.	Recommend suitable box dimensions and internal space.
Step 2: Select Box Structure	Confirm the three-piece lid, base, and inner tray construction.	Prepare the structural design according to your requirements.
Step 3: Choose Materials & Colors	Confirm 2mm greyboard, wrapping paper, and preferred color combination.	Provide material and color recommendations.
Step 4: Submit Your Artwork	Send your brand logo, product images, text, and design files.	Check artwork and prepare the print-ready layout.
Step 5: Confirm Surface Finishing	Select matte lamination, spot UV, and other optional decorative finishes.	Arrange the printing and finishing specifications.
Step 6: Customize the Inner Insert	Confirm whether you need a blank interior, paperboard insert, or foam insert.	Design an insert to fit your shaver and accessories.
Step 7: Sample Approval & Mass Production	Review the physical sample and approve the final specifications.	Produce samples in approximately 5–7 business days and arrange bulk production after approval.

Shipping & Delivery

Our rigid gift boxes are manufactured with attention to structural consistency and packaging quality. Finished boxes can be packed securely for international transportation and delivered through different shipping methods according to your order quantity and destination.

Packaging Method	Individually protected and packed in export cartons
Sample Shipping	International express courier
Bulk Shipping Options	Air Freight, Sea Freight, or International Express
Sampling Lead Time	Approximately 5–7 Business Days
Mass Production Lead Time	Approximately 18–22 Business Days
Shipping Destinations	USA, UK, Europe, Australia, Canada, and Other International Markets
Shipping Cost	Based on order quantity, carton dimensions, destination, and shipping method
Delivery Time	Depends on the selected transportation method and destination

Please note: Production lead time does not include international transportation or customs clearance. Final delivery arrangements will be confirmed according to the order details.

Frequently Asked Questions (FAQ)

Q1: What is a 3-piece rigid lid and base box?

A 3-piece rigid box consists of three separate components: a top lid, a bottom base, and an inner tray. This construction creates a distinctive layered appearance and is commonly used for premium product and gift packaging.

Q2: Is this electric shaver box made from real rigid board?

Yes. The box uses 2mm thick greyboard as its main structural material, wrapped with 157gsm coated art paper. This provides a firm and premium packaging structure.

Q3: Can I customize the box size for my electric shaver?

Yes. We offer fully customized dimensions based on your product measurements. You can also provide the dimensions of the charging cable, replacement blades, and other accessories if they need to be packed together.

Q4: What is the difference between matte lamination and spot UV?

Matte lamination creates a smooth, low-gloss surface that gives the box a refined appearance. Spot UV applies a glossy coating to selected

areas, such as product images or logos, creating an attractive contrast against the matte background.

Q5: Can the orange inner tray be changed to another color?

Yes. The inner tray color can be customized to match your brand identity or product design. Other color combinations are available according to your artwork.

Q6: Can you add a custom insert to hold the electric shaver?

Yes. We can design custom paperboard or foam inserts to accommodate the electric shaver and its accessories. The insert dimensions and structure can be adjusted according to your product layout.

Q7: Is the box suitable for shipping electric shavers?

This rigid box provides a sturdy packaging structure for product presentation and storage. For shipping protection, we recommend adding a suitable custom insert and using appropriate outer shipping cartons. The required protection depends on the distribution and transportation conditions.

Q8: Can I order a sample before mass production?

Yes. We recommend ordering a pre-production sample to check the box structure, dimensions, printing colors, and finishing effects. The estimated sampling time is 5–7 business days.

Q9: What is the production lead time for bulk orders?

The estimated mass production lead time is 18–22 business days after sample and artwork approval. Actual production schedules may vary depending on order quantity and customization requirements.

Q10: What information is needed to get a quotation?

To prepare an accurate quotation, please provide:

- Box dimensions (Length × Width × Height)
- Estimated order quantity
- Electric shaver and accessory dimensions
- Printing artwork and brand logo
- Required surface finishing
- Inner insert requirements
- Shipping destination

Our team will review your specifications and provide a customized packaging quotation.
