Product Description

Foldable Magnetic Kraft Perfume Box with Clear PET Window

This foldable magnetic perfume box is engineered for fragrance brands that need rigid-box presentation without rigid-box freight cost. The one-piece magnetic folding structure ships flat and locks into a rigid cube in under ten seconds, while the clear PET window lets buyers see the vial before opening. It fits 10ml, 30ml and 50ml fragrance vials with a die-cut recyclable pulp insert that holds the bottle upright.

Why this structure sells

Flat-ship foldable magnetic body - saves up to 60% of container volume versus a pre-glued rigid box, cutting ocean freight per unit.
Clear PET window display - buyers see the bottle and liquid colour without opening the lid, which raises shelf conversion for retail counters and duty-free displays.
Recyclable moulded pulp insert - a paper-based alternative to EVA foam, fully repulpable and accepted by EU and North American paper recycling streams.
Neodymium magnet closure - hidden magnets give a consistent snap-lock feel across every unit in the run.
Kraft board face - natural unbleached kraft keeps the eco position credible; printable in CMYK or Pantone when branding matters.

Specifications

Item	Detail
Box style	One-piece foldable magnetic closure box with top window
Material	1000-1200gsm greyboard wrapped in 157gsm art paper or 150gsm kraft paper
Window	0.5mm clear PET or PVC, die-cut, glued or film-laminated
Insert	Recyclable moulded pulp tray, 1 cavity, die-cut to vial size
Compatible vial sizes	10ml, 15ml, 30ml, 50ml (custom cavity available)
Printing	Offset CMYK, Pantone, or plain kraft
Surface finish	Matte or gloss lamination, gold or silver hot stamping, embossing, spot UV
Closure	Hidden neodymium magnets, 2 x 2 magnet pairs
Flat shipping size	Approx. 320 x 240mm per flat sheet
Assembled size	Custom, typical 60 x 60 x 105mm for 50ml vial
MOQ	500 pieces per design

Customization options

Option	Available range
Size	Any dimension from 40mm to 200mm on each side
Window shape	Rectangle, oval, round, vial silhouette
Insert type	Moulded pulp, folded paperboard, or PET blister
Logo	Hot stamping, embossing, debossing, silk screen
