Product Description

CMYK Printed Folding Carton for Bath Soap

Product Description

This custom printed folding card box is specially designed for bath soap, cosmetic soap, and bath care products. Featuring a one-piece folding carton structure, the box can be shipped flat to save storage and transportation costs. It is easy to assemble without glue, making it a practical and cost-effective packaging solution. A customized hanging hole can also be added for convenient retail display on supermarket shelves and peg hooks.

Made from durable 350gsm white cardboard, the box features vibrant tropical hibiscus flowers and leaf patterns, inspired by the relaxed atmosphere of Hawaii. Warm yellow and orange backgrounds are complemented by silver-gray decorative lines, creating a fresh and attractive appearance. A circular front panel with an elegant gold foil border highlights key product information, including the brand name, fragrance, number of uses, and net weight. The bottom orange section provides neatly arranged space for ingredients, website details, barcode, and country of origin.

The box is printed using CMYK full-color printing and finished with matte lamination for a smooth, refined surface with improved scratch and abrasion resistance. Additional customization options include custom dimensions, artwork, Pantone colors, gold foil stamping, and embossing.

Ideal for scented bath soaps, bath sponge soaps, cosmetic soap bars, and bath care gift sets, this custom folding carton helps brands create attractive retail packaging for the US and European markets.

Key Features & Benefits

350gsm White Cardboard — Durable & Reliable Soap Packaging

Made from 350gsm white cardboard, this folding soap box offers a good balance of rigidity, durability, and printability. The sturdy paperboard construction helps maintain the box shape while protecting soap products during storage, handling, and retail display.

One-Piece Folding Structure — Easy Assembly & Cost Savings

The integrated one-piece design allows the box to be shipped flat, significantly reducing storage space and transportation volume. Its simple folding construction requires no glue during assembly, helping improve packing efficiency and reduce labor costs.

Custom Hanging Hole — Retail-Ready Display Solution

An optional integrated hanging hole makes the packaging suitable for supermarket shelves, cosmetic stores, gift shops, and other retail environments. Products can be displayed on peg hooks for better visibility and convenient customer access.

Vibrant CMYK Printing — Attractive Tropical Artwork

Full-color CMYK printing reproduces colorful hibiscus flowers, tropical leaves, and warm summer-inspired backgrounds with clear details. Matte lamination creates a smooth, elegant finish, while optional gold foil stamping and embossing add a premium decorative effect.

Custom Branding & Product Information — Professional Retail Presentation

The front panel can display your brand logo, fragrance, product benefits, and net weight, while the bottom section provides space for ingredients, barcodes, website information, and country of origin. We support customized artwork and layouts to meet different brand and market requirements.

Application Scenarios

Application	Customer Concerns	Our Manufacturing Solutions
Bath Soap Packaging	Need attractive packaging to stand out on retail shelves.	Vibrant CMYK printing with customized colors, patterns, and brand graphics.
Scented Soap Packaging	Need space to communicate fragrance and product information.	Customized front-panel layout for fragrance names, product descriptions, and net weight.
Bath Sponge Soap	Need convenient packaging for products sold in supermarkets.	One-piece folding structure with an optional integrated hanging hole.
Cosmetic Soap Packaging	Need professional packaging with a premium appearance.	350gsm white cardboard combined with matte lamination and optional gold foil stamping.
Handmade Soap Gift Sets	Need attractive packaging suitable for gifting.	Custom artwork, decorative foil details, and personalized box dimensions.
Supermarket & Retail Products	Need packaging that is easy to display and replenish.	Flat-packed cartons, quick assembly, and optional peg-hook display holes.

How to Customize Your Folding Soap Box

Step	Customization Process	Details
Step 1	Share Your Requirements	Provide your soap dimensions, box size, order quantity, and packaging requirements.
Step 2	Confirm Box Structure	Select the folding carton style, opening method, and optional hanging hole position.
Step 3	Choose Materials & Finishing	Confirm 350gsm white cardboard, printing methods, matte lamination, and decorative finishes.
Step 4	Submit Artwork & Design	Send your logo, product information, barcode, and print-ready artwork for layout confirmation.
Step 5	Sample Production	Produce a customized sample to check dimensions, folding structure, printing quality, and overall appearance.
Step 6	Mass Production & Quality Inspection	Start bulk production after sample approval, followed by quality inspection and shipment.

Shipping & Logistics

Our folding paper soap boxes are supplied flat-packed, helping reduce shipping volume and warehouse storage requirements. We offer different international shipping solutions according to your order quantity, destination, and delivery schedule.

Shipping Method	Suitable For	Advantages
Express Courier	Samples and small orders	Fast delivery with convenient shipment tracking.
Air Freight	Medium-sized orders	Suitable for customers with tighter delivery schedules.
Sea Freight	Large-volume bulk orders	Economical transportation for wholesale packaging orders.
DDP Shipping	Customers requiring door-to-door delivery	Convenient shipping arrangements, subject to destination and service availability.

Packaging & Shipping Advantages

- Flat-packed cartons help reduce transportation and storage costs.
- Products are packed in protective export cartons.
- Customized carton packing can be arranged according to order requirements.
- Shipping costs and estimated delivery times are confirmed according to destination, quantity, and shipping method.

Frequently Asked Questions (FAQ)

Q1: Can I customize the size of the folding soap box?

Yes. We provide fully customized dimensions according to your soap size and packaging requirements. Simply share your product measurements, and we can recommend a suitable box structure.

Q2: Can you add a hanging hole to the folding carton?

Yes. We can customize different hanging hole shapes and positions, such as round holes or euro-slot hanging holes, to suit supermarket peg hooks and retail display systems.

Q3: Does the box require glue during assembly?

No. This design features a one-piece folding structure that can be assembled without additional glue. The boxes are delivered flat-packed for convenient storage and transportation.

Q4: What paper materials are available for this soap packaging?

Our standard option is 350gsm white cardboard. Other paperboard thicknesses and materials can also be discussed based on your product weight, packaging structure, and budget.

Q5: Can I print my own logo and product information?

Absolutely. We support customized CMYK printing, Pantone colors, brand logos, product descriptions, ingredient lists, barcodes, and other required information.

Q6: What surface finishes can I choose?

We offer matte lamination, gloss lamination, gold or silver foil stamping, embossing, debossing, and spot UV. These finishes can be combined to create distinctive retail packaging.

Q7: Is this folding soap box suitable for the US and European markets?

Yes. We can customize the packaging artwork and product information layout according to your target market requirements. For regulatory compliance, the final packaging text, ingredient declarations, labeling, and material suitability should be reviewed against the applicable US or EU regulations before printing.

Q8: Can I get a sample before placing a bulk order?

Yes. We recommend a pre-production sample to check the box dimensions, folding performance, printing colors, hanging hole, and finishing effects before mass production.

Q9: How are the boxes shipped?

The boxes are normally shipped flat-packed in export cartons to save space and reduce transportation costs. Express, air freight, sea freight, and available DDP services can be arranged.

Q10: What information do you need for a quotation?

To provide an accurate quotation, please share:

- Box dimensions (L × W × H)
- Paper material and thickness
- Estimated order quantity
- Printing artwork or design reference
- Surface finishing requirements
- Hanging hole requirements
- Shipping destination

Our sales team will recommend a suitable packaging solution and provide a customized quotation.
