Product Description

Custom Rigid Heaven and Earth Box , 2mm Grey Board Art Toy Packaging with Flocked EVA Tray

Product Description

This custom rigid heaven and earth box is a premium three-piece packaging solution designed for collectible art toys, designer figures, and limited-edition collectibles. The set consists of a rigid lid and base box, a matching inner box, and a custom flocked EVA insert, providing both premium presentation and reliable product protection.

The box is made from 2mm thick greyboard wrapped with 157gsm coated art paper, creating a sturdy structure with excellent rigidity and durability. Featuring a creative space graffiti theme, the packaging combines bold red and blue colors, artistic textures, astronaut illustrations, SPACE MOLLY-inspired graphics, moon phase patterns, and brand logos for a distinctive collectible presentation.

CMYK full-color printing reproduces intricate artwork with rich colors and fine details. Matte lamination provides a smooth, elegant surface, while optional silver foil stamping and spot UV can further enhance logos, text, and decorative elements. The interior can also be printed with matching space-themed graphics to create a consistent unboxing experience.

Inside, the custom flocked EVA tray is precision-cut to fit the collectible figure and its accessories. Dedicated compartments securely hold the main figure and individual accessories, helping prevent movement, scratches, and impact damage during shipping and storage. The soft flocked surface adds a luxurious tactile feel while enhancing the overall presentation.

Available with fully customized dimensions, artwork, colors, printing, and insert materials, this rigid toy packaging box is an excellent choice for designer toys, collectible figures, limited-edition art toys, and premium gift packaging.

Key Features & Benefits

1. Premium 2mm Greyboard Construction — Strong & Durable Protection

Constructed from 2mm thick rigid greyboard wrapped with 157gsm coated art paper, this premium rigid gift box offers excellent structural strength and a solid feel. The three-piece construction provides a refined appearance while helping protect valuable collectible figures during storage, handling, and transportation.

2. Creative Space-Themed Artwork — Eye-Catching Collectible Packaging

The colorful space graffiti design combines astronaut illustrations, moon phase graphics, bold red and blue colors, and artistic textures. CMYK full-color printing ensures vibrant artwork reproduction, while matte lamination creates a sophisticated finish. Silver foil stamping and spot UV are available to highlight important graphic details.

3. Custom Flocked EVA Insert — Secure & Scratch-Resistant Storage

The custom EVA tray is precision-cut according to the shape and dimensions of the collectible figure. Separate cavities accommodate the main toy and its accessories, keeping every component organized and securely positioned. The soft flocked surface provides additional cushioning and helps prevent scratches.

4. Three-Piece Rigid Box Design — Premium Unboxing Experience

The packaging includes a rigid lid, base box, and matching inner box, with a separately fitted flocked EVA insert. This layered structure creates an attractive presentation and makes the packaging ideal for premium designer toys, collectible figures, and limited-edition releases.

5. Fully Customizable Packaging — Tailored to Your Brand

From box dimensions and artwork to printing techniques and insert materials, every detail can be customized. Customers can choose flocked EVA, standard EVA, or pearl cotton foam inserts to match their product shape, protection requirements, and packaging budget.

Application Scenarios

Application	Customer Concerns	Our Manufacturing Solutions
Designer Art Toys	Need attractive packaging that reflects the artistic value of collectible figures.	Custom space-themed artwork, full-color printing, and premium rigid box construction.
Collectible Figures	Need secure storage to prevent movement and damage.	Precision-cut EVA inserts with dedicated compartments for figures and accessories.
Limited Edition Toys	Need exclusive packaging that enhances product value.	Custom artwork, silver foil stamping, spot UV, and premium flocked interiors.
Blind Box & Character Collectibles	Need organized packaging for multiple small components.	Customized insert layouts with separate cavities for individual accessories.
Premium Toy Gifts	Need impressive presentation and an elevated unboxing experience.	Three-piece rigid box structure with matching interior graphics and soft flocked EVA trays.
Art & Designer Merchandise	Need durable packaging suitable for long-term storage and display.	2mm rigid greyboard construction with customized protective inserts.

Insert Surface	Soft Flocked Finish
Interior Design	Custom Printed Space-Themed Graphics
Box Color	Fully Customizable
Box Size	Customized According to Product Dimensions
Logo	Custom Logo Printing / Foil Stamping
Packaging Style	Premium Collectible Toy Gift Packaging

How to Customize Your Rigid Toy Packaging Box

Step	Customization Process	Details
Step 1	Share Your Requirements	Provide product dimensions, box size, quantity, artwork, and packaging requirements.
Step 2	Choose Box Structure & Materials	Confirm the rigid box construction, greyboard thickness, wrapping paper, and EVA insert material.
Step 3	Artwork & Design Confirmation	Our team prepares the packaging layout and confirms printing colors, graphics, logos, and finishing effects.
Step 4	Sample Production	Produce a customized sample to check box dimensions, structural quality, printing accuracy, and EVA insert fitting.
Step 5	Sample Approval & Mass Production	After sample approval, we arrange bulk production according to the confirmed specifications.
Step 6	Quality Inspection & Delivery	Inspect finished boxes, check packaging quality, and arrange shipment according to your delivery requirements.

Shipping & Logistics

We provide flexible shipping solutions for custom rigid toy packaging boxes, supporting both small sample orders and large-volume production orders.

Shipping Method	Suitable For	Advantages
Express Courier	Samples and small orders	Fast delivery with convenient tracking.
Air Freight	Medium-sized orders with urgent deadlines	Faster transportation than sea freight.
Sea Freight	Large-volume bulk orders	Cost-effective for international shipments.
DDP Shipping	Customers who prefer door-to-door delivery	Convenient delivery arrangements, subject to destination and shipping terms.

Packaging & Shipping Considerations

- Finished rigid boxes are carefully packed to reduce scratches, deformation, and transportation damage.
- Protective outer cartons are used to safeguard the products during transit.
- Shipping methods can be selected according to order quantity, destination, and delivery schedule.
- Shipping costs and estimated transit times are confirmed based on the final order details.

Frequently Asked Questions (FAQ)

Q1: Can I customize the size and structure of this rigid toy packaging box?

Yes. We offer fully customized rigid packaging solutions. You can specify the box dimensions, lid and base structure, inner box design, and insert layout according to your collectible figure.

Q2: Can the EVA insert be customized to fit my toy and accessories?

Yes. We can create precision-cut EVA inserts based on your product dimensions or physical samples. Separate compartments can be designed for the main figure, accessories, and other components.

Q3: Can I choose a different insert material instead of flocked EVA?

Yes. Besides flocked EVA, we can provide standard EVA foam, pearl cotton (EPE), and other suitable protective insert materials according to your budget and protection requirements.

Q4: What printing and finishing options are available?

We support CMYK full-color printing, Pantone spot colors, matte or gloss lamination, silver or gold foil stamping, spot UV, embossing, and other decorative finishing options.

Q5: Can I print my own brand logo and artwork on the box?

Absolutely. We provide OEM and ODM custom packaging services. You can supply your own artwork, logo, and design files, or work with our team to develop customized packaging artwork.

Q6: Can I order a sample before placing a bulk order?

Yes. We recommend producing a pre-production sample to check the box structure, printing quality, surface finishing, and EVA insert fitting before mass production.

Q7: Are these rigid boxes suitable for international shipping?

Yes. The 2mm greyboard construction and customized EVA insert provide reliable protection for collectible figures. We also use protective outer cartons to help reduce damage during international transportation.

Q8: What information do you need to provide a quotation?

To prepare an accurate quotation, please provide:

- Box dimensions (L × W × H)
- Estimated order quantity
- Box structure and material requirements
- Printing artwork or design reference
- EVA insert dimensions or product sample
- Shipping destination

Our sales team will evaluate your requirements and provide a customized quotation.
