Product Description

Rigid 3pcs Set Perfume Sample Box, Custom Flocked EVA Tray for 4 Pcs Fragrance Tester

Product Description

This luxury rigid 3-piece perfume sample gift box is specially designed for men's fragrance tester sets. Featuring a three-piece construction consisting of a lid, base, and inner box, it is made from 2mm rigid greyboard wrapped in 157gsm coated art paper. The sturdy construction provides excellent durability and protection while creating a premium packaging experience for fragrance brands.

The exterior features high-quality CMYK full-color printing with a sophisticated men's fragrance-themed illustration, complemented by a white brand logo and elegant product text. The surface is finished with matte lamination for a refined appearance. Optional gold foil stamping, embossing, and other decorative finishes can be added to highlight your brand logo and enhance the overall luxury appeal.

Inside the box, a custom flocked EVA foam insert is designed with four precisely cut compartments for fragrance sample tubes. The soft flocked surface helps prevent scratches, while the fitted slots securely hold each tester in position, reducing movement, collisions, and potential damage during transportation. The insert also provides an organized and attractive product display.

This custom rigid perfume box supports personalized dimensions, printing artwork, colors, and finishing options. Alternative inserts, including paperboard and pearl cotton, are also available. It is an ideal packaging solution for perfume discovery kits, fragrance sample collections, luxury cosmetics, and men's grooming gift sets.

Key Features & Benefits

1. Premium 3-Piece Rigid Structure — Superior Protection & Luxury Presentation

Constructed from 2mm rigid greyboard wrapped in 157gsm coated art paper, this three-piece rigid box offers excellent structural strength and durability. The lid, base, and inner box create a solid, premium package that protects delicate fragrance testers while enhancing the perceived value of your products.

2. Custom Flocked EVA Insert — Secure Storage for 4 Fragrance Testers

The interior features a precision-cut EVA foam tray covered with a soft flocked finish. Four individual compartments are customized to fit your fragrance sample tubes, helping prevent movement, scratches, and collisions during storage and shipping.

3. Full-Color CMYK Printing — Eye-Catching Brand Presentation

The box exterior supports full-color CMYK printing, allowing detailed illustrations, brand logos, product descriptions, and promotional graphics to be reproduced clearly. Custom artwork helps fragrance brands establish a recognizable visual identity and attract attention in retail and gift markets.

4. Matte Lamination & Premium Finishing — Refined Luxury Appearance

Matte lamination creates a smooth, elegant surface while providing additional protection against everyday scuffs. Optional gold foil stamping, silver foil, embossing, debossing, and spot UV can highlight your logo and decorative elements for a more luxurious finish.

5. Fully Customized Packaging — Flexible Materials & Design Options

Every detail can be customized to suit your product and brand requirements, including box dimensions, colors, printing artwork, surface finishes, and insert layouts. The flocked EVA insert can also be replaced with paperboard or pearl cotton to accommodate different protection needs and packaging budgets.

Application Scenarios & Customer Concerns

Application Scenario	Customer's Main Concerns	Our Manufacturing Solutions
Men's Perfume Sample Sets	How can four fragrance testers be stored neatly without colliding?	A custom flocked EVA insert with four individual compartments securely holds each tester.
Luxury Fragrance Discovery Kits	How can sample packaging create a premium unboxing experience?	A rigid three-piece structure, sophisticated CMYK artwork, and matte lamination create an upscale presentation.
Perfume Brand Promotional Gifts	How can packaging communicate brand identity effectively?	Custom logos, illustrations, foil stamping, and embossing help strengthen brand recognition.
Cosmetic & Beauty Gift Sets	How can delicate glass containers be protected?	Precisely cut EVA compartments help reduce movement, scratches, and impact damage.
Retail & E-commerce Packaging	How can packaging combine product protection and attractive display?	A sturdy rigid box and fitted interior insert provide both protective storage and organized presentation.
New Fragrance Launches	Can packaging be customized for different marketing campaigns?	Flexible box sizes, artwork, colors, and finishing options support different promotional themes.

Customization Process

We provide professional custom packaging services from initial design consultation to sample development and mass production.

Step	Customization Process	What We Provide
Step 1: Share Your Requirements	Send us your product dimensions, fragrance tester specifications, estimated quantity, and packaging ideas.	Initial packaging consultation and quotation.
Step 2: Confirm Box Structure	Confirm the three-piece rigid box structure, dimensions, lid design, and opening method.	Structural recommendations and size confirmation.
Step 3: Select Materials	Choose greyboard thickness, wrapping paper, EVA foam, flocking color, and insert materials.	Material options based on your quality and budget requirements.
Step 4: Artwork & Printing	Provide your brand logo, artwork, product information, and preferred colors.	Printing layout and artwork confirmation.
Step 5: Select Finishing Options	Choose matte or gloss lamination, foil stamping, embossing, debossing, or spot UV.	Customized surface finishing to enhance brand presentation.
Step 6: Sample Production	Produce a physical sample for checking dimensions, printing, structure, and insert fitting.	Sample evaluation before bulk production.
Step 7: Mass Production & Quality Control	Manufacture the approved packaging and inspect printing quality, structure, appearance, and insert fitting.	Consistent production quality according to the approved sample.
Step 8: Packing & Shipping	Pack finished boxes in protective export cartons and arrange shipment.	Export packaging and shipping coordination.

Packaging & Shipping Information

Packaging Type	Protective Export Cartons
Product Delivery Form	Fully Assembled Rigid Boxes
Inner Protection	Suitable Protective Packing Materials
Express Shipping	Suitable for samples and urgent small orders
Air Freight	Suitable for medium-sized orders requiring faster delivery
Sea Freight	Economical option for large-volume orders
Shipping Destinations	USA, UK, Europe, Canada, Australia, and Other Markets
Shipping Cost	Calculated according to order quantity, carton size, weight, and destination
Production & Delivery Time	Confirmed according to order quantity, customization, and shipping method

Shipping Note: Unlike folding cartons, rigid boxes are generally shipped fully assembled and cannot be shipped completely flat. We optimize carton packing to improve space utilization while maintaining product protection during international transportation.

Frequently Asked Questions (FAQ)

Q1: Can I customize the perfume sample box with my own brand logo and artwork?

Yes. We provide full customization services, including box dimensions, printing artwork, brand logos, colors, and surface finishing. You can create unique packaging that matches your fragrance brand identity.

Q2: Can the EVA insert be customized for four different perfume sample bottles?

Yes. The EVA insert can be precision-cut according to the dimensions and shapes of your four fragrance testers. Each bottle has an individual compartment to help ensure a secure fit.

Q3: Can I customize the color of the flocked EVA insert?

Yes. Different flocking colors are available. We can also customize the EVA thickness, compartment dimensions, and insert layout according to your product requirements.

Q4: What printing and finishing options are available?

We offer CMYK full-color printing, Pantone spot colors, matte lamination, gloss lamination, gold foil stamping, silver foil stamping, embossing, debossing, and spot UV.

Q5: Can I change the EVA insert to another material?

Yes. Depending on your product and budget, we can provide flocked EVA, standard EVA, pearl cotton, or paperboard inserts.

Q6: Can I order a sample before placing a bulk order?

Yes. We recommend ordering a pre-production sample to check the box construction, dimensions, printing quality, surface finishing, and insert fitting before approving mass production. Sample costs and lead times can be quoted according to your design.

Q7: What is your minimum order quantity (MOQ)?

MOQ depends on the box size, material specifications, printing requirements, and finishing processes. Please contact us with your estimated order quantity for a customized quotation.

Q8: How long does mass production take?

Production time depends on the order quantity, box structure, and finishing requirements. We will provide a confirmed production schedule after reviewing your specifications and sample approval.

Q9: Are rigid perfume sample boxes suitable for international shipping?

Yes. The rigid greyboard construction and custom EVA insert provide good protection for fragrance testers. We also use protective export cartons to help minimize damage during international transportation.

Q10: Can you manufacture other sizes of perfume gift boxes?

Yes. We manufacture custom rigid perfume boxes in different sizes and structures, including single-bottle boxes, multi-bottle fragrance sets, perfume discovery kits, and luxury cosmetic gift boxes.
