## Product Description

### Christmas Folding Carton Box , 350gsm Metallic Silver Cardstock , Glossy UV Coating , White Inner for Skincare Gift

### Product Description

This custom Christmas folding carton box is designed for seasonal skincare, cosmetics, and personal care gift packaging. Made from 350gsm metallic silver cardstock, it features a subtle reflective sheen that creates an elegant, premium appearance. The one-piece folding structure can be shipped and stored flat, helping reduce warehouse space and transportation costs. It is easy to assemble and ideal for packaging hand cream, handmade soap, fragrance products, and other beauty essentials.

The exterior is printed using UV printing technology with a combination of CMYK full-color printing and custom spot colors. The festive artwork features Christmas stars, holly leaves, decorative ribbons, and red berries, creating a cheerful holiday atmosphere. A bright yellow spot-color band across the center displays the brand name, adding a distinctive visual accent to the silver background.

A glossy UV coating is applied to the exterior, enhancing the brightness of the printed graphics and highlighting the metallic reflection of the silver cardstock. The result is a vibrant, eye-catching finish that brings out the festive character of the packaging. The interior features a clean white surface, creating a fresh and elegant contrast with the colorful exterior.

As a professional custom paper packaging manufacturer, we offer flexible customization options for box dimensions, Christmas artwork, color combinations, spot-color printing, and UV finishing. Whether you are developing Christmas skincare gift sets, holiday promotional products, or seasonal personal care collections, this custom folding carton provides an attractive packaging solution for international beauty brands.

### Key Features & Benefits

**1. 350gsm Metallic Silver Cardstock — Premium Metallic Appearance**

Made from 350gsm metallic silver cardstock, this folding carton features a natural metallic sheen that reflects light beautifully. The silver surface enhances the Christmas artwork and gives skincare and personal care products a more premium presentation.

**2. Flat-Pack Folding Structure — Space-Saving Storage & Shipping**

The one-piece folding structure allows the carton to be shipped and stored flat before use. This design helps reduce warehouse space, optimize shipping volume, and simplify packaging operations for wholesale buyers and beauty brands.

**3. CMYK + Spot Color Printing — Vibrant Christmas Artwork**

Combining CMYK full-color printing with custom spot colors produces rich graphics and detailed festive patterns. Christmas stars, holly leaves, ribbons, and berries create a seasonal look, while the bright yellow brand band adds a distinctive contrast.

**4. Glossy UV Coating — Brilliant Shine & Enhanced Visual Appeal**

The glossy UV finish enhances surface brightness and highlights the metallic effect of the silver cardstock. It makes the Christmas artwork more eye-catching and helps improve resistance to everyday surface wear.

**5. Clean White Interior — Versatile Beauty Gift Packaging**

The white interior creates a clean, refreshing presentation that complements the colorful exterior. Optional custom paperboard or EVA inserts can be added to hold different skincare and personal care products securely.

### Application Scenarios — How Our Packaging Meets Customer Needs

| Application Scenario | Customer Concerns | Our Packaging Solutions |
|---|---|---|

## Frequently Asked Questions (FAQ)

**Q1: Can I customize the size of this Christmas folding carton box?**

Yes. We provide fully customized dimensions according to your products. Simply share the length, width, and height of your items, and our team will recommend suitable box dimensions.

**Q2: Can I change the Christmas artwork and printing colors?**

Absolutely. You can provide your own Christmas designs, brand artwork, and color references. We support customized CMYK printing, Pantone spot colors, and different festive graphic styles.

**Q3: Is 350gsm metallic silver cardstock suitable for cosmetic packaging?**

Yes. 350gsm metallic silver cardstock is suitable for many lightweight skincare, hand cream, soap, and personal care products. The final material selection depends on product weight, box dimensions, and structural requirements.

**Q4: What is the difference between glossy UV coating and regular gloss lamination?**

Glossy UV coating creates a bright, reflective surface that enhances printed colors and metallic effects. Gloss lamination covers the surface with a thin protective film. The most suitable option depends on your desired appearance and finishing requirements.

**Q5: Can I print my brand logo using Pantone colors?**

Yes. We support Pantone spot-color printing to help achieve consistent brand colors. Your logo can also be highlighted with additional finishing options such as hot foil stamping, embossing, or debossing.

**Q6: Can the inside of the box be customized?**

Yes. The interior can remain white or be customized with printed graphics. We can also add paperboard, EVA, or other suitable inserts to hold your skincare and personal care products securely.

**Q7: Does this folding carton require assembly?**

Yes. The carton is supplied flat-packed and requires simple folding and assembly before use. This structure helps reduce storage and transportation volume compared with pre-assembled rigid boxes.

**Q8: Can I order a sample before placing a bulk order?**

Yes. We recommend ordering a physical sample to check the cardstock, box structure, printing colors, glossy UV finish, and overall appearance before mass production.

**Q9: What is the minimum order quantity (MOQ)?**

MOQ depends on the box dimensions, material, printing requirements, and finishing processes. Please contact our sales team with your estimated order quantity to receive a customized quotation.

**Q10: How long does production take?**

Production lead time depends on order quantity, artwork approval, sample requirements, and finishing complexity. We will confirm the sample and bulk production schedules after reviewing your project.

**Q11: Can you ship Christmas packaging boxes to the USA and Europe?**

Yes. We support international B2B orders and can arrange sea freight, air freight, or express courier delivery to the USA, UK, Europe, and other overseas markets.
