

Custom Logo Red E-Flute Corrugated Paper Shipping Box Strong Wall Mailer With Fixed Paper Insert Skincare Set

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: XL Packaging
- Certification: ISO 9001, FSC, ISTA-3A
- Model Number: XLP-CPB-2026
- Minimum Order Quantity: 500 Pieces
- Price: USD 0.55-1.60 / Piece
- Packaging Details: Flat-packed 50 pcs per bundle, 200 pcs per 5-layer export carton, palletized with corner boards
- Delivery Time: 15-25 days after deposit and artwork confirmation
- Payment Terms: T/T,L/C
- Supply Ability: 800000 Pieces per Month

Product Specification

- Box Style: Roll End Tuck Front Corrugated Shipper Mailer Box
- Flute Type: E-flute 1.5mm Standard, BC Double Wall 6mm Optional
- Board Wall: 3-layer Standard, 5-layer Reinforced Optional
- Liner: White Top, Kraft, Or Red Coated Liner
- Paper Insert: Die-cut Corrugated Tray / Paper Pulp Tray / EVA Foam
- Size Range: Customized L X W X H In Mm
- Printing: CMYK Offset Or Flexo, Pantone Matching, Inside Printing Optional
- Surface Finish: Matte Aqueous Varnish, Gloss Lamination, Spot UV, Foil Stamping
- Color Scheme: Red + White
- Closure: Tape-free Tuck Front With Tear Strip And Locking Bottom

Product Description

Custom Logo Red E-Flute Corrugated Paper Shipping Box Strong Wall Mailer With Fixed Paper Insert Skincare Set

STRONG WALL | E-FLUTE 1.5MM | RED & WHITE | FLAT PACKED

Red & White Corrugated Shipper Mailer Built For Skincare Set Express

A **corrugated paper box** for shipping has three jobs: survive the courier belt, protect glass bottles, and still look like your brand on the doorstep. This red and white **shipper box** handles all three with a strong board wall, an E-flute structure that folds in seconds, and a die-cut paper insert that locks every bottle in place.

Everything is customized: your size, your logo, your red or white liner. It ships flat, so a 500 piece trial order fits on one pallet and a 20,000 piece program still keeps unit cost low for skincare brands selling direct in the US and Europe.

Email: | Free dieline, 3D mock-up and drop-test report with every quotation.

PRODUCT OVERVIEW

This **corrugated paper box** is built from E-flute corrugated paperboard (1.5 mm) laminated with a white or kraft top liner, then printed in red and white or any palette from your brand guide. The roll end tuck front (RETF) structure closes without tape, so a packing line needs no tape gun and the customer opens the parcel in one pull.

For direct-to-consumer skincare, the real cost problem is not the board, it is the air inside the parcel. Because this box is sized to your actual glass bottle set, dimensional weight stays low and the **ecommerce packaging box** still leaves margin on a 49 USD order. The die-cut paper insert holds each bottle 1 to 2 mm over its diameter, so nothing shifts, leaks or chips during express handling.

Every run uses 100% **recyclable packaging box** material with water-based ink and no plastic tape in the standard build. FSC certified liner is available for EU retail listing, and trial quantities of 500 pieces suit **shipping boxes for small business** budgets while high-volume programs move to **wholesale packaging boxes** pricing with fixed lead times.

THREE SELLING POINTS, EXPLAINED

1. Corrugated paper box for shipping using. Standard build is 3-layer E-flute with a 250gsm liner; heavy glass sets move up to BC double wall (6 mm) or a reinforced 5-layer side wall. Edge crush and burst strength are tested per batch, and every design is drop-tested 10 times from 1.2 m on the corners couriers hit first.

2. Strong wall mailer box for skincare set. The reinforced board wall keeps the parcel square after sorting, so the red and white print still reads clean when it lands. A tear strip plus locking bottom tab keeps the parcel closed in transit yet opens without a knife, and the box stays intact for returns or reuse.

3. E-flute corrugated paper box with paper insert to fix product inside safe. A die-cut corrugated or paper pulp tray is sized 1 to 2 mm over each bottle, with a top pad above the pump heads. Serum, toner and cream arrive upright and unmarked, with zero void fill and no plastic bubble wrap.

*Also available: natural kraft **cardboard shipping box** version, white top liner for brighter color reproduction, and full CMYK or Pantone **custom printed packaging** with inside print for the unboxing reveal.*

APPLICATION SCENARIOS: WHAT BUYERS WORRY ABOUT IN A SHIPPER MAILER BOX

Usage scenario: **skincare set products packed for express transport** — serum, toner, cream, essence and gift sets shipped to individual customers, retail replenishment or marketplace warehouses.

Customer Concern About A Shipper Mailer Box	How This Box Solves It	Skincare Set Application
Will the parcel be crushed in courier sorting?	Strong wall E-flute board, reinforced side walls, BC double wall for heavy sets; batch edge crush test plus a 1.2 m ten-drop corner test.	Three glass bottles of serum, toner and cream shipped one by one to end customers.
Will bottles knock together and leak?	Die-cut paper insert sized 1–2 mm over each bottle diameter, plus a top pad over pump heads. No loose fill, nothing to shift.	A gift set combining 100 ml toner, 30 ml serum and 50 g cream in a single parcel.
Is volumetric weight eating my freight cost?	Box sized to the product instead of padded with void fill; flat-packed delivery cuts inbound freight up to 60%.	Direct-to-consumer orders billed on dimensional weight by DHL, UPS or FedEx.
Will my red and white print scuff or fade?	Matte aqueous varnish or gloss lamination on the print area; water-resistant liner available on request.	Brand print that must stay clean on a wet doorstep or in a humid warehouse.
Does it meet Amazon FBA and marketplace rules?	Sized under oversize thresholds, FNSKU label area reserved, no loose fill, ISTA-3A transit test report available.	**FBA shipping box** replenishment and marketplace compliance audits.
Can the customer open it without damaging the box?	Tear strip plus tuck front allows a one-pull opening; the box survives for returns, reuse or storage.	Repeat purchase and refill programs where customers keep the box.
Is it acceptable to EU and US sustainability buyers?	100% recyclable corrugated, plastic-free standard build, FSC certified liner, water-based ink.	Clean beauty brands whose listing needs an **eco friendly mailer box**.
Can one box serve both shipping and gifting?	Inside printing in white or soft red turns the shipper into an unboxing piece, so no extra gift wrap is needed.	Holiday and Q4 skincare gift sets sold online with a premium reveal.
Will the set fit without repacking?	Free dieline in your exact size; sampling line packs your real products before mass production starts.	New **skincare packaging box** launch where bottle sizes are still being finalized.

SPECIFICATIONS

Item	Custom Red & White Corrugated Shipper Mailer Box
Structure	Roll end tuck front (RETF) mailer with tear strip and locking bottom
Board	E-flute corrugated 1.5 mm standard; BC double wall 6 mm for heavy sets
Board Wall	3-layer standard, 5-layer reinforced optional
Liner	White top, kraft, or red coated liner
Size	Fully customized L * W * H (mm), free dieline provided
Printing	CMYK offset or flexo, Pantone matching, inside printing optional
Surface	Matte aqueous varnish standard; gloss lamination, spot UV, foil stamping optional
Insert	Die-cut corrugated tray, paper pulp tray, or EVA foam
Color Scheme	Red + white (custom palette supported)
Closure	Tape-free tuck front with tear strip and locking bottom

MOQ	500 pcs per design
Sample Time	5–7 days
Production Lead Time	15–25 days after artwork and deposit confirmation
Payment	T/T, L/C — 30% deposit, 70% balance against B/L copy
Certification	ISO 9001, FSC, ISTA-3A test report, Sedex

PACKAGING & LOGISTICS

Shipping Item	Details	Transit / Handling Time
Inner packing	Boxes bundled flat, 50 pcs per bundle, kraft paper wrap and size label	Same day as final QC
Master carton	5-layer export carton, 200 pcs flat-packed per carton, approx. 60 * 45 * 40 cm, 20–22 kg	Carton marking to your instruction
Pallet loading	Palletized with corner boards and stretch film; 18–20 cartons per 1.1 * 1.1 m pallet	+1 working day
Express (samples / trial orders)	DHL, FedEx, UPS door to door, duties prepaid option	3–5 working days
Air freight	Door to door, best for 50–300 kg urgent restock	7–10 working days
Sea LCL	Consolidated container, ideal for 1–8 CBM	25–35 days port to port
Sea FCL	20GP / 40HQ, lowest unit cost from 5,000 pcs	20–30 days port to port
DDP door to door	Duty, clearance and last-mile included, delivery to warehouse or Amazon FBA	28–40 days total

Lead time at a glance: 500–1,000 pcs: 15–18 days · 1,000–5,000 pcs: 18–22 days · 5,000–20,000 pcs: 22–28 days · above 20,000 pcs: 28–35 days. Add 3–5 days in the August–October peak, so book Q4 gift-set production by early September.

CUSTOMIZATION PROCESS: FROM INQUIRY TO DELIVERY

Step	What We Do	What You Should Check
1. Inquiry	Collect product list, bottle sizes, weight, quantity, destination country and reference images	Send the exact bottle dimensions and total parcel weight — this decides flute type and board wall
2. Solution & quotation	Recommend structure, flute and paper insert; quotation within 12 working hours	Confirm the quote covers insert, printing, export carton, and whether freight is included
3. Dieline & artwork	Free dieline in your chosen size plus a file preparation checklist	3 mm bleed, fonts outlined, logo in vector; keep text 4 mm from folds and 10 mm from the tear strip
4. 3D mock-up	Render your artwork on the box for approval before plates are made	Approve the red and white shades on screen and against your product photo
5. Sampling	3–5 pre-production units in 5–7 days plus a drop-test video	Packing your real products, drop the box, open it — check bottle fit, print scuffing and tear strip position
6. Sample approval	Issue PI with structure, board, print and payment terms	Sign off the sample and keep one unit as the production standard

7. Deposit	Order board and print plates after 30% deposit is received	Verify the beneficiary name matches the company shown on the PI
8. Production & QC	Printing, corrugating, die-cutting, insert die-cutting, gluing; in-line and final AQL 2.5 inspection	Ask for photos at 30% and 80% completion plus a burst / edge crush record
9. Balance & booking	Balance invoice issued, vessel or flight booked	Check the balance amount, bank details and the confirmed shipping date
10. Documents	Invoice, packing list, B/L or AWB, certificate of origin if needed	Verify consignee, HS code 4819.10 and notify party before telex release
11. Delivery & after-sales	Shipment tracking, customs support, reorder file kept for 24 months	Inspect cartons on arrival; report shortage or damage with photos within 7 days

Typical end-to-end: 25–35 days for a first order by air, 45–55 days by sea including production. Reorders skip steps 3 to 6 and run 8–10 days faster.

FREQUENTLY ASKED QUESTIONS

Q1: What is the MOQ for a custom corrugated paper box?

500 pieces per design, including your own size, print and paper insert. Mixed sizes in one order are accepted, and repeat runs are faster because the dieline and plates stay on file.

Q2: How much does a strong wall mailer box cost?

About 0.55–1.60 USD per piece for 500–2,000 pcs in E-flute, depending on size, liner, print coverage and insert. BC double wall adds roughly 25–35%. Send dimensions and quantity for an exact figure.

Q3: Should I choose E-flute or double wall?

E-flute at 1.5 mm suits skincare sets up to about 2.5 kg and keeps dimensional weight low. For glass bottles above 3 kg, multi-bottle gift sets, or long-haul courier routes, choose BC double wall or a reinforced side wall.

Q4: Can I get a sample before a bulk order?

Yes. Plain stock samples are free, freight collect. A custom printed sample takes 5–7 days and the sample fee is credited back on orders above 2,000 pcs.

Q5: Which artwork files do you need?

AI, PDF or CDR vector files with fonts outlined and images at 300 dpi. If you only have a logo, our design team lays out the dieline at no extra charge.

Q6: Is the paper insert really necessary?

For glass skincare it is the cheapest insurance available. A die-cut insert adds about 0.06–0.15 USD per box and removes the need for bubble wrap, tissue paper and air pillows, which usually costs more and looks worse.

Q7: Will it pass Amazon FBA requirements?

Yes, when sized below the oversize threshold. We reserve an FNSKU label area, avoid loose fill, and can provide an ISTA-3A transit test report for marketplace compliance.

Q8: Is the box recyclable?

The standard build is 100% recyclable corrugated with water-based ink and no plastic tape. FSC certified liner is available, and gloss lamination can be replaced with aqueous varnish if your market requires plastic-free packaging.

Q9: What are the payment terms?

30% deposit by T/T before production and 70% against the B/L copy. L/C at sight for orders above 30,000 USD, and PayPal for sample fees.

Q10: What if the goods arrive damaged?

Every batch is inspected to AQL 2.5 and drop-tested before packing. If a genuine transit failure is confirmed by photos and the test report, we remake the affected boxes or credit the value on your next order.

WHY BRANDS ORDER FROM US

Structural engineering first: we size the box from your bottle and test the flute choice, so you never pay for a wall stronger than needed and never gamble on one that is too thin.

Color control: signed color standards and spectrophotometer checks keep your red and white identical across **wholesale mailer boxes** reorders, shipment after shipment.

Faster packing lines: tape-free RETF closure and flat-packed delivery save labor in your own warehouse, and finished parcels stack on pallet patterns you already use.

One contact: Betty follows your file from quotation to delivery — no handover between sales people, no repeated explanations.

Documented quality: drop-test video, edge crush record and AQL report travel with the shipping documents, ready for your own **subscription box mailer** or retail compliance file.

Send your product size, quantity and logo file — you will receive a costed quotation, a free dieline and a 3D mock-up in your inbox within 12 working hours.
