## Product Description

### Custom TWS Earphone Hang Tab Box , Rigid Top Lid with Silver Foil & Emboss , Matte Lamination Retail Packaging

### Product Description

This custom TWS earphone hang tab box is designed for wireless earbuds, Bluetooth earphones, and other compact consumer electronics. Featuring a rigid top lid and an integrated plastic hanging hook, it is ideal for retail shelf displays in electronics stores, supermarkets, and shopping malls.

The top lid is made from 800gsm rigid paperboard with 157gsm art paper, providing a sturdy and premium packaging structure. Its exterior features full-color printing with matte lamination, while the earphone product image is enhanced with spot UV for added contrast and visual impact. The brand logo combines silver foil stamping and embossing, creating a distinctive raised metallic finish. Product feature icons, including noise cancellation and battery life, are clearly displayed to help customers understand key product benefits at a glance.

The bottom tray is made from 350gsm white cardstock with a one-piece folding structure. It also features custom color printing and matte lamination. The clean white interior has no additional insert, allowing the finished earphones to be placed directly inside.

Combining premium rigid packaging with convenient hanging display functionality, this custom Bluetooth earphone box offers an effective balance of brand presentation, product protection, and retail practicality.

### Key Features & Benefits

**1. Rigid 800gsm Paperboard Lid — Premium Structure & Durability**

The top lid is constructed from 800gsm rigid paperboard, offering excellent structural strength and a solid, premium feel. It helps protect wireless earbuds while creating an upscale unboxing experience for consumer electronics brands.

**2. Integrated Plastic Hang Tab — Convenient Retail Shelf Display**

The built-in plastic hanging hook allows the packaging to be displayed directly on retail pegboards and supermarket shelves. It helps maximize vertical display space and improves product visibility in crowded retail environments.

**3. Silver Foil Stamping & Embossing — Eye-Catching Brand Presentation**

The brand logo features a combination of silver foil stamping and embossing, creating a raised metallic effect. This premium finishing technique enhances brand recognition and gives the packaging a more sophisticated appearance.

**4. Spot UV & Matte Lamination — Premium Visual Contrast**

Matte lamination creates a smooth, elegant surface, while spot UV highlights the earphone product image with a glossy finish. The contrast between matte and glossy textures makes important visual elements stand out.

**5. Custom Printed Bottom Tray — Simple & Practical Packaging**

The 350gsm white cardstock bottom tray features a one-piece folding construction. Its clean white interior provides space for directly placing the finished earphones without an additional insert, keeping the packaging design simple and cost-effective.

### Application Scenarios & Customer Concerns

This custom TWS earphone packaging is suitable for consumer electronics brands, wireless audio manufacturers, and retailers looking for premium retail-ready packaging.

| Application Scenario | Customer Concerns | Our Factory Solutions |
|---|---|---|
| Wireless Earbuds Packaging | How to make small electronic products stand out on retail shelves? | Integrated plastic hang tab supports pegboard and vertical shelf displays. |
| Bluetooth Earphone Retail Packaging | How to create a premium appearance without using a fully rigid box? | 800gsm rigid top lid combined with a 350gsm folding bottom tray. |
| Consumer Electronics Gift Packaging | How to improve brand image and perceived product value? | Silver foil stamping, embossing, spot UV, and matte lamination. |
| Supermarket & Electronics Store Display | How to make packaging attractive and easy to display? | Custom product images, clear feature icons, and hanging display functionality. |
| Private Label Audio Products | How to create packaging consistent with brand identity? | Custom dimensions, colors, printing, logo treatments, and finishing options. |

| Surface Finish | Matte Lamination, Gloss Lamination | Creates different surface textures and visual effects. |
| Logo Finishing | Silver Foil, Gold Foil, Embossing, Debossing | Enhances brand identity and packaging value. |
| Decorative Effects | Spot UV, Metallic Effects | Highlights selected graphics and product images. |
| Hanging Accessory | Custom Plastic Hang Tab | Supports different retail display requirements. |
| Interior Design | Plain Interior or Custom Insert | Accommodates different product configurations. |

## How to Customize Your TWS Earphone Packaging

A simple six-step process from initial inquiry to mass production.

| Step | Customization Process | What We Need From You |
|---|---|---|
| Step 1 | Share Your Requirements | Product dimensions, quantity, packaging application, and target budget. |
| Step 2 | Confirm Box Structure | Confirm the rigid top lid, folding bottom tray, and plastic hang tab design. |
| Step 3 | Select Materials & Finishes | Choose paperboard thickness, printing, matte lamination, silver foil, embossing, and spot UV. |
| Step 4 | Artwork & Design Confirmation | Provide your logo and artwork, or work with our team on the packaging layout. |
| Step 5 | Sample Production | Produce a physical sample for checking dimensions, structure, printing, and finishing effects. |
| Step 6 | Mass Production & Quality Inspection | Manufacture the approved packaging and inspect finished products before shipment. |

## Packaging & Shipping

We provide customized packing and international shipping solutions for wholesale paper packaging orders.

| | |
|---|---|
| **Sample Packaging** | Samples are securely packed to prevent damage during transportation. |
| **Bulk Packaging** | Finished boxes are packed in export-standard cartons. |
| **Shipping Methods** | Express Courier, Air Freight, Sea Freight, and Other Available Logistics Solutions. |
| **Express Shipping** | Suitable for samples and urgent small orders. |
| **Air Freight** | Suitable for medium-sized orders requiring shorter delivery times. |
| **Sea Freight** | Suitable for large-volume wholesale orders with cost efficiency as a priority. |
| **Shipping Destination** | USA, Canada, UK, Europe, Australia, and Other International Markets. |
| **Lead Time** | Confirmed according to order quantity, material availability, and production schedule. |
| **Shipping Cost** | Calculated according to order quantity, carton dimensions, gross weight, and destination. |

## Frequently Asked Questions (FAQ)

**Q1: Can I customize the size of this TWS earphone box?**

Yes. We offer fully customized dimensions according to your earphone product size and packaging requirements. You can provide product dimensions or send us a physical sample for reference.

**Q2: Can I change the silver foil logo to gold foil or another finishing effect?**

Yes. We support silver foil, gold foil, rose gold foil, embossing, debossing, and spot UV. Different finishing techniques can also be combined to create a distinctive brand appearance.

**Q3: Is the plastic hanging hook included in the packaging design?**

Yes. The box can be manufactured with an integrated plastic hang tab for retail pegboard and hanging shelf displays. The hook style and dimensions can be discussed according to your display requirements.

**Q4: Can you print my own brand logo and product images?**

Absolutely. We support full-color CMYK printing and Pantone color matching. You can provide your logo, product photos, product information, and complete artwork.

**Q5: Can you add an EVA or paper insert inside the box?**

Yes. Although this design uses a plain white interior without an insert, we can customize EVA foam, paperboard inserts, or other suitable interior structures to hold your earbuds and accessories securely.

**Q6: Can I order a sample before placing a bulk order?**

Yes. We recommend approving a pre-production sample before mass production to check the box dimensions, structure, printing quality, and special finishing effects.

**Q7: What is your MOQ for custom TWS earphone packaging?**

MOQ depends on the box structure, material selection, printing requirements, and production setup. Please contact us with your specifications for a customized quotation.

**Q8: Do you ship custom earphone boxes to the USA and Europe?**

Yes. We support international shipments to the USA, Canada, UK, European countries, Australia, and other markets. Shipping methods can be selected according to your budget and delivery schedule.

**Q9: Are you a packaging manufacturer or a trading company?**

We are a custom paper packaging manufacturer, providing OEM and ODM services. We can assist with material selection, structural design, printing, finishing, sampling, and bulk production.
